#### **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

All-Options is seeking a grant of \$5,000 from the Sophia Travis Community Service Grants Program for the purchase of diapers and baby wipes. This funding will help us meet the ongoing and increased community need due to the economic changes in Bloomington and Monroe County. Since 2015, All-Options has distributed well over 2 million diapers to Bloomington area residents from our Pregnancy Resource Center. Over the past year, our program has reached more families and children than ever - and since July 2021, we have seen a 50% increase in the number of families we are supporting with diapers each month. Our material support has increased to include pads and tampons, as well as condoms and pregnancy tests. With our contact-free distribution model, families in need may receive supplies once per month. Through strategic spending and careful management of our funds, and because of the grants we received in the past year, we were able to supply more families with these essential supplies.

Another exciting development is that, beginning in August 2021, we distributed diapers at a bonus site, once a month, at the Bloomington Housing Authority's Crestmont Community Center. Now, anyone in Bloomington or Monroe County is also able to receive bonus diaper supplies, supplied by All-Options, at Crestmont Center's weekly food pantry. This allows us to reach even more families in need than ever before. All-Options also delivers supplies directly to approximately 25 families each month, who otherwise might not be able to visit in person.

Diaper need continues to be widespread in our local community (at least 1 in 3 families struggle to afford adequate diapers.) Our clients include single mothers struggling to pay for the diapers required at their child's daycare; couples cutting back on groceries and other essentials to try and pay for the diapers their babies need; and grandparents who have taken unexpected custody of their grandchildren when a parent is incarcerated or affected by drug addiction. Before finding our diaper program, clients have reported trying to stretch their diaper supply by reusing diapers, waiting longer to change dirty diapers, or using old clothing or sheets as makeshift diapers. The need is desperate, overwhelming, and unacceptable.

When a child lacks an adequate supply of diapers, too much time in soiled diapers also puts them at risk of severe diaper rash and bladder infections. Providing clean diapers can reduce the need for nonessential visits to the doctor, which is critical both for limiting exposure to germs and reducing the burden on our health care providers at this time.

The All-Options Hoosier Diaper Program addresses the often-overlooked diaper need facing families who are struggling to make ends meet. Clean diapers keep infants and toddlers dry and healthy, and have a positive

ripple effect on a family's situation by limiting illness, enabling children to go to daycare, and thus allowing parents to attend school or work. Ensuring access to clean diapers helps low-income children and families build a strong foundation for growth and development. While the needs of vulnerable populations are many, All-Options focuses on amplifying what we already do well -- meeting families where they are and providing tangible support, without judgment. With families already facing incredible burdens in the face of the pandemic and ongoing economic struggles, we can lift one of their needs and ease their worries in at least one significant way.

We know that a seemingly small item – a pack of diapers – can mean the difference between a parent being able to go to work tomorrow or losing their job; between a child getting their needed rest through the night, or wailing in discomfort; between a healthy child and one who suffers from chronic infections that can also rack up medical costs. The simple act of providing diapers with judgment-free support and compassion has the capacity to change a person's life in a dramatic way. That's why All-Options is seeking a grant of \$5,000 from the Sophia Travis Community Service Grants Program. Thank you for your consideration!

# **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

Amethyst House's mission is to provide a foundation for recovery by partnering with individuals, families, and communities impacted by substance-use disorders, offering highquality residential and outpatient treatment services and guidance for healthy living. Amethyst House is requesting \$5,000 from the Sophia Travis Community Service Grant to help us purchase healthy, sustainable food that we provide to our residents. Our current food budget is \$35,000; \$5,000 would cover 14%, of said budget; a tremendous help. Other funds received from Division of Mental Health & Addiction are utilized for the remaining 86%. Making sure that our residents are given a proper diet is our highest priority and this \$5,000 supplement to our annual food budget remains crucial. Amethyst has two residential facilities that serve adults with substance use diagnosis, both a Men's and a Women's Residential Treatment facility. We can house up to 14 women and 17 men at the appropriate facility. At each of our homes we provide a full range of food daily, feeding as many as 31 Monroe County residents at a time, 2-3 meals a day. Without question, our food budget is one of the most substantial portions of our monthly residential costs, and yet remains one of the highest priorities out of necessity. Amethyst has made a concerted effort to reduce our food spending; however, the daily cost of food at our men's facility averages \$52 per day, while the daily cost of food for our women's facility averages \$32 per day. Total food costs at \$84 per day for both houses \$5,000 would cover the cost of food for approximately 60 days. Amethyst House's residential program remains one of the most affordable substance abuse treatment programs in Indiana, charging below-average treatment fees residential treatment. Treatment that is recognized and sought out by many as the best option. Proper nutrition is especially important with individuals who are embarking on recovery from drugs and alcohol. Unhealthy eating habits, the use of drugs and alcohol, often create an environment that place our clients at risk for disease, malnutrition, as well as an inclination towards poor nutrition as they remove their substance of choice from their life. A core belief of ours is that early recovery is a critical time period to help individuals develop new habits that not only counteract the physical effects of using behaviors but aid them in learning new habits that form a lasting and sustainable recovery lifestyle. Our goal is to provide healthy nutritional food to our clients two times per day for 365 days per year. Amethyst provides treatment and housing to one of the most vulnerable populations, those with substance use disorder. Many of our clients have co-occurring issues such as health conditions and other mental health diagnoses. We have seen an increase in anxiety and depression throughout the past two years and related community disconnections. We have always had a focus on preparing our clients to reintegrate back into society now, more so than ever considering the rise in substance abuse reported by the CDC in 2021. If there are any further questions regarding our requests, please contact Gina Lovell at 812.336.3570, ext.203. The Amethyst staff wishes to thank the committee of the Sophia Travis Community Service Grant for their time and consideration of our application.

### Area 10 Agency on Aging Adult Guardianship Program of Monroe and Owen Counties Volunteer Advocates for Seniors & Incapacitated Adults (VASIA)

#### Organization's Mission

The mission of Area 10 Agency on Aging is to serve as a leader in providing resources, solutions and connections for seniors, persons with disabilities and family caregivers living in Monroe and Owen counties.

#### Project Narrative

The Monroe & Owen County Adult Guardianship Program (Adult Guardianship Program-AGP) is a Volunteer Advocates for Seniors and Incapacitated Adults (VASIA) program - a collaborative effort between the Indiana Supreme Court, Office of Judicial Administration, Indiana Office of Court Services, Area 10 Agency on Aging, and Monroe and Owen County Circuit Courts. The program provides trained and supervised volunteers to support and advocate for the individual where AGP is the court-appointed guardian. The program and its volunteers assist vulnerable adults and the courts in decision -making regarding critical needs. VASIA infuses the principles of the Indiana Adult Guardianship Code of Ethics and National Guardianship Association (NGA) Ethics & Standards. The AGP is a decision-making agency that supports, and advocates to assist individuals deemed incapacitated by the Court in making medical, personal, financial and end-of life decisions.

The Program Manager, that oversees AGP, earned certification as a National Certified Guardian by the National Guardianship Association in 2021. Volunteers in the AGP complete a training program developed and directed by the Program Manager designed to educate volunteers on compassionate, person-centered, ethical advocacy.

We successfully received grant support from the Indiana Supreme Court to award a Volunteer Advocates for Seniors and Incapacitated Adults Program (VASIA) in Monroe County. This funding meets 50 percent of the operations and requires 50 percent local match, half of which can be in-kind and half must be cash sources. The Perry Township Trustee provides in-kind support to AGP by generously providing office space at their S. Walnut Street location.

Grant funding, in part, supports the costs of a Program Manager, who serves as the legal guardianship point of contact, mentors and supports trained advocates. The volunteer advocates go through extensive training. They serve as volunteer advocates and primary contact for adults in need of services. Unlike many other VASIA programs, our program offers guardianship of the person, the estate, or both as needed.

In the spring 2019, AGP, like most organizations, was challenged in meeting the needs of our persons under guardianship due to the public health emergency from the COVID pandemic. Advocating for those in need of our services as well as keeping volunteers safe has been and

continues to be an on-going challenge. The majority of our guardianships reside in communal settings such as group homes and nursing homes. Our volunteers are primarily retirees. N95 masks have been provided to all volunteers. It was not unnoticed that visitation restrictions had the potential to place our guardianships in vulnerable situations due to facility staff shortages and stress, outbreaks in the facilities and our inability to complete in-person visits. Volunteers scrambled to have window visits and insist on virtual visits where we would have the best opportunity to see the person head to toe.

From beginning of operations, with the first guardianship order on March 15, 2016, to present, the program has served 43 individuals, 32 of which are Monroe County residents. Nearly 50 percent of the referrals have been from Adult Protective Services. Other referral sources include Judges, Guardian ad Litem, Attorneys, IU Health Bloomington Hospital, skilled Nursing facilities, and providers that serve the Intellectual/ Developmental disability population.

Persons referred to AGP have experienced homelessness, neglect & abandonment from family, mental illness, addiction, financial exploitation, and dementia. Many are diagnosed with intellectual and developmental disability and have outlived family members tasked to care for them.

We receive support and funding from the Indiana Supreme Court for our combined Monroe and Owen County program. Local support sources this year include Personal Financial Services and nominal guardianship fees collected from the person if appropriate, which does not meet our requirement. We are requesting assistance to meet the \$6,000 needed for this 2022 program year.

#### Monroe County Grant History

Area 10 has received support from Sophia Travis Community Service grants in the past. The most recent was in 2021 to support the Endwright East Active Learning Center. The Volunteer Advocates for Seniors and Incapacitated Adults (VASIA) program received support from a Sophia Travis Community Service grant in 2018 for program support.

### Organization's Mission

The mission of Area 10 Agency on Aging is to serve as a leader in providing resources, solutions, and connections for seniors, persons with disabilities and family caregivers living in Monroe and Owen counties.

### Project Narrative

Endwright East Active Living Community Center is a program of Area 10 Agency on Aging, a partnership with the City of Bloomington Parks & Recreation, and in collaboration with IU Health Bloomington Alzheimer's Resource Services. Endwright East serves as a safe, inclusive environment for Monroe County seniors to enhance their wellbeing through health, fitness, friendship, and creative arts programming. We are dedicated to keeping classes free or affordable for all seniors. Since opening our doors in 2019 as a pilot program, over 700 local seniors have joined us as members (free membership).

Monroe County seniors have been outspoken about their excitement for our centrally located and accessible senior center, and we intend to continue fulfilling that need. Our grant with the City of Bloomington Parks & Recreation financially supports our phone, (short-term lease) rent and one part-time staff person coordinating the space. Area 10 provides all the staffing and support for program planning, scheduling, and direct programs, as well as the congregate meal program. Past support through the Sophia Travis grant allowed us to operate for an additional day this past year.

This year, we are requesting grant funding to: upgrade our technologies to better support our virtual, hybrid and in-person programming; acquire stable and secure wireless internet connection for our Tech Help program and general use; and upgrade our space with safer and more accommodating seating. At Endwright East, we host hybrid book clubs, virtual fitness classes, in-person seminars, as well as streaming movies, and many other activities that involve using technology. We are currently using TVs that were graciously donated, but often operate in a less than perfect manner. Upgrading our TV and videoconferencing tools will not only improve the way we are able to present our programs but will also mobilize our Tech Station to allow more flexibility in where certain activities are set-up. Being located inside the College Mall limits our access to affordable internet service so we have managed with the free, public option that the College Mall provides if you join the company's mailing list. Having stable and secure wireless internet of our own at Endwright East will allow for smoother connections and fewer interruptions while facilitating our Tech Help appointments. It will simplify the use of other technologies, such as our credit card system and senior center management program. It will also give our senior community members the option to safely connect their mobile devices while they visit without an agreement to be solicited via email.

This year, over half the visits to Endwright East were to attend a group exercise class, whether it was chair yoga, tai chi, or one of our evidence-based balance classes. These hourlong classes are our most popular offerings and rely on stable chairs. We have been using donated metal folding chairs that are uncomfortable and difficult for individuals to return to standing, because they have no arms. Replacing our current folding chairs with safer and more accommodating

armchairs will better fit the comfort and safety needs of our senior members participating in group exercise classes.

The health and safety of our staff, volunteers, members, and the general public continue to be at the forefront of our minds as we operate Endwright East. While we no longer require face coverings to be worn in our space (as of July 1, 2022), we continue to require every individual to sign a waiver that testifies to not having symptoms/recent exposure. We have masks and sanitizer readily available, and staff use an electrostatic sprayer to disinfect surfaces more thoroughly throughout the day and at the end of the day.

### Monroe County Grant History

Area 10 has received support from Sophia Travis Community Service grants in the past. The most recent was in 2021 to support the Endwright East Active Learning Center.

## **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

Beacon, Inc. is a solutions-based antipoverty organization, dedicated to aiding and empowering people experiencing poverty through a full range of support services to reduce hunger, homelessness, and poverty in the communities we serve. Beacon provides daytime and emergency overnight shelter, hunger relief, permanent supportive housing, rapid re-housing, social services and case management, employment support, street outreach, eviction prevention, prescription and health care assistance, life essentials (restrooms, laundry, showers, mail, ID, etc.), and other health and human services to hundreds of adults and children each day and thousands each year.

Beacon, Inc. is respectfully requesting \$7,325 for two AEDs and Red Cross CPR/First Aid training for 20 students and five trainers.

The Mayo Clinic states that adults experiencing homelessness are more likely to die of heart disease by 40% to 50% as compared to adults who have consistent housing. Of the guests we serve at Beacon, 96% have incomes at or below 30% of the area median income, which is considered extreme poverty. Without being able to afford housing, our guests are more at risk for adverse health conditions, including an increased risk of heart disease.

According to the American Heart Association (AHA), AEDs double the chance of survival of a cardiac arrest. It is estimated that they save approximately 1,700 lives each year. In addition, an AHA study found that due to a lack of CPR and First Aid training, the majority of American workers are not equipped to properly respond to cardiac emergencies at their place of work. Beacon currently does not own any AEDs and does not provide CPR/First Aid training to our employees or volunteers. Having these tools in place would greatly improve our ability to care for our guests in the case of a cardiac emergency. AEDs and CPR/First Aid training will equip us to care for our fellow employees and our volunteers in the case that they would experience a cardiac emergency as well.

The 20 students who will undergo the Red Cross CPR/First Aid training will be Beacon employees and volunteers who will become certified in several types of emergency situations; including first aid, breathing, and cardiac emergencies. The five trainers will be Beacon employees who will become qualified to be Red Cross CPR/First Aid instructors.

In addition to CPR and first aid, the training for our employees and volunteers will include universal precautions. This term describes the standard procedures to avoid the transmission of bloodborne pathogens that occurs when an individual is exposed to blood and other bodily materials which may contain infectious diseases. Our employees and volunteers who work directly with our guests encounter a variety of situations in which universal precautions would be useful. We distribute basic first aid supplies, such as peroxide and bandaids, to our guests who arrive with cuts and sores. There are a significant number of our guests who have small injuries which require treatment.

One AED would be located at our day shelter and the other at our night shelter, preparing us for emergencies around the clock at our locations which serve dozens of individuals each day. The employees and volunteers who will undergo the CPR/First Aid training work at both our day and night shelters as well as on our street outreach team, rapid re-housing team, and at our housing sites for individuals with disabilities.

In terms of health and safety related to the pandemic, we have established protocols over the last two years

to reduce risk. Beacon requires staff and volunteers to be vaccinated and we practice social distancing in our offices and shelter spaces as much as possible. In addition, we provide all CDC-recommended supplies for homeless shelters, including soap, hand sanitizer, cleaning supplies, and masks.

At Beacon, we greatly care about the safety of our guests, staff, and volunteers. Having AEDs as well as personnel trained in CPR and first aid will allow us to create a safer place for individuals experiencing homelessness and extreme poverty.

#### **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

Since 1973, Big Brothers Big Sisters of South Central Indiana has served as our community's premier youth-service organization providing professionally supported 1-to-1 mentoring services to at-risk youth. Our mission is to create and support 1-to-1 mentoring relationships that ignite the power and promise of youth. Our vision is that all youth achieve their full potential. We ignite the power and promise of youth through our on-going professional staff support, coaching and monitoring of each 1-to-1 mentoring relationship. This is what makes us unique from other mentoring programs. Our staff recruits, carefully screens and trains mentors who provide support, friendship and guidance to children and youth who are greatly impacted by adversity. We serve youth ages 7 to 18 in Monroe County through a variety of mentoring projects and initiatives including our community-based and site-based mentoring programs. Benefits from our high-quality, evidence-based mentoring programs include increased educational success; healthy relationships; improved mental, physical and social well-being; fewer incidents of risky behaviors and more positive future aspirations.

Since 2021, our agency has had a 30% increase in the number of parents seeking mentors for their children. We currently have 152 Monroe County children enrolled and waiting for a Big Brother or Big Sister.

The pandemic caused our agency to adjust, pivot quickly and be flexible in our service delivery. We suspended our site-based programming as schools closed. Our agency has continued to monitor COVID's impact on the community and plans to restart our site-based program again this year. While our community-based mentoring program continued during the pandemic, we encouraged youth and mentors to meet virtually at the beginning of the pandemic and if meeting in person to abide by our safety guidelines for outdoor activities. Monthly support through contacts made by our staff with both mentors and children ensured that safe and productive mentoring relationships developed.

For 2022, we are seeking a grant to support our Big Tool Chests Project which aligns with the Sophia Travis Community Service Grant primary area of "Youth Enrichment Opportunities".

The Big Tool Chests Project will provide materials and activities to help youth and mentors develop their one-to-one mentoring relationship during the first three month of being matched and will help the agency recruit additional mentors for children waiting for a Big Brother or Big Sister. There are currently 100 Monroe County children matched with a mentor and an additional 152 Monroe County youth waiting for a mentor.

Big Match Tool Chest: This phase of the project would allow the agency to create a physical safe space at our office for match meetings between youth and mentors. The actual Big Match Tool Chest items would include age-appropriate games, educational materials, crafts and match activities; family first aid and safety kits; and lists of local community activities and resources for families. Items will be used by Monroe County children and mentors during their one-to-one time together. Other items will be provided for Monroe County families of mentored youth.

Big Ambassador Tool Chest: This phase of the project would Increase the agency's outreach and recruitment of additional mentors needed to be matched with the children who are currently waiting for a mentor. The Big Ambassador Tool Chest would be used by staff, Board members and other agency ambassadors and include items such as recruitment cards, program resources, Big Brothers Big Sisters branded merchandise and agency information sheets.

#### PROJECT NARRATIVE

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

The mission of the Boys & Girls Clubs of Bloomington (BGCB) is to empower all young people, especially those who need us most, to reach their full potential as caring, productive, and responsible citizens. Club programs build character and strengthen life skills while providing hope and opportunity through accessible programming made possible by low membership dues (\$20/year, \$5/year for residents of the Bloomington Housing Authority), transportation to and from the Club, and programs such as cooking, tutoring, drama, etc. BGCB meets the community's needs by providing well-rounded afterschool programs that support the goals of the community and the needs of its families.

We are requesting \$10,000 to support replacing the mini-bus at the Ferguson Crestmont Club. The Club currently has one older, unreliable minibus that it uses to transport kids home in the evenings, go on field trips, take kids on career exploration outings, and bring members from school to the Club. The 14-passenger minibus is a 2002 GMC Girardin/Savana Van. It has received regular maintenance since it was purchased by the Club in 2011. In the past year, the bus has had mechanical problems that would require extensive repairs, and which have prevented the Club from using it to provide regular transportation for our members. Support from the Sophia Travis Community Service Grant (STCSG), would allow us to purchase a new minibus to continue providing our members with accessible and reliable transportation. We are also requesting funding from Curry Auto Center. The portion of the project not funded by STCSG and Curry Auto Center will be funded by the Boys & Girls Clubs of Bloomington's individual donors.

This project is unique because of the Ferguson Crestmont Club's location and commitment to accessible transportation. The Club is located in the same neighborhood as the Bloomington Housing Authority, and has been located there since 1990. It is one of the only Clubs in the state of Indiana located within a public housing development, serving kids who have the greatest need. Members are provided with safe and reliable transportation to and from the Club, directly addressing STCSG's key program element: Transportation Assistance. This key program element allows the Club to provide quality programming that addresses another key area of support for the Sophia Travice Community Service Grant (STCSG): Youth Enrichment Opportunities. More than 80% of all Club members utilize our transportation system, making this a vital aspect of service delivery. Without transportation funding and support, we would not be able to serve nearly as many Monroee County youth.

The Ferguson Crestmont Boys & Girls Club serves members who overwhelmingly fall into the low and low-moderate income categories. In 2021, 82% of the families we served reported incomes under 50% AMI, and 70% of our members received Free/Reduced Lunch. Lack of transportation to and from afterschool programs is often an access barrier which disproportionally affects children from low-income households. The demand for afterschool programs is much higher among low-income families than families that do not qualify for the Free/Reduced Lunch Program: Accessible, affordable, and quality youth programs are essential for these parents to keep their employment and peace of mind. As found in a study conducted by the Indiana Afterschool Alliance, 72% of Indiana parents strongly believe that after school programs, like the Boys & Girls Club, help them keep their jobs. The SCAN study also explains that the economic and social challenges faced by many of Monroe County's youth limit their access to arts programs, extra-curricular education opportunities, and sports groups. According to the Afterschool Alliance's "Indiana After 3PM" 2020 report, 47% of parents reported "their child does not have a safe way to get to and come home from programs." In their national report "America after 3PM," parents living in areas of concentrated poverty were more likely to report transportation as preculsionary in afterschool programs than parents living outside of concentrated poverty.

Without the Club, many members would lack access to extracurricular activities that their more financially fortunate peers participate in. Others who may have the means to afford such activities would lack transportation to and from them due to working parent schedules. Funds provided by the STCSG would help the Club fills the gap for these children.

#### Sophia Travis Community Service Grant Program

#### Boys & Girls Clubs of Bloomington Past Grants received from Monroe County:

In 2021, the Club received:

• \$5,180.00 from STCSGP for flood recovery damage

In 2020, the Club received:

- \$4,050 from STCSGP
- \$25,041 for CARES funding

In 2019, the Club received:

• \$5,000 from the STCSGP

In 2018, the Club received:

• \$5,000 from the STCSGP

In 2017, the Club received:

• \$4,200 from the STCSGP

In 2016, the Club received:

• \$7,000 from the STCSGP

In 2015, the Club received:

• \$5,500.00 from the STCSGP

In 2014, the Club received:

• \$8,600.00 from the STCSGP

In 2013, the Club received:

• \$9,800 from the STCSGP

In 2012, the Club received:

- \$10,000 for a grant supporting repair and maintenance of our transportation fleet
- \$3,380.48 for the CARES grant

In 2011, the Club received:

• \$1,789.47 for the CARES grant

In 2010, the Club received:

- \$6,400.00 for a transportation grant
- \$2,202.42 for the CARES grant

In 2009, the Club received:

- \$5,700.00 for a transportation grant
- \$1,228.00 for the CARES grant

In 2008, the Club received:

- \$6,300.00 for a Community Service grant
- \$2,902.00 for the CARES grant
- \$3,000.00 for a Department of Child Services grant for our summer camp program

In 2007, the Club received:

- \$4,037.00 for a Community Service grant
- \$2,250.00 for the CARES grant

Item	Cost
1. Patient Assistance – Grocery Gift Cards	\$3750
2. Patient Assistance – Gas Gift Cards	\$1250
3. Patient Assistance – Program Management	\$2000

#### **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary - that includes your organization's mission statement and a description of the specific project for which you seek funding. PLEASE ALSO INCLUDE: information on how you will address concerns about the health and security of your staff, clients, and the public in light of the ongoing pandemic and its possible long-term impacts on community health.)

Our mission is to ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community. So that no one faces cancer alone.®

Cancer Support Community Central Indiana exists so that no one faces cancer alone. For over 20 years, we've led the charge in Indiana to build a vibrant community of cancer survivors and their loved ones. We focus on providing support services to complement medical treatments to nurture every part of a patient, survivor, family member, friend or caregiver as they learn, grow, and recover. With any cancer diagnosis come feelings of hopelessness and social isolation. It's our goal to make sure cancer patients don't have face these feelings alone.

Within the past 5 years, a collaborative partnership between Cancer Support Community Indiana, Bloomington Health Foundation, and IU Health lead to a start up grant from Bloomington Health Foundation to launch new cancer support programming in Bloomington by funding the new CSC South Central Indiana satellite office. The programs will be open to serving residents in south central Indiana mirroring the IU Health Bloomington Hospital footprint. Currently in person programs are all happening at the new satellite office located at 1719 W 3<sup>rd</sup> Street in Bloomington. When possible, programs are offered in a virtual or hybrid format for anyone impacted by cancer who would like to join, removing transportation as a barrier. Examples of programming offered include: individual and support group counseling, yoga, reiki, massage therapy, art therapy, music therapy, nutrition classes, cancer education classes, social connections events and activities, and financial assistance through our boutique (wigs, hats, scarves) and Patient Assistance Fund. All of our services are 100% free to anyone impacted by cancer always. This reduces any barriers someone might face to receiving essential mental, emotional, or social support they may need from our programs.

The COVID 19 pandemic exacerbated basic needs during the pandemic, and this is especially true for cancer patients in active treatment. A cancer diagnosis can bring a lot of uncertainty and change to someone's life. Cancer treatments are most often quite vigorous and take a great toll on your body. Our programs help people to manage their emotional and mental health while undergoing such a difficult experience. The services and programs offered by Cancer Support Community are essential to cancer treatment plans because treatments cannot be effective if the patient doesn't have hope, social connections, and resources to support their mental health.

Our focus for this request is on helping cancer patients in active treatment receive the food and transportation they need to be able to maintain their physical health and attend their medical appointments during their cancer treatment plan. The Patient Assistance Fund provides gift cards for gas and groceries to cancer patients who are: 1) receiving active treatments, and 2) at 300% of poverty or below.

We've already received a funding award from United Way of Monroe County through their certification and allocation process of \$8,500 per year for the next 3 years to support our Patient Assistance Fund.

Even more recently, cancer patients and everyone has felt the impact of recent inflation in prices for gas and groceries. Gas has gone up to over \$4.00/gallon. A gallon of milk now costs over \$3.00 or \$6.00 per gallon if you want to purchase organic. We are requesting \$7,000 from Sophia Travis grant fund to provide additional support to cancer patients in need of financial assistance. This request would allow us to provide an additional 25 grocery and gas gift cards to residents in Monroe County. Currently, our program limits assistance to applicants to once per year. If the additional funds from this grant request are awarded, we would be able to extend our support to each individual who needs support to twice per year.

Our data tracking from November 2021 through May 2022 shows that we sent grocery and gas gift cards to 12 individuals from Monroe County. We're expecting to serve around 25 individuals in a 12 month time frame (or about 2 people each month) with these grant funds.

Complimenting the financial assistance program our Nutrition for Wellness program consists of monthly classes offering live cooking demonstrations by professional chefs from local restaurants around Bloomington. The chefs provide education around meal planning, nutrition, how to shop for healthy ingredients, and their professional experience. Each class offers participants the opportunity to enjoy the meal prepared during the live cooking demonstration, which removes some of the fear people may have in trying to cook something new using healthy ingredients that can be intimidating. We've had excellent feedback around this program. Participants have been emailing and calling us to let us know they prepared the meals they learned about at home on their own! These classes offer free support to participants who receive the financial assistance, so they can learn to use their grocery cards to purchase healthy ingredients and prepare nutritional and simple meals.

#### Catholic Charities Bloomington (CCB) Living with ADHD: A Parent Support Group

**Mission Statement:** CCB is committed to enhancing the availability of quality mental health services. We do this through the delivery of professional mental health education and counseling on a sliding fee scale and through advocacy for affordable, easily accessible community mental health services.

#### **Our Project:**

Catholic Charities Bloomington's Living with ADHD: A Parent Support Group helps enrich the lives of youth living with ADHD by providing a safe group setting for their parents to connect, share resources, and learn interventions so they can overcome the stigma of the diagnosis and thrive together.

#### Why It Matters:

Attention Deficit Hyperactivity Disorder (ADHD) is a chronic condition that begins in childhood and is characterized by inattention, impulsivity, and hyperactivity. Over six million children in the United States have been diagnosed with ADHD. Indiana has one of the highest percentages of children diagnosed in the US (about 13%). Life for youth with ADHD is riddled with difficulties in interpersonal, social, and academic skills and is linked to significant impairments in school and relationships. When not properly treated, ADHD may have devastating consequences as children age, including substance abuse and legal difficulties. We provide individualized therapy for children living with ADHD so they can avoid these "later in life" consequences.

Not only are children affected, but the diagnosis of ADHD has marginalized effects on the parents as well. Parents often seek guidance from our agency on how to further help their children, find resources, or connect with other parents. Living with a neurodivergent child is commonly associated with elevated levels of parenting stress. Receiving a diagnosis of ADHD can leave parents feeling alone and overwhelmed. We provide individualized therapy for parents of children with ADHD, so they have the mental stability to support their child through the diagnosis. In searching for support in Monroe and surrounding counties parents have noticed a dire paucity in support in a group therapy setting.

#### **Our Approach:**

Studies provide evidence that participation in peer support groups reduces reliance on services and gives participants a sense of control over the quality of their lives. By developing a relationship of trust with their peers, they work with one another to create plans for responding to challenges and taking care of themselves and their child beyond the group. The role of the facilitator is integral to creating a space of learning and respect, however, the parents often lead the meetings by sharing their own tips, resources, and stories. They can connect with each other after the zoom class to plan play dates for their children. Children with AD HD often are at increased risk of feeling isolated from peer groups and this setting will encourage mingling to advance social skills.

#### What Needs Funding:

Our waitlist continues to grow with urgency to support parents navigating life after diagnosis and living with children with ADHD. To provide this pertinent service to our community CCB is requesting \$3,290 to facilitate Living with ADHD: A Parent Support Group to begin in early fall of 2022 for two groups of five clients. The benefits of this group can be reached to upwards of forty community members including family members of the client. This group will meet once per week for one hour over zoom led by one of our mental health therapists. Our group provides a safe space for parents to share their experiences, understand the unique challenges of raising a child with ADHD, and helps to destigmatize this diagnosis. Each session will begin by educating the parents on a guided intervention which includes creative problem-solving, Theraplay, time

management, or executive functioning management. We help parents acknowledge that this diagnosis makes their child special and realize the mental strength of their neurodivergent children. Creating a community of parents that are experiencing similar obstacles to effective parenting allows the group to affirm the struggle and uplift one another. Offering this support via zoom is integral to the safety of our clients, staff, and public during this unwavering pandemic. Telehealth has offered other benefits including accessibility and bypassing building rapport since clients are joining from their own homes making them feel comfortable enough to explore vulnerable topics.

We will use funding for this project to send two therapists to Theraplay training. With the support of a trained Theraplay practitioner, parents learn to play with their child in a way that establishes felt safety, increases social engagement, and supports development of positive self-esteem making this one of the most important aspects of our project. Session fees are only reimbursed through insurance at 70% and this grant will help us offset those costs for five clients for six weeks in two separate groups. Technology fees for zoom access and computer maintenance for the remaining months of 2022 for two therapists will also be covered through this grant. The remainder of the grant will be used to enroll our therapists in a virtual training conference to advance their knowledge and earn continuing education credits towards their licensure.

#### **Our Project Implementation Overview:**

Implementation of this project would begin by offering this group to our current clients seeking support, then filled through partnerships with Riley physicians, Boys and Girls Club, and New Hope for Families. Parents enrolled in our group will take a "Quality-of-Life" survey upon entrance and exit of this group. The success of this parent group has already been evidenced through implementation of our first group of five families led by Helen Johnson, LCSW in 2022. The funding provided by the Sophia Travis Grant will guarantee that this group will thrive with leadership from two additional Theraplay trained therapists for the remaining months of 2022. The project will remain sustainable throughout the coming years through the generosity of our donors and the interest of our clients. We are confident that this project will extend the life of the grant and continue to provide this unique support to enrich the lives of families with children living with ADHD well into the future.

#### **CJAM Mission**

Serving Monroe County, the mission of the Community Justice and Mediation Center is to promote a civil community through mediation, education, and restorative justice. We envision a fair community that learns from conflict, prevents harm, and grows in understanding.

#### Sophia Travis CJAM Funding History

2010 - \$1,799 2015 - \$400 2016 - \$1,445 2018 - \$1,360 2019 - \$2,460 2020 - \$2,640 2021 - \$2,440

**COVID Health and Safety:** In March of 2020, we established COVID protocols to address safety issues that included no-in person services. We have resumed "normal" operations, although a large part of our programming is still done via Zoom. We have found that this format is often preferred by clients and has eliminated some of the barriers that low-income and over-burdened individuals face when accessing our help. We continue to review local Monroe County Health department/CDC guidelines to assess needed changes.

#### **CJAM General Info**

The Community Justice and Mediation Center (CJAM) has played an important role in helping Monroe County residents respond constructively to conflict for over twenty-seven years. CJAM works with individuals, organizations, the MC court system, area businesses/non-profits and others to manage and resolve conflicts.

Our services include the Victim and Offender Restoration Program (VORP) for juvenile and adult offenders and their victims; a pre-trial diversion program called Shoplifting and Theft Education Program (STEP); community, small claims, and eviction court mediation (Housing and Eviction Prevention Project); conflict coaching; conflict resolution training services; and, facilitation (i.e., Community Voices for Health initiative). We served over 700 individuals in 2021, and referrals remain steady in 2022.

Among the critical benefits that CJAM offers to Monroe County residents are our volunteer mediator's personal contributions of time, knowledge and commitment. More than simply "volunteerism," these community member efforts, taken together, represent a *volunteer service delivery system* devoted to peacemaking, civility and public safety. In non-COVID years we maintain a roster of 35 - 40 active mediators, ranging in age from 20 to 84 years, who deliver 90% of our direct services. In 2020 our volunteer mediator pool shrank by 50%, and while we have been successful in recruiting and training new volunteers, we continue to maintain a smaller active roster, and are in special need of volunteers who have day hours available to mediate during eviction and small claims court sessions. We will continue building a diverse and representative mediator pool focused on recruiting minority volunteers, Spanish speaking and male volunteers, and members of other underrepresented communities. Thanks in part, to your supports over the past several years, we are seeing an increase in the diversity of our mediators.

#### Program and Outreach Materials, Supplies, & Training Scholarships – Project Funding Request

CJAM seeks grant support in the amount of \$2,940 to fund training scholarships and stipends, program supplies and volunteer outreach materials. Our conflict resolution services are built on the time and talents of our volunteers and are enhanced by the extensive training we provide. Those in conflict entrust CJAM mediators with sensitive and oftentimes emotionally-charged information and the credibility of our services in the minds of mediation participants is often that the mediators are people like themselves, whose only interest is in helping them explore and reach their own best agreement to the dispute. Sophia Travis funding will support these efforts.

- 1. Mediator Training Scholarships and Stipends (\$2,500): We are requesting funding of \$2500 for scholarships for our 40-hour Basic Mediation and Restorative Justice Training, and for stipends for other related costs of attending the training. The training scholarships range from \$100 \$300. The training participant cost is \$300 and is required training for our volunteer mediators. The "scholarships" support our efforts to build a diverse and representative mediator team, and our commitment to keeping our services free or low cost. Participants are asked to fill out a short scholarship application and our decisions are based on financial needs, interests, and ability to volunteer with CJAM. Last year we also offered financial support (stipends) for those who need assistance with child care, transportation, language assistance or other special needs in order to be able to attend the training. We feel this is an important component as we work to becoming a more inclusive organization. Participants are asked to fill out a short form and provide receipts.
- 2. STEP Workbooks (\$200): We are requesting \$200 to print 50 of our Shoplifting and Theft Prevention Program (STEP) workbooks @ \$4.00/each. These workbooks supplement STEP programming and are used by the clients, throughout the program.
- **3.** Volunteer Recruitment/Community Awareness: As we have resumed in-person outreach, we are in need of CJAM "tabling" signage of: 1 standing retractable banner (\$135), and 1 table top banner (\$80). Banners will be used to identify and attack visitors at outreach events.

1:00 PM 06/23/22 Cash Basis

.

Project Narrative Synopsis:

Courage to Change Sober Living provides safe, affordable, low barrier, staff and peer supported transitional living to those suffering from substance misuse in Monroe County. CTC is asking for \$3000 to provide (3) scholarships a month to our residents through our Fresh Start Rent Scholarship program. The fund provides assistance to our residents during their stay in our sober living houses. Scholarships are normally given during the first two weeks new residents come to us but can also be requested by our residents under the following circumstances: resident has lost their job and is seeking new employment; resident has relapsed and has returned after treatment; resident has temporary mandated incarceration and will return to CTC. Residents must apply for the scholarship and must meet all other program requirements of our program.

Need:

Most of our residents come to us from the criminal justice system and have little or no family or community support, financial support or the ability to access other resources. The obstacles our residents face are not only financial but also the stigma of having been in the criminal justice system, lack of ties to the community, difficulty in finding employment due to their criminal records, difficulty in accessing social service resources and help and trying to navigate reentering the community while staying sober, housed and paying court fees. The stakes are high for our residents when experiencing these stressors as studies have shown stressors can trigger substance misuse which can then begin the cycle of incarceration once again.

The Fresh Start Rent Program allows our residents to come to us knowing their rent will be paid for the first two weeks of their stay so they can concentrate on finding employment, getting a sponsor, taking care of probation/parole requirements, getting situated into their new home and for many being back in a community they have been gone from for many years. Scholarships allow for some breathing room while residents work with our house managers to work on their recovery plan and address issues they are facing after being incarcerated or in another treatment facility. As stated previously some residents need this help later in their stay when a crisis occurs but most apply for scholarships immediately upon coming into our program.

#### Leverage of Additional Funds:

Sober Joe Coffee is a local business that provides (2) scholarships a month to our residents. COVID hit the business pretty hard but things are looking up and Sober Joe had pledged to once again provide these scholarships. We also ask for donations for this program.

#### Broad and Lasting Impact:

Safe and stable housing is one of the biggest barriers our residents face after incarceration and substance misuse. Studies have shown the first month after release is a very vulnerable period during which the risk of becoming homeless and/or

recidivism is high. (Cortes & Rogers, 2010). Monroe County continues to face a lack of affordable housing options and this is especially true for marginalized communities such as the one we serve. The Herald Times just published an article stating there is less than 10% of rentals in Bloomington that are under \$1000 a month. Couple that with felony and eviction records that most of our residents have and the chance of finding safe and affordable housing especially right when being released from the criminal justice system is bleak. Many times our residents are only released back into the community if they have a safe, stable, sober living environment to come home to, so by providing housing options, CTC helps to support an individual's transition back into our community and is an important factor in preventing relapse and recidivism.

The Journal of Substance Abuse Treatment 2019 study concluded that sober living residences such as CTC remind residents of their goals, and because structure is there — having to attend 12 step meetings, do chores, find employment, pay rent, follow house rules—participants were more confident in applying and interviewing for employment and eventually transitioning into their own housing.

95% of the clients Courage to Change serves are from Monroe County. We can accommodate 25 residents at one time between our four houses—two men's and two women's.

#### COVID:

Sadly COVID continues to be an issue and CTC continues to follow COVID safety protocols which includes extra cleaning supplies for our residences, checking in with our residents about their health concerns more frequently, keeping residents updated on the latest COVID guidelines, having a room for isolation in case a resident does come down with COVID, encouraging residents to be vaccinated (all new residents must be vaccinated to be accepted into our houses) and continuing to encourage residents to talk to our house managers if they have questions or become stressed as COVID continues to impact our community.

The Rent Scholarship Fund has been vital to our residents and to Courage to Change as a whole. Not only does the fund provide financial support, the fund also provides residents with the knowledge there are those in the community who care about them and who want them to succeed and are willing to support their efforts to remain sober and transition back into our community.

Respectfully submitted, Ms. Bobby Overman Board Member/Treasurer Courage to Change Sober Living Courage to Change Sober Living Budget

## Girls Inc: MONROE COUNTY COUNCIL SOPHIA TRAVIS COMMUNITY SERVICE GRANTS PROGRAM 2022 APPLICATION

#### **Mission Statement**

Girls Inc of Monroe County equips girls to navigate gender, health, economic, and social barriers to build a future where girls and women are empowered and part of an equitable society. Our hands-on and research based programs aim to inspire all girls to be strong, smart and bold.

Girls Inc of Monroe County serves all girls, grades k-12, in Monroe County. Our sister affiliate, Girls Inc of Shelby County serves Shelbyville, Decatur County, and Rush County. Together we aim to become regional experts in girl health and education. We stand unified under our girls' Bill of Rights.

#### Bill of Rights

- Girls have the right to prepare for interesting work and economic independence.
- Girls have a right to be themselves and to resist gender stereotypes.
- · Girls have the right to express themselves with originality and enthusiasm.
- Girls have the right to take risks, to strive freely, and to take pride in success.
- Girls have the right to accept and appreciate their bodies.
- · Girls have the right to have confidence in themselves and to be safe in the world

#### Program Description

Girls Inc.'s evening programming serves girls K-12 grades in a safe, fun, pro-girl environment at our Bloomington Center. Trained staff provide mentoring relationships and deliver research-based programming designed to help girls grow up healthy, educated, and independent.

Our evening program was re-started after a two year pause due to the pandemic in February 2022. The successful reintroduction helped use reach over 100 girls in our first 6 months of operation. Starting the Fall of 2022 we hope to expand our evening program from Thursdays 6-8pm, to include Tuesdays at the same time. This expansion hinges on the support of community funders like the Sophia Travis Community Service grant. Working from with various community partners like the IU School of Public Health to Monroe County Sherrifs Department we base our evening programs themes on inspiring all girls to be strong, smart, and bold.

#### Strong

#### Educating girls with age-appropriate programs promoting:

- Health & Nutrition
- Physical Fitness
- Mental Health & Healthy Body Image
- Conflict Resolution and Substance Abuse Prevention

4	Program Marketing (i.e. facebook and radio)	\$500
5	Staffing Expenses directly related to the evening program hours	\$10000

#### **Other Monroe County Grants**

\*Since the merger and acquisition of Girls Inc of Monroe County with Girls Inc of Shelbyville/Shelby County in 2021 there has only been one Monroe County Grant awarded. With the merger came a completely new staff, CEO/President, EIN, and Board of Directors. Previously, there had been a long standing relationship with Monroe County Grants including the Sophia Travis Community Grant, however, with the transition our financial and development department is completely new. To honor full transparency, there did appear to be a compliance issue stemming from a Sophia Travis grant in 2018-2019, under the previous organizations leadership, we did our best to resolve the issue under our new identity. Further information on the merger, previous compliance issues or general questions can be discussed by contacting Hannah Hirsch <u>hhirsch@girlsinc-monroe.org</u>. Currently, the only other grant received from Monroe County is being accepted into the City of Bloomingtons:

Girls Rock Bloomington

The mission of Girls Rock Bloomington is to empower girls, transgender, non-binary, and gender expansive youth through music education, after-school programming, an annual summer camp, workshops, and positive mentorship.

#### Girls Rock Bloomington Summer Camp

Girls Rock Bloomington Summer Camp is a weeklong day camp for Monroe County girls, transgender, non-binary, and gender expansive youth ages 8-14. The week culminates in a public concert showcasing musical performances from campers. Campers experience music lessons, group activities and conversations, workshops on songwriting, designing and creating art and merchandise, lunch concerts performed by local musicians, and more. Campers are placed in groups to write and rehearse original songs, with guidance from band coaches, that will be performed at the showcase on the Saturday following camp.

Girls Rock Bloomington Summer Camp also provides mentorship opportunities for Monroe County youth and adult community members to gain experience in music education, community outreach, and empowering the next generation of girls, transgender, non-binary and gender expansive youth.

The Saturday showcase is open to the public allowing the Monroe County community to experience and enjoy the efforts and talents of campers, staff, and volunteers. The concert puts a rare and valuable focus on girls, transgender, non-binary, and gender expansive youth as an essential part of our local community and music culture, inspiring others.

#### Covid Plan

Girls Rock Bloomington will follow all local and federal guidelines. We will have masks and hand sanitizer on site. All of our volunteers/staff and campers are fully vaccinated. We are encouraging all of our volunteers/staff/campers to be extra careful regarding exposure risk in the week leading up to camp and during the week of camp as much as possible. Campers and volunteers should not come to camp if they display any covid symptoms (unless they have a negative PCR test.) Masks are required for all audience members ages five and up at the Final Showcase.

#### **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

Grace Center, Inc. is committed to providing nutritious food to the southern area of Monroe County. This rural part of the county faces some of the same issues as other larger communities such as Bloomington and Bedford. We struggle with hunger and food insecurity every day, especially with the current cost-of-living increases and supply-chain shortages. Individuals and families who are food insecure do not know each day if they will have food to eat for themselves or for their families. Our neighbors, who we know by name or maybe by relation, fight food insecurity each week. Grace Center Food Pantry knows this from experience. Every week our volunteers talk with and assist clients receiving food from our pantry.

Established in December 2005, Grace Center received 501(c)(3) charitable organizational status on March 22, 2006. In September 2006, Grace Center Food Pantry began serving the area of Clear Creek, Indian Creek, and Polk townships of southern Monroe County. Our pantry is in Harrodsburg. We work from a small space and serve about 30 to 40 households every week and are proud to be part of a solution that helps feed our neighbors living in these rural areas. Often these areas have few nearby outside resources available to them and Grace Center Food Pantry has become a reliable resource inside this area.

Grace Center Food Pantry continues to be a "client choice" food pantry with the COVID-19 pandemic being an exception. Normally, our clients choose the food items they wish to take with them. We believe this is a dignified way for our clients to receive food and it is a more common-sense approach, since they will more likely eat the food they choose. Food availability at our pantry is accomplished either by monetary donations that purchase food or through individuals or organizations that donate food. These donations come from local churches, clubs, organizations, and individuals and through fundraising events and grant funds such as the Sophia Travis Community Service Grant. Monetary donations allow our volunteers to purchase food from local retailers. Food donations directly benefit our clients. As a member agency of the Hoosier Hills Food Bank, our volunteers can pick up food there every week. Through all these means, the needs of the food insecure at our pantry can be better met.

It is a goal to always strive to provide food that is considered "nutritious." The first board members made a commitment early on to provide milk, eggs, and bread to every client on a weekly basis and we continue to be committed to this, as well as providing meat and protein, dry and canned goods and fresh produce each week. We consider these five food categories essential. During the summer and early fall months, generous individuals and families from the community bring in fruits and vegetables to share with clients. Fresh fruits and vegetables spoil quickly. With being open just one day a week there is a certain level of timing, from the time of the donation, food bank pickup or purchase, it all must be coordinated with the day we are open. Purchasing fresh produce from local retailers is sometimes the only option depending on funds availability. From monetary donations to food donations, together they support us in getting the food to our clients for more nutritious meals.

A mission of Grace Center is to not only provide food but to also promote social interaction with our clients. During open hours, clients normally are individually greeted and assisted by volunteers. And clients also would have had an opportunity to interact with each other and the volunteers. Even in our small space, they were able to socialize and connect to us. This can be especially important when clients are elderly or isolated from their neighbors.

#### COVID-19 Response

Our client's and volunteer's safety are important, and we have received guidance from the Monroe County Board of Health as well as following CDC, Hoosier Hills Food Bank, and Indiana State Department of Health guidelines. Food distribution was changed to drive through style. All volunteers take temperature readings with a contactless digital thermometer upon arrival and hand sanitizer and PPE is available. Cleaning of high contact surfaces happen before and after each shift. Clients drive up to the front of the building and stay in their cars. Volunteers deliver food directly to the vehicles, either placing them in the front and/or back seats or in the trunk or back hatch. We converse with the clients but maintain social distance and use hand sanitizer after touching vehicles. We don't see this changing for quite some time but it has worked well and clients seem to have adapted to the change nicely. A survey was conducted with our clientele and all but one client expressed wanting to stay with the current setup.

Grace Center will continue to support the southern Monroe County community through our pantry with its dedicated volunteers, who wish to make a difference in their community. Therefore, we submit this application with the monetary request of \$3,000 for assistance from the Monroe County Council to help with the cost of food purchases for 2023. Funding from the grant will be used to purchase the food needed for all clients at the pantry to receive ample nutritious food for themselves and their families. The Monroe County Council has played a vital role in the sustainability of our pantry and has done so since 2009. We do so appreciate this partnership. We sincerely thank you for your time and consideration of our application and we look forward to continuing our long- term relationship.

#### **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

According to the latest Feeding America Map the Meal Gap report, Monroe County, Indiana has 21,080 residents who regularly struggle with food insecurity – 3,470 of which are children. More than ever, families are struggling to buy groceries and food banks, food pantries, and soup kitchens are seeing more demand for their services. Unfortunately, these hunger relief agencies are experiencing the same diminished purchasing power that families are experiencing with their own personal grocery budgets. As both individuals and hunger relief agencies stretch their dollars, they may need to turn to cheaper, more processed foods, which can contribute to an increased rate of obesity, heart disease, and diabetes throughout vulnerable populations.

Proper nutrition is vital to the growth and development of children and the health of all Hoosiers. Protein is one of the most important nutrients for brain and body development, but sadly, it is also the hardest commodity for food banks to obtain. The cost of meat, poultry, fish, and eggs has increased by 13% since February of 2021, according to the Consumer Price Index's most recent data, making an already difficult commodity to acquire even more challenging.

Founded in 2011, Hoosiers Feeding the Hungry's mission is to make a positive impact on the quality of life for Hoosiers by providing nutritious meat to hunger relief agencies within Indiana...One Pound at a Time. This is accomplished through our "Meat" The Need program. Hunters, farmers, and 4-H donate livestock and deer through local participating meat processors (85 statewide). Donations are processed, packaged, and given to area hunger relief agencies for distribution back into the community in which it was donated. Hoosiers Feeding the Hungry pays all processing fees on these donations so that there is no cost to donors. Since our founding, we have paid to process over 2 million pounds of meat – providing over 8 million meals.

Our request for \$5,000 will pay for the processing of over 3,500 pounds of donated deer and livestockproviding over 14,000 nutritionally-rich meals to combat food insecurity within Monroe County. This program aids in averting hunger among those served by agencies receiving donations, as well as helping them gain ground toward financial stability, as they will not have to choose between food and other necessities such as rent, utilities, or medical bills. Additionally, health is improved due to the nutritional quality of meals provided, contributing to enhanced health throughout the community of Monroe County as a whole. We are requesting to retain 10% of the funding to apply towards administrative costs associated with implementing our program within Monroe County.

In order to ensure the utmost commitment to health and safety of the residents we serve, the food processors we partner with must be state inspected and adhere to all state and local mandates regarding the pandemic. The hunger relief agencies we work with must be Food Safe Certified and a 501C3. The staff at Hoosiers Feeding the Hungry is primarily administrative but adheres to all state and local mandates.

Hoosiers Feeding the Hungry has worked with Rice's Quality Farm Meats, Pohlman's Meat Processing, and The Deer Shoppe, to ensure that Monroe County residents in need have access to this nutritious protein. These partnerships have led to the donation of over 7,000 pounds of meat within Monroe County over the last year. These donations were given to and distributed by Community Kitchen of Monroe County, Family Life Center, Hanna Center/Hannah's House, Hoosier Hills Food Bank, Mother Hubbard's Cupboard, and Wheeler Mission Center for Women and Children.

Previous Funds Received From Monroe County Organizations:

Jack Hopkins Social Services Grant	\$2,700	2018
Sophia Travis Community Services Grant	\$4,600	2018
Sophia Travis Community Services Grant	\$2,000	2019
Sophia Travis Community Services Grant	\$2,620	2021

#### **GRANT BUDGET INFORMATION**

Please list the itemized and prioritized (1 = highest funding priority) program elements for which funding is requested. The table will expand by tabbing in the last cell.

Item		Cost
1.	Water bottles	\$4000
2.	Transportation to referrals for health care, treatment, and housing	\$2500
3.		
4.		
5.		

## **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

In 2021, the Indiana Recovery Alliance (IRA) began a Harm Reduction Street Outreach (HRSO) Program delivering safer use supplies, water, transportation, and referral services directly in the camps of people who are unhoused in Bloomington, IN.

The two staff for this program are long-term liaisons with the unhoused community bringing years of relationships, trust, and lived experience with them to their work.

The most consistent, underfunded needs for this program are water and transportation to referrals. Through the HRSO program our staff distribute around 300 bottles of water each week and provide transportation to referrals to between 5 and 15 people seeking professional attention for a challenge they are facing.

We currently have a funding gap for providing these essential supplies and services and will need to cut back on how much we can supply without additional funds.

Water is a key harm reduction supply for people who use drugs to aid in recovery during overamping episodes. For people living in the unhoused people's camps, access to water can be precarious and providing water is a meaningful way to establish rapport with new participants in our harm reduction services. Something as simple as a bottle of water can be the bridge to receiving more safer use supplies and referrals for treatment. People who use harm reduction services like ours are five times more likely to enter into recovery treatment and three times more likely to stop using drugs than those who don't (Center for Disease Control and Prevention, cdc.gov). Providing water and transportation to services are the heart of our street outreach and, though we could continue to provide these services in a limited capacity without additional funding, this funding will ensure that we can continue to meet and provide services to new participants we encounter through our Street Outreach.

#### **Narrative Statement**

This summer, the Lotus Education & Arts Foundation expands our mission of creating opportunities to experience, celebrate, and explore the diversity of the world's cultures, through music and the arts. Our summer workshops at the Lotus Firebay, our family-friendly visual arts activities at the Lotus World Music & Arts Festival, our activity booth at the 4th Street Festival of the Arts, and our table at IU's First Thursdays will provide several opportunities for youth, families, and community members to explore the Greek tradition of articulated puppets. All of these activities are available free of charge to our participants, with the goal of eliminating financial barriers that any children and families in our Bloomington community may face.

At this year's Lotus World Music & Arts Festival, Lotus presents the sculpture *Archaeopteryx*, created by artist Nicholas DeBruyne, formerly of Bloomington. This kinetic sculpture, featured in our Arts Village at the festival, comes to life with light and movement through participant interaction and collaboration. By working together, festival-goers will have the chance to get the sculpture dancing along to festival music in our downtown space. In initial brainstorming for a visual arts activity to accompany this presentation, Lotus staff explored the themes of collaboration, movement, and music. After some research, we found a cultural artform that could be recreated with every-day items, and moves in a similar way to the connecting gears and wooden structures that form DeBruyne's kinetic sculpture. The Greek tradition of **articulated puppetry** presented itself as a unique opportunity to help children and families learn about a dynamic cultural art form, and explore how art can bring people together through movement and the sharing of ideas.

Lotus partners with local youth service organizations every summer to provide fun, educational arts activities for youth who attend summer camps. In the months of July and August, our Operations & Visual Arts Program Manager, Amanda Hutchins, will host a series of workshops for campers from Banneker Community Center and Girls Inc. of Monroe County. Campers (ages 5-17) will have the opportunity to create their own articulated puppets using various, colorful paper shapes. These shapes can then be connected with brads to create articulated joints. Puppets can be decorated with googly eyes, crayons, colored pencils, and markers to create a unique moving, dancing puppet! While creating their puppets, campers will learn about the origins and history of articulated puppetry as a Greek artform. Many of our available coloring media were purchased with accessibility in mind, and are sized or shaped for use by a variety of physical and cognitive abilities.

In early September, Lotus will host an activity booth at the 4th Street Festival of the Arts, and at IU Arts and Humanities Council's First Thursdays. At these events, Lotus volunteers will assist participants with the creation of their own articulated puppets. We will also offer educational handouts covering the history of Greek puppetry, and puppetry's presence in various cultures around the globe. These activities should reach an audience of diverse ages, and provide free arts access/education to both local and visiting participants.

At the end of September, the Lotus World Music & Arts Festival will showcase our Greek articulated puppet activity at our two major family-friendly festival events: Arts Village and Lotus in the Park. Both of these events are free and open to the public, and provide access to a variety of music, workshops, and visual arts activities hosted by Lotus, local arts partners, and community organizations.

Lotus will continue to follow city health and safety guidelines in regards to the ongoing pandemic. Hand sanitizer and KN-95 masks are available at workshops and at our outdoor booths. Staff are fully vaccinated, and will wear masks while leading workshops in our Firebay. Volunteers are encouraged to assess their own safety level, and wear appropriate PPE if they feel at risk.

#### **GRANT BUDGET INFORMATION**

Please list the itemized and prioritized (1 = highest funding priority) program elements for which funding is requested. The table will expand by tabbing in the last cell.

Cost

Item	Cost
<ol> <li>Archaeopteryx funding (inspiration for activity/free visual arts experience)</li> </ol>	\$2500.00
2. Art supplies (various paper shapes, brads, googly eyes)	\$200.00
3. Marketing and print materials	\$500.00
<ol> <li>Operations &amp; Visual Arts Program Manager staff time (running workshops/Arts Village art activity)</li> </ol>	\$2500.00
5. Community & Arts Engagement Director staff time (scheduling workshops with community orgs, coordinating booths at community events, running Lotus in the Park – Arts Pavilion activity)	\$2500.00

#### **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

Monroe County United Ministries creates lasting solutions to economic, educational, and social injustice in our community through quality services, collaboration, and innovation. Our vision is to eliminate generational poverty for the people we serve.

Monroe County United Ministries (MCUM) requests \$4,500 through the Sophia Travis Community Service Grant funding initiative for its financial aid assistance fund to help Monroe County households remain in their own homes, with lights on during a short-term episode of financial instability.

With just under 25% of all Monroe County families living in poverty, Monroe County has one the highest rates of poverty in Indiana. This represents almost a quarter of people in our community who struggle daily to make ends meet. Throughout 2022, we have seen an uptick in community members searching for financial assistance. We are averaging 64 new families a month and expect that growth to continue in the aftermath of the COVID-19 pandemic. In addition to the usual barriers faced by our clients, this global healthcare crisis has disproportionally affected their livelihoods. Funding from Sophia Travis would enable us to serve more families who are facing an unexpected financial strain due to this epidemic.

While families that utilize MCUM's Self-Sufficiency Center all experience different circumstances, the average household receiving financial assistance from MCUM in 2022 was comprised of three individuals and received an average of \$500 toward an outstanding housing bill or \$150 utility bill. The funds are designed to help people retain their housing, so households must provide reasonable assurance they can afford their rent and utilities most of the time and are experiencing a particular problem that has caused a financial crisis (sudden layoff, medical emergency, etc.). Often, MCUM does not have the funding to support every request for financial assistance or a complete bill, but works closely with other agencies, local government, the faith community, and the township trustees to come up with the necessary resources and interventions to support the household.

The following is a client story from earlier this year:

"With the surge in COVID cases with Omicron, clients have been hit suddenly once more with quarantines, closed care centers, and layoffs. Most employers have utilized all funds available to cover payroll, and there is currently no stimulus to help those facing sudden challenges. One of our clients had tested positive for COVID in early January, which meant a 5-10 day quarantine according to her employer's policy. Her children also ended up catching it, prolonging her time away from work. By the time she was able to return, she had been out of work for nearly 4 weeks, unpaid. She had used all of her sick time and PTO with prior closures and exposures, and had no time left. Her savings had been exhausted, and she didn't know what she was going to do in order to pay her rent and her other bills. This client had done her due diligence, seeking every agency in the area for assistance and was looking at 1-2 month waiting periods to even get an appointment, with no guarantee of eligibility. This client was eligible for our program, and we had appointment times within 24 hours that she could have been seen, yet we had to deny her due to lack of funds."

Rev. 5/2022

In order to better meet clients where they are, our Self-Sufficiency Center staff has designed a new approach to MCUM's financial assistance program that will incentivize clients who are willing to work with a MCUM coach toward true stability with higher rent assistance amounts, but will not prohibit folks with an urgent need for housing assistance from receiving support, either. In a very concise summary, our clients now have these options for financial assistance at MCUM:

- Option 1: Up to \$700, requires the most amount of documentation and working with a MCUM coach.
- Option 2: Up to \$350, requires a lower amount of documentation and working with a MCUM coach in a more limited capacity.
- Option 3: Up to \$200, requires only an ID and the lease/bill.

With this new system in place and working our community partners, we will be able to provide assistance to both a larger number and broader range of families. In this way, MCUM will continue to promote stability, safety, and security for all residents in Monroe County. Everyone deserves a roof over their head, and we are here to ensure that happens.

The \$100,000+ in support granted to MCUM through the Monroe County Council over the years has kept at least 380 families (over 1,240 people) securely housed and also provided stabilizing case management to ensure they remain on track to self-sufficiency. By addressing the broad and detrimental experience of an imminent housing emergency, we can work together to combat community issues like food insecurity, lack of affordable high-quality childcare, and household financial stability. By providing up to one month's bills for rent or utilities, which can prevent eviction or potential homelessness and is much less expensive than costs associated with re-homing, MCUM promotes stability, safety, and security – priority funding areas for the Sophia Travis committee. Sophia Travis funding has been an important funder of this part of our program for two decades and we hope this partnership will continue.

#### REPORT OF INDEPENDENT AUDITORS

Board of Directors Monroe County United Ministries, Inc. Bloomington, Indiana

#### <u>Opinion</u>

We have audited the accompanying financial statements of Monroe County United Ministries, Inc. (the "MCUM"), a nonprofit organization, which comprise the statements of financial position as of December 31, 2021 and 2020, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of MCUM as of December 31, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of MCUM and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about MCUM's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of MCUM's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about MCUM's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

#### 1. NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Operations

Monroe County United Ministries, Inc. (MCUM) was incorporated as a not-for-profit organization under the laws of the State of Indiana. MCUM provides childcare and nutritional assistance to low-income families. MCUM also provides emergency services to crisis victims. These services are provided to residents of Bloomington, Indiana and Monroe County. MCUM relies on contributions, fees for services, government funding, and other sources of support and revenue to carry out its programs.

#### Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis, and have been prepared with a focus on the entity as a whole. Net assets, support, revenues, gains, and losses are classified based on the existence or absence of donor restrictions. Accordingly, the net assets of MCUM are classified and reported as follows:

<u>Net assets without donor restrictions</u>: Net assets that are currently available for operating purposes under the direction of the board or designated by the board for specific use.

Undesignated - used to fund current operations of MCUM

*Board designated endowment* – established with the expectation that the principal be maintained in perpetuity to generate grants, subject to the spending policy, used to support the general operations of MCUM as designated by the board of directors (Board)

<u>Net assets with donor restrictions</u>: Net assets subject to donor stipulations for specific purposes or time restrictions. These include donor restrictions requiring the net assets be held in perpetuity or for a specified term to support operations or specific purposes. MCUM maintains net assets with donor restrictions as follows:

*Restricted for specified purposes* – all contributions to MCUM with the intention of the donor to be used for a specific program or purpose

*Restricted for endowment* – represents a transfer of donor-restricted funds to the Community Foundation of Bloomington and Monroe County, Inc. (CFBMC) with the intention of the donors that the assets be held in perpetuity and are being managed in accordance with CFBMC's spending policy

#### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

#### Management's Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities and the reported support, revenues and expenses. Actual results could vary from the estimates that were used.

#### Cash, Cash Equivalents, and Restricted Cash

For the purposes of the statement of cash flows, MCUM considers all liquid investments with original maturities of three months or less when purchased to be cash equivalents, but excludes cash equivalents held by fund managers and included in the investment portfolio. Cash equivalents are carried at cost, which approximates market value, and consists of bank money market funds.

Restricted cash includes money held for the benefit of others and is also included as a liability on the Statements of Financial Position.

The following table provides a reconciliation of cash, cash equivalents, and restricted cash reported within the statements of financial position that sum to the total of the same such amounts shown in the statements of cash flows:

	 2021	2020		
Cash and cash equivalents	\$ 632,848	\$	311,733	
Restricted cash	 12,765		15,142	
Total cash, cash equivalents,				
and restricted cash	\$ 645,613	\$	326,875	

#### Vouchers, Fees, and Grants Receivables

Vouchers receivable are stated at the allowable amount billed for childcare services as awarded by the State of Indiana. Vouchers receivable represents amounts due from performance-based service contracts once the services have been performed.

Fees receivable are stated at the amount billed for childcare and are due at the time the service is rendered. When an account becomes past due, efforts are made by management to collect and to establish repayment plans when necessary. When all attempts to establish a payment plan fail, or if repayment under the plan is not followed, the account is placed with an outside collection agency. No interest is charged on accounts past due.

Grants receivable are stated at the amount expected to be collected or reimbursed. Grants receivable represent amounts due from cost-reimbursement grants once allowable costs have been incurred.

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

Management estimates an allowance for doubtful receivables based on an evaluation of historical losses, current economic conditions, and other factors unique to its grantors and customers. Management has determined that no allowance for vouchers, fees, or grants receivable is necessary at December 31, 2021 and 2020.

#### Investments and Investment Return

Investments are carried at fair value for financial reporting purposes. Realized gains or losses upon the sale of investments are based on the cost of specifically identified securities. Changes in unrealized appreciation or depreciation of investments are reflected in the statements of activities in the period in which such changes occur. Interest and dividend income is recorded when earned.

#### Beneficial Interest in Assets Held by Others

MCUM transferred assets to CFBMC to hold donor restricted gifts intended to be held in perpetuity and is the beneficiary of the fund holding those assets. MCUM receives an annual return on these assets in accordance with CFBMC's policy and undistributed earnings are retained by CFBMC.

The fair value of this asset (beneficial interest in assets held by others) is included in the statements of financial position at \$283,941 and \$248,615 as of December 31, 2021 and 2020, respectively. The change in the value of the beneficial interest in assets held by others in the statement of activities includes realized and unrealized gains and losses and interest and dividends.

#### Property and Equipment

Property and equipment are recorded at cost, if purchased, and at fair value at the date of donation, if donated. All land, buildings and improvements are capitalized. Equipment is capitalized if it has a useful life when acquired of more than one year. Repairs and maintenance that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from three to forty years.

#### Assets Held for Others

MCUM administers the Individual Development Account (IDA) Program as developed by the Indiana Housing and Community Development Authority (IHCDA). IDAs are matched savings accounts that enable low to moderate-income individuals to save money and build financial assets for specified purposes. These accounts total \$12,760 and \$15,137 at December 31, 2021 and 2020 and are reported as restricted cash and assets held for others in the Statements of Financial Position.

#### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

#### Accounting for Contributions and Revenue Recognition

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in net assets without donor restrictions unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in net assets with donor restrictions.

Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore are reported as net assets with donor restrictions until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is to be used for a specific purpose. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Revenue funded by grants is recognized as MCUM incurs eligible expenses under the programs or agreements. Activities and expenses allocated to specific grants are subject to audit and acceptance by the granting agency and, as a result of such audit, adjustments could be required.

Childcare and preschool vouchers and scholarships and childcare fees are revenue from contracts with customers and are recognized over time as the childcare services are provided to customers. Vouchers and fees receivable (contract receivables) for the years ended December 31, 2021 and 2020 were as follows:

	 2021	2020		
Beginning of year	\$ 24,548	\$	39,294	
End of year	\$ 47,199	\$	24,548	

#### In-Kind Contributions

MCUM periodically receives contributions in a form other than cash or investments. If MCUM receives a contribution of land, buildings, or equipment, the contributed asset is recognized as an asset at its estimated fair value at the date of the gift, provided that the value of the asset and its estimated useful life meets MCUM's capitalization policy.

MCUM benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services in MCUM's program operations, fundraising campaigns and various committee assignments. However, the contributed services do not meet the criteria for recognition in the financial statements and therefore no amount is recorded in the accompanying financial statements for those services. Accounting principles generally accepted in the United States of America allow for recognition of contributed services when the services received create or enhance nonfinancial assets or

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

require specialized skills possessed by the individuals providing the service and the service would typically need to be purchased if not donated.

MCUM pays for most services requiring specific expertise.

Donations of food, clothing, or other items, which are passed on directly to MCUM's consumers, are not valued or recorded.

#### Functional Allocation of Expenses

The costs of providing the programs and services of MCUM have been summarized on a functional basis in the Statements of Activities. Accordingly, certain costs have been allocated among the various programs and supporting activities benefited.

The financial statements report certain categories of expenses that are attributable to one or more program or supporting functions of MCUM. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. All expenses not directly benefiting a certain program are allocated based on estimates of time and usage by personnel and programs and the benefits derived. While the methods of allocation are considered appropriate, other methods could produce different results.

#### Income Taxes

MCUM is organized as a not-for-profit corporation under Section 501(c)(3) of the United States Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by MCUM and recognize a tax liability if MCUM has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by MCUM, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. MCUM is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

As such, MCUM is generally exempt from income taxes. However, MCUM is required to file Federal Form 990 – Return of Organization Exempt from Income Tax which is an informational return only.

#### Paycheck Protection Program

In January 2021, MCUM received a low interest loan in the amount of \$197,437 under the Paycheck Protection Program (PPP) administered by the Small Business Administration. The loan was forgivable to the extent that employers incurred and spent the funds on qualified expenditures, which included payroll, employee health insurance and utilities during the covered

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

period. MCUM satisfied all the criteria, applied for, and received total forgiveness on June 14, 2021. Similarly, during the year ended December 31, 2020, MCUM received an initial PPP loan of \$264,200. MCUM satisfied all the criteria, applied for, and received total forgiveness on November 10, 2020.

MCUM elected to treat these loans as conditional contributions and recognized contributions in the amounts of \$197,437 and \$264,200 for the years ended December 31, 2021 and 2020, respectively, when forgiveness of the loan was received, which represents 100% of the loan proceeds. This revenue is recognized as PPP grant income on the statements of activities.

#### Subsequent Events

MCUM evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through March 21, 2022 which was the date the financial statements were available to be issued.

#### 2. INVESTMENTS

Investments at December 31, 2021 and 2020, consist of the following:

	 2021		2020
Cash	\$ 41,889	\$	168,897
Equity mutual funds			
Large cap	216,908		92,152
Mid cap	30,228		12,877
Small cap	16,173		6,533
International	41,242		18,221
Fixed income mutual funds			
Short term	89,930		32,599
Intermediate term	99,518		48,028
Other	 10,065		-0-
	\$ 545,953	\$	379,307

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

#### 3. PROPERTY AND EQUIPMENT

Property and equipment include the following at December 31, 2021 and 2020:

	 2021	2020		
Land	\$ 10,000	\$	10,000	
Land improvements	16,511		16,511	
Buildings and building improvements	2,290,919		2,190,347	
Furniture and equipment	373,156		372,377	
Vehicles	 2,600		2,600	
	2,693,186		2,591,835	
Less accumulated depreciation	 (1,771,036)		(1,685,847)	
	\$ 922,150	\$	905,988	

#### 4. CAPITAL LEASE OBLIGATION

MCUM has a financing agreement for the replacement of light fixtures. The asset and liability under this capital lease obligation was initially recorded at the fair value of the assets. The expiration date for the lease is January 2022. MCUM recognized \$1,519 of depreciation expense on the asset under this capital lease obligation during the years ended December 31, 2021 and 2020. Following is a summary of the asset held under capital lease obligation as of December 31, 2021:

	 2021	2020		
Light fixtures	\$ 22,788	\$	22,788	
Less accumulated depreciation	 4,068		2,549	
	\$ 18,720	\$	20,239	

Minimum future lease payments under this capital lease obligation subsequent to December 31, 2021 are as follows:

Year	A	mount
2022	\$	1,160
Less: amount representing interest		123
	\$	1,037

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

#### 5. NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions are available for the following at December 31, 2021 and 2020:

	 2021		2020
Restricted for specified purpose			
Emergency services	\$ 70,408	\$	74,352
Preschool	75,688		500
Restricted for endowment			
Beneficial interest in assets held by others	 283,941		248,615
	\$ 430,037	\$	323,467

#### 6. NET ASSETS RELEASED FROM RESTRICTIONS

Net assets were released from donor restrictions as follows during the years ended December 31, 2021 and 2020:

	 2021	2020		
Purpose restrictions accomplished:				
Emergency services	\$ 72,292	\$	9,805	
Preschool	500		-0-	
Endowment funds appropriated				
for expenditure	 9,976		9,816	
	\$ 82,768	\$	19,621	

#### 7. ENDOWMENT

MCUM's endowment consists of one donor restricted fund and one board designated fund. Both funds have been established to support general operations. As required by accounting principles generally accepted in the United States of America (GAAP), net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of the interpretation, MCUM retains in perpetuity (a) the original value of gifts donated

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulation to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulations are added to the fund.

Donor-restricted endowment funds are subject to appropriation for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, MCUM considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of MCUM and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of MCUM
- (7) The investment policies of MCUM

MCUM has adopted investment and spending policies for assets held for endowment that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the original fair value of the endowment assets. Assets held for endowment include those assets of donor-restricted funds that MCUM must hold in perpetuity, as well as board-designated funds.

Under this policy, MCUM has funds held at CFBMC. The assets held at CFBMC are invested in a manner that is intended to produce a total return which protects the purchasing power of the investment and which allows a spending rate of up to 4.25% of average fund value over the prior 16 quarters. MCUM expects its assets at CFBMC, over time, to provide an average rate of return of approximately 7% annually. Actual returns in any given year may vary from this amount.

MCUM internally manages its assets that represent board designated endowment funds. The internally managed funds are invested in a manner that is intended to produce a total return which protects the purchasing power of the endowed investments but which allows a spending rate of 2-4% of average fund value. Additional funds may be withdrawn for general expenditures by majority vote of the board. MCUM expects the internally managed endowment investments, over time, to provide an average rate of return of approximately 6-8% annually. Actual returns in any given year may vary from this amount. In 2020, the Board voted to grant funds beyond the normal spending rate of \$90,000 to assist with additional expenses incurred in expanding the preschool program to the downtown location.

To satisfy its long-term rate-of-return objectives, MCUM relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). MCUM targets a diversified asset allocation that places a greater emphasis on fixed income investments and cash to achieve its long-term return objectives within prudent risk constraints.

#### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

#### The composition of endowment net assets is as follows at December 31, 2021 and 2020:

	2021					
	Without Donor		Wi	th Donor		
	Restrictions		Restrictions		Total

#### 8. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that MCUM has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 or 2020.

<u>Mutual funds</u>: Valued at the daily closing price as reported by the fund. Mutual funds are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by MCUM are deemed to be actively traded.

<u>Beneficial interest in assets held by others:</u> Valued at fair value as reported by CFBMC, which represents MCUM's pro rata interest in the CFBMC's investment pool, substantially all of which are valued on a mark-to-market basis.

The following table sets forth by level, within the hierarchy, MCUM's assets measured at fair value on a recurring basis as of December 31, 2021 and 2020:

			2021			
	 Total Level 1			Level 3		
Mutual funds	\$ 504,064	\$	504,064	\$	-0-	
Beneficial interest in assets						
held by others	283,941		-0-		283,941	

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

		2020	
	 Total	Level 1	Level 3
Mutual funds	\$ 210,410	\$ 210,410	\$ -0-
Beneficial interest in assets			
held by others	248,615	-0-	248,615

The following table sets forth the change in assets measured at fair value on a recurring basis using significant unobservable inputs (level 3):

	 2021	2020		
Balance, beginning of year	\$ 248,615	\$	239,937	
Investment return, net	45,302		18,494	
Distributions	 (9,976)		(9,816)	
Balance, end of year	\$ 283,941	\$	248,615	

#### 9. PROFIT SHARING PLAN

MCUM maintains a 401(k) plan for the benefit of employees meeting certain eligibility requirements. The plan calls for MCUM to match employee contributions based on a formula. Discretionary contributions are determined annually by MCUM. Eligible participants are immediately vested in their own contributions to the plan. Eligible participants vest in employer contributions according to the provisions of the plan. Pension expense under the 401(k) plan was \$8,138 and \$7,966 for the years ended December 31, 2021 and 2020.

#### 10. RENT

MCUM leased space for the downtown Bloomington childcare facility with monthly payments equal to 5% of MCUM's gross revenue defined as all fees collected for childcare activities in connection with MCUM childcare activities at the school property. This lease agreement expired in August 2020. Rent expense was \$3,348 for the year ended December 31, 2020.

#### **11. CONCENTRATIONS**

MCUM's investments and the beneficial interest in assets held by others are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with these assets and the level of uncertainly related to changes in their value, it is at least reasonably possible that changes in the various risk factors will occur in the near term that could materially affect the amounts reported in the accompanying financial statements, however, management

# MONROE COUNTY UNITED MINISTRIES, INC.

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

believes that the investment policy that it has established for investments is prudent for the long-term welfare of MCUM and its beneficiaries.

MCUM maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. MCUM has not experienced any losses in such accounts. MCUM believes it is not exposed to any significant credit risk on cash.

Marketable securities and money market funds are maintained with two investment firms. Such balances, at times, may exceed the Securities Investor Protection Corporation insured limits of up to \$500,000.

## 12. LIQUIDITY AND AVAILABILITY

The following reflects MCUM's financial assets as of the Statement of Financial Position date, reduced by amounts not available for general use within one year of the Statement of Financial Position date because of contractual or donor-imposed restrictions:

2021			2020
\$	632,848	\$	311,733
	47,199		24,548
	2,500		19,740
	545,953		379,307
	1,228,500		735,328
	545,953		219,760
	146,096		74,852
\$	536,451	\$	440,716
	\$	\$ 632,848 47,199 2,500 545,953 1,228,500 545,953 146,096	\$ 632,848 \$ 47,199 2,500 545,953 1,228,500 545,953 146,096

MCUM's endowment funds consist of a donor-restricted endowment and board designated endowment. Both endowments are to support certain future expenditures as more fully described in Note 7. Based on CFBMC's spending policy, balance of the fund and historical distributions, MCUM expects to receive a distribution from this donor-restricted endowment fund of approximately \$10,000 in the next year. The board designated endowment has a spending rate of 2 to 4 percent. Although MCUM does not intend to spend from this board designated endowment (other than amounts appropriated for general expenditures as part of the Board's annual budget approval and appropriation), these amounts could be made available, if necessary.

# MONROE COUNTY UNITED MINISTRIES, INC.

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

### 13. CONTINGENCY

On March 11, 2020, the World Health Organization declared Coronavirus (COVID-19) a pandemic. The continued spread of COVID-19, or any similar outbreaks in the future, may adversely impact the local, regional, national and global economies. The extent to which COVID-19 impacts MCUM's operating results is dependent on the breadth and duration of the pandemic and could be affected by other factors management is not currently able to predict. Potential impacts include, but are not limited to, additional costs for responding to COVID-19, loss of, or reduction to, revenue, contributions and funding, state-mandated closures or capacity limitations, and investment portfolio volatility. Management believes MCUM is taking appropriate actions to respond to the pandemic, however, the full impact is unknown and cannot be reasonably estimated at the date the financial statements were available to be issued.

### 14. RECENTLY ISSUED ACCOUNTING STANDARDS

On February 25, 2016, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) No. 2016-02, *Leases (Topic 842)*. This new standard, which MCUM is not required to adopt until its year ending December 31, 2022, is intended to improve financial reporting about leasing transactions by requiring entities that lease assets to recognize on their balance sheet the assets and liabilities for the rights and obligations created by those leases, and to provide additional disclosures regarding the leases. Leases with terms (as defined in the ASU) of twelve months or less are not required to be reflected on an entity's balance sheet.

On September 17, 2020, the FASB issued ASU No. 2020-07 *Not-for-Profit Entities (Topic 958)*: *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. This new standard is intended to increase transparency around contributed nonfinancial assets (also known as "gifts- n-kind") received by not-for-profit (NFP) organizations, including information on how those assets are used and how they are valued. This new standard requires that an NFP present contributed nonfinancial assets as a separate line item in the statement of activities, apart from contributions of cash or other financial assets. In addition, there are expanded disclosure requirements. MCUM will be required to adopt this new standard in the year ending December 31, 2022.

The Organization is presently evaluating the effects that these ASUs will have on its future financial statements, including related disclosures.

### PROJECT NARRATIVE

(no more than 1000 words; please use 12 pt font, add multiple pages if necessary)

Mother Hubbard's Cupboard (MHC) is a community food resource center that increases access to healthy food in ways that cultivate dignity, self-sufficiency, and community. From our low-barrier, client-choice food pantry, to access to cooking tools and classes; to free seeds and plants and a community garden in which to grow; to examining root causes of food insecurity over a shared meal, food is at the center of everything we do at Mother Hubbard's Cupboard. MHC works daily to build a community where food is accessible, equitable, and just, because access to healthy food is a basic human right. Over 15,000 folks access our services annually, the majority our own neighbors, living here in Monroe County. MHC's most utilized service is the food pantry. Open Tuesday - Thursday, 12 - 6 PM, the pantry offers our neighbors in need an array of shelf-stable dry goods, an assortment of cooler and freezer items, and this time of year, an abundance of fresh produce. MHC patrons are vocal about the difference our low-barrier, client-choice food pantry makes in their lives: 96% of respondents to our Annual Patron Survey agreed or strongly agreed that their household experiences less hunger by shopping at MHC, and 97% said that MHC helps their household access healthy food.

But what about the folks who can't access our services? Earlier this year, we asked patrons to identify their greatest barrier to accessing food. Nearly one third of respondents (31.5%) identified that to be transportation, or lack of. Lack of reliable transportation is a pervasive problem in our community - one of the top priority items identified by community stakeholders in the 2020-2024 City of Bloomington Consolidated Plan. Several times a week, MHC staff receive calls from patrons who experience this problem first-hand. Some folks call to ask what food we have available that day, to make sure the trip is worth the expense of the gas it takes to get here; others call to say they have enough gas to make it to MHC, but not enough to get back home, and to ask if there's anything we can do to help. On more than one occasion, MHC staff have pooled together resources to call a patron an Uber after seeing them struggle to haul their groceries to the bus stop. And what about the folks that don't call us to ask for help, or don't make it to MHC at all? How many community members forgo essential services because they don't have the transportation they need?

Second only to food, transportation assistance is the most requested service at MHC. In April, we launched our Direct Giving Program, an unconditional cash transfer program in which pantry patrons can apply for financial assistance. Of the 30 requests we received in our first quarter of the program, 37% were related to transportation, including gas money, tire replacement, registration fees, and license plates. We are currently in the application phase of our second quarter of this program. Of the 14 applications we've received in the last week, 9 of the requests are related to transportation. In total, MHC has funded \$2,615 in requests for transportation assistance in the program's three short months of operation. As of today, we have \$1,000 in pending applications for transportation assistance. One applicant shared that they need help paying for vehicle repairs, because they take food to their homebound, elderly neighbors: "They don't have good transportation to get around and they need me. I need them."

MHC is requesting funding to support these requests, to further increase access to healthy food in our community. Funding from the Sophia Travis Community Service Grant will be used to fund transportation-related requests that come through the Direct Giving Program, including gas cards, minor repairs, and maintenance. To stretch our funding as much as possible, we've connected with AutoChoice Service Center, a local repair shop. AutoChoice has agreed to partner with MHC to support our neighbors in need of transportation assistance and will give MHC a discount on gift cards for common car services for MHC patrons. Funding from the Sophia Travis Community Service Grant will also be used to purchase bus passes for patrons and rides with Uber, Lyft, or Red Tire Taxi as needed.

#### Priority #1 & #2: Transportation Assistance Fund & gas cards

Gas cards and funds for transportation assistance will be made available through the Direct Giving Program in January 2023. Pantry patrons can apply for up to \$200 in Direct Giving funds each quarter. Direct Giving requests are reviewed and approved by a committee made up of one MHC staff member, Board Member, and patron. Funds are distributed as VISA gift cards.

#### Priority #3: Patron rides (Uber, Lyft, taxi)

MHC staff will use their discretion in calling for ride assistance for pantry patrons. To be made available immediately.

#### Priority #4: Bus passes

Bus passes will be made available by request to all pantry patrons. These will be purchased and made available immediately.

MHC is committed to increasing access to food and reducing barriers to services. With support from the Sophia Travis Community Service Grant, MHC can aid our neighbors in need in the way they've asked for, by providing reliable transportation assistance.

### **COVID Safety**

Though we reopened our indoor pantry in April, welcoming folks for indoor shopping for the first time after more than two years of drive-thru operations, MHC continues to operate with COVID-precautions in place. Masks are required indoors and outdoors when social distancing isn't possible. Indoor volunteers and staff must show proof of vaccination, self-monitor for symptoms, and test for COVID when symptoms arise. In the event of another COVID outbreak, MHC staff are prepared to return to outdoor pantry operations.

# PROJECT NARRATIVE

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

At New Hope for Families, our highest priority is always helping families move through homelessness to stability as quickly as possible. Following a Housing First model, we are working to make homelessness rare, brief, and non-repeating. The majority of families served at New Hope are homeless at the time of service, so we want families to have the resources they need to expedite their move into stable housing they can afford and maintain in order to make that episode of homelessness brief and their last one. Our team has an intimate knowledge of our community's resource mix and uses that knowledge to empower our residents to go find the assistance they need rather than duplicating services. Outsourcing a great deal of client assistance keeps our costs low and gives residents ownership over their progress toward housing. However savvy and resourceful, New Hope families face many urgent situations that can impede their ability to move into housing. When New Hope has flexible client assistance funding we can meet essential needs and expedite families' transition to stable housing. These needs range from transportation support (bus tickets, gas cards), access to vital documents (copies of birth certificates, new state IDs, etc.), and rental application fees to emergency food support, diapers, and formula.

Because our housing market is so tight, it is not uncommon for a family to have to apply for six or even ten units before finding success. Each of these units is likely to charge \$25-50 per adult in the household, meaning that an average family may spend about \$350 on apartment application fees. Your investment of \$7,000 will help 20 families successfully identify a home where they can end their homelessness. Another major impediment to family success this year is transportation. Many families were able to take advantage of free bus fare during the past two years, but now that they must again pay to ride, helping them access public transport is vital to ensuring that parents are able to find or maintain the employment they need for their family's stability. Transportation is also essential for families to maintain appointments for supportive services like Medicaid and SNAP and to visit apartment complexes to fill our applications. Families with access to a vehicle often have an easier time getting to work and attending the other meetings they need, but high gas prices for the last several months have meant that even with families with transportation have struggled to afford to keep gas in their tanks.

Last month, New Hope moved into our new location, opening eight units to serve families experiencing homelessness. Today, all of those units are full. In the upcoming weeks, we anticipate opening another four units for a total of twelve. In addition to allowing us to more fully meet our community's need for family shelter, this new facility will help us keep families safer. Each family has access to a private bedroom and bathroom, allowing for much more effective quarantine and isolation than was possible in our old location, and each family shelter suite (sheltering up to four families) has its own HVAC unit with air filtration. Our staff are all fully vaccinated against COVID-19 and follow CDC guidance for isolation if they test positive for the virus.

With these expansions, we are excited to be able to increase the efficiency with which we prevent and end family street homelessness, but that makes access to flexible funding for low-cost, high-impact items even more critical. In addition to helping individual families have better long-term outcomes, quick transitions optimize our use of vital family shelter space, preserving capacity for when it is needed and ensuring our community's ability to ensure that no child has to sleep outside, live in a car, or be separated from their family in order to have a safe place to sleep.

# Sophia Travis Community Grants Program – 2022 Project Narrative New Leaf, New Life

New Leaf, New Life's mission is to support individuals during their incarceration and through their transition back into our community. We empower individuals toward self-advocacy; supporting one another in the spirit of solidarity, not charity. We provide programs and services to individuals in the Monroe County Correctional Center during their time incarcerated as well as post-release. The requested funds will be used to continue providing critical case management services to individuals that are currently incarcerated or have been recently released from incarceration.

Our current highest priority, and only request for funding, is for salary support for our case managers. We have two case managers that provide a tremendous amount of support to over 200 people per month. On average, each month, our case managers assist:

- 14 people with signing up for SNAP/HIP
- 26 people with obtaining free cell phone service
- 12 people with obtaining a copy of their birth certificate and other personal identification documents
- 17 people with obtaining employment
- Distribute over 200 bus tickets to those in need

Additionally, our case managers provide critical resources and social/emotional support to our clientele. Because our case managers have lived experience with incarceration and substance use disorder, they're able to connect with our client's seeking assistance in a more authentic way. Currently, our overall recidivism rate is 24%, which is 9.78% lower than the 2022 Indiana Department of Correction rate. We only anticipate our recidivism rates getting lower, as we've recently been awarded a grant through the Community Foundation to support our clients with placement in transitional housing, lowering the rate of recently incarcerated individuals into homelessness.

The award of \$8,000 will provide salary support for 18 weeks – 9 weeks each for two staff members. We continue to prioritize the safety of our staff, clients, and the public at large by requiring clients to make appointments to minimize the number of individuals in our office at one time. If staff are sick or have been notified that they're a close contact to someone with COVID-19, they are not permitted to come to work until they produce a negative COVID-19 test. Hand sanitizer and masks are always available in our office for clients to use and to take with them.

### 2022 Sophia Travis Budget

### **GRANT BUDGET INFORMATION**

Please list the itemized and prioritized (1 = highest funding priority) program elements for which funding is requested. The table will expand by tabbing in the last cell.

Item	Cost
1. Long-Acting Reversible Contraceptives (IUDs, Implants)	\$4,000
2. Contraceptives used on a schedule (the pill, patches, injections)	\$500
3. Emergency Contraception	\$250
<ol> <li>Contraceptives used every time (condoms, spermicide, etc.)</li> </ol>	\$250
5.	

## **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

Planned Parenthood Great Northwest, Hawai'i, Alaska, Indiana, Kentucky (PPGNHAIK) is a leader in reproductive health care, rights, and education in Monroe County and throughout Indiana. Our mission: Together we advocate, educate, and provide exceptional health care supporting sexual health, wellness, and reproductive freedom — without judgment, without fear, without fail. PPGNHAIK believes all people should have access to sexual and reproductive health care no matter who they are, who they love, or how much money they make. Unlike other providers, PPGNHAIK does not turn away any patient based on their income or insurance status.

In order to provide equitable access to family planning services for all people in Monroe County, PPGNHAIK respectfully requests a grant of \$5,000. The entirety of grant funds will be used to provide low-to-no cost birth control on a sliding scale basis for patients who are uninsured, under-insured, and/or living at or below 150 percent of the federal poverty level. The safety-net services grant funding will help provide are: (1) long-acting reversible contraceptives (LARCs), like IUDs and birth control implants; (2) contraceptives used on a schedule, like birth control shots, vaginal rings, patches, and birth control pills; (3) contraceptives used every time, like condoms, diaphragms, sponges, spermicide, and cervical caps; and (4) emergency contraception.

Funding will be used to subsidize a patient's contraception of choice. As part of patients choosing the birth control method that is right for them, they receive comprehensive information about the full range of contraceptives available. PPGNHAIK's health providers are trained to educate each of their patients on: contraception, including effective methods and how to use them; how to effectively communicate with health care providers about their sexual health and pregnancy goals; and reproductive health self-efficacy, or the confidence to succeed in the face of obstacles once armed with accurate information and contraceptive supplies. For patients who need/choose a method they cannot afford, grant funding will be offered to subsidize their care. Patients will complete applications for financial assistance, which are reviewed by PPGNHAIK's financial counselor. In order to ensure the greatest possible impact of philanthropic support, PPGNHAIK's financial counselor helps determine each unique patient's level of need. Financial counselors: 1) help patients enroll in Medicaid, if eligible; 2) offer prompt-pay discounts to provide lower-cost services and incentivize partial payments when possible; and 3) create payment plans for patients who can partially afford their contraception of choice.

Birth control is one the most needed health services we provide. During calendar year 2021, PPGNHAIK's Bloomington Health Center connected 745 unduplicated patients with the contraception of their choice. There is a great need to increase equitable access to family planning services in Monroe County and throughout all of Indiana. Monroe County's teen birth rate for teens who are Black, Indigenous, and/or People of Color (BIPOC) is almost double the rate for white teens. When considering all pregnancies, not just teen births, the CDC's Pregnancy Risk Assessment Monitoring System (PRAMS) reported that 41.8 percent of all Indiana pregnancies are unintended. Within that high rate of unintended pregnancy, 19.3 percent were reported as mistimed, 6.5 percent were unwanted, and 16 percent were among those unsure whether they wanted to be pregnant. The unintended pregnancy rate is 5.5 times higher for those living below the federal poverty level, affecting a disproportionate number of BIPOC women and teens.

For many people in Monroe County, income and/or insurance status remain major barriers to care. Although some contraceptive supplies are inexpensive, such as condoms, the more effective birth control methods are too costly for many patients to access. LARCs are the most effective family planning method; however, LARCs can cost upwards of \$1,800. For patients living with low incomes and/or patients who are uninsured or on a high-deductible health insurance plan, LARCs can be financially out of reach.

During 2021, PPGNHAIK served 2,796 unduplicated patients at our Bloomington Health Center, of whom: 37 percent reported an annual income at or below 150 percent of the federal poverty level; and 55 percent were uninsured or on Medicaid. PPGNHAIK provided over \$73,000 of discounted services to Bloomington patients last year, which included \$37,000 of subsidized contraceptives. PPGNHAIK's ability to meet Monroe County's need for safety-net family planning services is dependent on philanthropic support, and we are grateful for your consideration of a grant.

Decades of research have proven that equitable access to family planning services demonstrably improves community-wide health and economic outcomes. Access to birth control reduces teen pregnancy, unintended pregnancy, abortion rates, infant and maternal mortality, and it significantly reduces the childhood poverty rate. Young people who can plan their pregnancies are significantly more likely to complete high school, pursue and complete higher education, participate in the labor force, and establish stable, long-term relationships. Thank you for considering a grant of \$5,000 to support safety-net family planning services.

(Throughout the COVID-19 pandemic, PPGNHAIK has minimized risks for clinicians and patients by providing masks for all, screening patients, and staggering patient appointments to ensure social distancing. We are continuing to screen all who come to our health centers, educating them on social distancing and symptoms, and referring them to other care as needed. We are temperature checking all staff prior to their shifts. We are referring some patients to telehealth, including the PP Direct app, which allows patients to access oral contraception and UTI treatment through the mail. PPGNHAIK has clinical staff in senior leadership positions who monitor all CDC guidance and implement protocols that ensure the highest possible level of safety for staff and patients.)

# Sojourn House exists to defend, restore, and liberate women who have been trafficked.

Sojourn House is a 501(c)(3) in Monroe County that will offer refuge, healing, and restoration in a sober-living program to women 18 years of age and older escaping human trafficking and exploitation.

Through trauma-informed care and a focus on substance recovery, women will build resilience, sustainability, and personal success in a 24-month residential program.

While development and renovation of the residential program continues, our outreach and education program has become more robust and connected in its first year.

# Phase 1 achievements:

Community outreach and training

- Partnership with the Bloomington Downtown Outreach Program supports full-time Case Manager's work in the community to support exploited women who are without a safe home.

Case Managers Grace and Kim served 29 women who self- identified or were referred by other agencies as probable victims of human trafficking.

Services included:

Material assistance - personal hygiene - meals and snacks - bags and clothing	Housing assistance - application fees - rapid rehousing referral - housing search assistance	Transportation - emergency transportation from trafficking location - to treatment center - to grocery, healthcare - bus passes
Addiction treatment	Education	Wrap-around
- helped client identify	- conducted 10 classes for	- collaboration with
need for treatment	at-risk women in the	multiple agencies has
- found facility with open	unhoused population	allowed help for women
beds	- established future classes	who were "slipping
- transported client to	in two additional locations	through the cracks" due to
treatment and intake		trafficking activity

- As an agency, providing education on Human Trafficking through presentations to 102 community volunteers and over 600 people across 11 organizations builds the "eyes and ears" of the community to understand and identify the needs of victims.

## Phase 2 achievements:

**Residential Program** 

- The 2021 Sophia Travis award is being used to build closets in resident bedrooms and provides storage for outreach client materials.
- Renovation progress continues thanks to additional funding provided by Monroe County for major fire safety revisions to the facility.
- Over 385 volunteer hours were donated by members of the community in ongoing physical preparations of Sojourn House and organization of client resources.

Sojourn House currently has a 10-year lease with the Town of Stinesville who owns the Community Center property formally known as the Stinesville Elementary School. The town continues to be supportive as Sojourn House renovates the newest part of the building to convert classrooms into dorm style housing, as well as education, art-therapy, living, and case management spaces. Regular use of the historic gymnasium, cafeteria, and outdoor recreation areas are part of the lease.

The House will be staffed 24/7 and provide access to therapy and recovery resources for program participants and residents. Women entering the House will complete five phases of a detailed program before graduating into health and self-sufficiency. This five-step Pathway program consists of healing, education, employment, sustainability, and graduation. Each pathway to recovery will be a personally designed plan that is agreed upon by the resident, the case manager, and the director of the House during regular case management meetings.

Many Monroe County community partners will be utilized between intake and graduation. Partners will include Ivy Tech, local businesses, Work One, substance abuse recovery groups, mental health providers, among others. Volunteer opportunities will play a crucial role in the areas of wellness coaching, transportation, arts and crafts instructors, educators, and mentorships. Our volunteer coordinator makes sure that each volunteer has a background check and the proper trauma informed care training to fulfill their role.

# Anticipated outcomes and strategy for measuring:

- Expected short-term outcomes of the program include increased access to physical, social, spiritual, emotional, mental health, and substance use disorder treatment, as well as an increase in social skills, job skills, usage of local resources, education, and financial literacy.

- Long-term outcomes include permanent and independent housing, family reunification/restoration, managed mental health, recovery, decrease in public funded benefits, sustainable employment, and financial self-sufficiency.

- Case Management and careful tracking of goal-oriented milestones will be collected regularly and assessed for efficacy.

# Timeline:

Sojourn House received 501(c)(3) status in March of 2020.

Steady progress has been made in research, best practices, program development, community partnerships and funding.

The process of renovation has been long and full of all the speedbumps one might expect, and then some.

Sojourn House Board of Directors chose to invest in Phase 1 priorities while working through Phase 2 hurdles. A newly projected timeline is set for residential services to open when construction is complete.

# **Conclusion:**

Sojourn House embodies hope and healing. By helping women escape their traffickers and find freedom in self-sufficiency, Sojourn House will align with and contribute to the "Heading Home 2021" plan of Monroe County.

Women will have full-time and sustainable jobs, financial accountability and literacy, and permanent, stable housing leading to healthy, productive individuals and healthy, restored families.

Thank you for your consideration. We hope you will continue to collaborate with us in changing the life-course of women imprisoned in exploitation, addiction, and trafficking.

# **Covid-19 considerations:**

- Residents will have individual sleeping spaces where they can be socially distant from other residents.
- Covid-19 vaccines will be made available to all residents who are not yet vaccinated.
- Residents will be asked to perform daily self-assessments to monitor for signs and symptoms of Covid or other communicable disease.
- Symptoms will be addressed immediately. The facility has Wi-Fi access and equipment to allow for telehealth visits.
- If someone does have the illness, the facility will have quarantine areas where residents with infection can stay in isolation with meals brought to them away from other residents.
- As part of ongoing health and wellness, all residents of Sojourn House will obtain and maintain insurance coverage, a primary care provider, and regular health assessments.

# Grants received from Monroe County:

Sophia Travis Award recipient 2020 (Final Report submitted June 25) Sophia Travis Award recipient 2021 (Funds still in use)

### 7/13/2022

#### Financial note:

We very recently added grant-tracking software to our existing accounting program. A few errors surfaced immediately and we are working to correct the conversion.

Errors to note:

- Several grant categories (including building fund) show negative balances. That is incorrect. We have no negative balances in any category.
- Likewise, a few grants that show positive balances should show zero, as the funds were spent and reported on.

We apologize for this confusion and can assure that the Balance Sheet bottom line is correct.

Carissa Muncie

President, Board of Directors

Sojourn House

# **PROJECT NARRATIVE**

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

#### 2022 Project Narrative Getting Back on Track with Books

"First Book has been such a great support to our students and families. During the Covid shut down [of 2020], we were able to provide books to all of our families thanks to First Book. In a time when it was difficult to provide our students with materials it was so encouraging to know that every child had a high-quality book to read at home." –Claire Mickey, former Instructional Coach, Arlington Heights Elementary, current Assistant Principal at Grandview Elementary

COVID put a damper on the educational progress of thousands of children. Through it all, Team First Book – Monroe County continued to provide free, high-quality books to low-income children and their families. We continue to fund books for Title I schools and early childhood programs which serve low-income families, helping classrooms get back on track. As we get back on track, Team First Book would like to give special emphasis to the very youngest children in our targeted group, getting them back on track to be ready for a successful school experience.

For twelve years, Team First Book – Monroe County has worked toward advancing educational equity for children from low-income homes in Monroe County. Books and resources impact everything from psychological well-being to academic performance, but kids in need don't have that advantage. Our mission is to fund new, high-quality books to these children to own in their homes. Access to print media in the home has been shown to be an indicator of the overall academic success of students. www.firstbook.org/first-book-research-insights.

Since 2010, Team First Book has funded more than 80,000 books to children in Title I schools, Monroe County United Ministries Compass Learning Center, Head Start, Thriving Connections (a program of South Central Community Action Center), and additional programs which work with low-income children in Monroe County. National First Book (www.firstbook.org) spearheads a program entitled *Stories for All*<sup>TM</sup> which "curates new, relevant, high-quality books representing diverse characters, voices, and life circumstances and makes them available and affordable to educators supporting kids in need." The Stories for All Project: Increasing Diversity & Inclusion (firstbook.org). These books mirror the diversity of children in our country and in our community.

Team First Book – Monroe County wishes to make the purchase of these books from the First Book Marketplace possible. The Marketplace is able to offer drastically discounted books to registered programs, averaging \$3.50 per book which includes shipping costs. We are asking for funding two preschool programs which would benefit greatly from the *Stories for All*<sup>™</sup> initiative—Monroe County United Ministries' Compass Early Learning Center and Head Start of South Central Community Action Program. Team First Book is asking for funding of at least three books per child (our ultimate goal over the year is four to five) for these two programs which work with children aged one to five years old. Last year, MCCUM had 84 students from toddler to five years. Head Start has 267 children ages three to five in six locations and classrooms across Monroe County. A total of 351 children would receive 3 books each, with each book costing approximately \$3.50 apiece. Funding for books for these children would be approximately \$3,685.

Issues of diversity, equity, and inclusion in education are rightfully a concern of our community. Making reading materials available to own in the home, encourages not only the reading of print materials but discussions with family possible. This is an important aspect of what Team First Book – Monroe County is striving to support. The Sophia Travis Community Services Grants awarded to First Book in the past have been the bedrock of our yearly funding of books for low-income children to take home to own. In these uncertain times, we are thankful for this continuing support.

### Team First Book - Monroe County, Indiana Mission Statement

Team First Book has a simple and focused mission: "To provide the children from low-income families in Monroe County free new books that they can take home and own."

The books are distributed through Title I schools and qualified local literacy programs that receive book grants from us. The educators in these programs use our book grants to purchase books on the children's behalf from the First Book Marketplace which carries a wide variety of high quality books with rich content at deeply discounted prices. To qualify, the programs must be a Title I school or have at least 70% of children from low-income families and incorporate our books in regular reading or other activities to nurture the children's love of reading. The programs are selected every year based on their ability to meet our requirements.

Studies have repeatedly shown that lack of access to books at home is the biggest barrier to literacy and that children from low-income families have little or no print material at home. This results in low levels of achievement in school, leading to high dropout rates and juvenile crime.

Team First Book is an advisory board made up of dedicated volunteers, and the community arm of the renowned national non-profit organization First Book (www.firstbook.org), which has distributed over 100 million books in the USA and Canada. For more information about First Book, please visit: www.firstbook.org

First Book's mission was set up to enable ready and easy access to books at home and to encourage reading at home with involvement from the family. With such ready access, a child can read books at any time. They can read their favorite book repeatedly and share the experiences with the family, all of which create the suitable environment for acquiring reading skills.

### **Previous Grants from Monroe County**

2012 2013	\$2,640 \$5,200
2014	\$6,200
2015	\$2,000
2016	\$3,125
2017	\$2,200
2018	\$1,600
2019	\$2,300
2020	\$2,250
2021	\$2,580

### Important Note about Team First Book's Organizational Model and Financial Processes

First Book and its advisory boards are set up for maximum efficiency and low cost. The national organization handles all the financial, IT and administrative processes thus eliminating the need for local advisory boards to perform these functions. This allows the local board made up of volunteers to avoid facilities, administrative and paid staff costs. All financial documents and processes such as auditing and submission of annual financial statements are handled at the national level at NO cost to the local board.

Team First Book at the local level does not maintain bank accounts. Our donations are sent directly to the national organization which in turn immediately grants (deposits) funds to the organizations that we designate as recipients. All funds are used to pay for books. No dollar is wasted in this transaction and there is no time delay. Money comes in and goes out as books to the local community.

Team First Book of Monroe County's operational costs are very minimal. They are typically borne by advisory board members and occasionally we may choose to get a minimal reimbursement (not exceeding 4% of our revenue) from the national organization. We have, however, never asked for reimbursement.

We believe that this model is our strength allowing us to focus on educating the community, acquiring funds and immediately giving them back as books. It eliminates all unwanted cost to the community and maximizes the value of the donors' dollars.

As of 2022, national First Book has started charging a 3.3% administrative fee on donations they process. For the most current financial information about Team First Book, please see their website: firstbook.org/about/financials.

### PROJECT NARRATIVE

(no more than 1000 words; please use 12 pt font, add multiple pages as necessary)

The Greater Bloomington Chamber of Commerce's mission is "to promote the continuous improvement of the common good and the quality of life in the community through the pursuit of new business; the cultural, social, and economic education of our citizens; and by providing accurate and timely assistance to the business community." The Chamber's Foundation is respectfully seeking a grant of \$10,920 to aid in two educational programs for the community.

The first educational program -**Tour of Opportunity**-is designed as a Youth Enrichment Opportunity through the Chamber's Success School. The Success School acts as the connection between the business and the education communities with a mission "to provide real-world learning opportunities for area K-12 students, increasing academic engagement and exciting young people about future careers to shape tomorrow's workforce in Monroe County." The Success School partners with MCCSC and RBBCSC and provides programming in elementary, middle, and high schools throughout the county on the following topics: Job Skills, Entrepreneurship, Soft Skills, Career Exploration, and Financial Literacy.

The Tour of Opportunity, a field trip for middle-schoolers, is a new in-person program for The Success School and will allow students to visit STEM-related businesses and educational facilities here in Monroe County and learn about the wonderful employment opportunities therein. During the past two school years, The Tour of Opportunity has provided video "tours" of 4 local organizations to be used in teachers' lesson plans and available on the Chamber's website. The goal of this field trip is to allow students to explore the many career opportunities available within a local business and interact with the professionals there. By visiting 2-3 businesses and/or educational facilities during the field trip, The Success School aims to build awareness of the range of STEM-related fields right here in Monroe County and the educational or career steps needed to be hired by an organization, thus influencing coursework choices in high school and beyond. The grant money will be used to offset transportation costs, as well as provide a lunch for the students as they're touring the area businesses.

The second educational program-**Diversity, Equity, & Inclusion (DEI) Training**-is the Chamber's effort to increase DEI resources available to area businesses. "Our members are asking for the resources and tools they need to increase their ability to become more active with diversity, equity, and inclusion for their businesses and our community," said Eric Spoonmore, Greater Bloomington Chamber of Commerce President & CEO. The DEI Trainings were offered for free to Chamber members in the Fall 2021 and Spring 2022 with registrations for each 6-class session filling up within 2 weeks. The following topics were covered in 2-hour sessions: Foundational Bias & Micro-Aggressions, Culturally Sensitive Communication, Imposter Syndrome, Exploring Anti-Racism, Inclusive Excellence, and a DEI Workshop.

With the high response and participation from the first two semesters (56 attendees total), the Chamber would like to continue this educational program with additional DEI topics for Monroe County businesses in 2023 utilizing the grant money to offset speaker fees, marketing materials, class materials, and lunch for the participants. The Chamber believes in the importance of this program which is reiterated by participants as well:

"These trainings have been so helpful and enlightening. Thank you to the Chamber for offering these wonderful complimentary trainings!"

"I thought these trainings were really informative and thought-provoking. I think this type of training is a good thing for our community if more people will participate in it."

"I am so happy I participated in these trainings! I appreciated the opportunities to go into breakout sessions and talk in small groups. There are many things I'm taking back to my company and will encourage more people to participate in these sessions in the future!"

"I found the sessions to be very helpful. The speaker was engaging, the content was relevant, and the presentations were easy to follow and understand. I enjoyed the small group interactions which enhanced learning and helped me to gain a different perspective on topics presented. I looked forward to attending the sessions."

All Covid regulations as set forth by the Monroe County Health Department and school districts and will be followed for each DEI session and Tour of Opportunity, as well as taking in account the preferences of each individual organization that is visited as part of the Tour of Opportunity.

The Chamber is appreciative of the Sophia Travis Community Service Grants Program committee for their consideration and plans to acknowledge the grant in marketing materials, on the Chamber website, and verbally at each funded program.

# **PROJECT NARRATIVE**

### Statement of Need

Located on the edge of Monroe County just outside of Ellettsville, our community population consists of young working families and elderly residents. While Stinesville itself is small, with just over two hundred people residing within the city limits, the Bean Blossom Township is home to over 3,000 Monroe county residents, with Stinesville being the closest Post Office, Fire Station and Police Station in the area. The nearest library is the Ellettsville Branch of the Monroe County Library, which must be reached by car. Over 50% of residents in the surrounding area fall into the category of children or elderly for whom travel to the closest library is largely dependent on someone else driving them. Elderly residents find travel outside of the town especially difficult in the winter. Working residents in our community area often work irregular hours, making it difficult to access library services during open hours, or the Monroe County Library Bookmobile that visits our community for a couple hours once per week on a Sunday afternoon. These factors alone demonstrate a sustained need for equitable access to a local library, open in the community center. The COVID-19 pandemic, moreover, revealed an even greater need: families in the town and surrounding areas lack reliable internet access—a detriment to the education of students of all ages. During school shutdowns, many families drove into Ellettsville and sat in their cars to access free internet services during the school closures. For some families, where both parents were working away from home, the lack of internet access was especially harmful. In more recent months, e-learning days have replaced snow days, and lack of internet access will continue to impact the education of young students in our area. Mobile hot-spots provided by local school districts for students often do not work due to spotty cell-coverage, as the hills create many zones where reception is sparse at best, or simply unavailable. A local library will provide both reliable and equitable accessible internet access points as well as access to books and other educational materials in our rural community.

### **Project Plan Description**

The town council will dedicate a large room in our community center, with bookshelves and a large supply of children's books, tables and chairs which have already been donated. A local resident with experience has offered to serve as librarian as well as direct the library program and coordinate volunteers both locally along with future plans for student internships through the IU School of Education and Library Sciences programs to help staff the library.

Our goal is to get our community library completed and running by winter 2022, with an opening date at the time of Stinesville's Christmas Bazaar. Our major need is equipment. We are searching for funding through local grants to purchase computers, adult fiction and non-fiction reading materials, equipment to provide internet access, additional seating options and tools to facilitate a library check-out and return system. Once the library is completed and fully operational, we hope to expand community services to include a local story time hour to promote early literacy, community volunteerism, as well as book clubs, and job search programs for residents which will increase literacy rates in our community for young and old, as well as provide much needed economic services to those seeking employment and needing access to regular and reliable internet. We plan to update the community on the project and promote library services via social media such as Facebook, local papers such as the Herald-Times and Spencer Evening World, information distributed to the community via contacts in local schools and school districts, and local utility companies. Contributing sponsors and organizations will be acknowledged in all newspaper and social media articles and a plaque thanking individual and organizational contributors will be placed outside the entrance to the library.

### Evaluation

Our town council has appointed Sadie Elliott (M. Ed. Teaching and Learning, University of Oregon), with experience working in rural and economically disadvantaged populations in both the United States and internationally, to oversee the implementation of establishing the library and have worked together to create a strategic plan to see this vision become a reality. After securing sufficient funding for the library via grants and donations, our next steps include purchasing of needed materials, installation and organization of the

library in addition to cataloging the books. Our aim is to purchase all materials needed or secure them via donors by the fall of 2022. We plan to have the library room organized and books catalogued so that the library will open to the public by a date in December 2022. In addition, we will have community volunteers coordinated and organized by November to ensure the library accessible and open to the community and their needs. We will provide library card applications at the local Stinesville Post Office in order to make it easy for residents to request a library card. Finally, our Library Director will keep a record of how many local patrons access the library each week and the types of materials that are most used and needed in order to provide better services and gauge how the community has responded to the library and uses it regularly.

### **Community Support & Health Measures**

The Stinesville Community Library project was conceptualized and approved by the town council in late February, 2022 and we are in the initial stages of seeking funding. Our town council has donated a room, books, bookshelves, tables and chairs. The Stinesville Mercantile has donated magazine racks for the library. Additionally, Monroe County commissioners are donating two computers to library.

In order to ensure a safe and healthy library, the staff will keep a close eye on county metrics and respond accordingly to any health and security related concerns and work closely with our Town Council in the event of any local outbreaks of COVID-19 or other illnesses. Library staff will ensure that services are available to contact-less pick up/drop off for library materials for any persons who are ill, and that needed ventilation is circulating the air within the library rooms and that rooms are not overcrowded during operating hours.
