### **OFFICE OF COURT ADMINISTRATION**

#### **INTRODUCTION**

Each day more than 1,000 people enter the Justice Building to file a complaint, pay traffic or probation fees, gather information about a case, or serve as a lawyer, petitioner, defendant, witness, or juror to a trial. The increasing complexity of life and the scope of litigation in the United States have created a non-judicial administrative burden on the courts that the judges and traditional court staff cannot handle alone. The Office of Court Administration, under the guidance of the Board of Judges, provides administrative support for the Circuit Court. The office is responsible for the daily operations in financial management, security management, jury management, case management and court support programs. The Office of Court Administration staff reviews system operations, analyzes management problems, recommends solutions to the judges, and implemente efficient change. In 2022, the Office of Court Administration successfully implemented the following administrative programs and procedures.

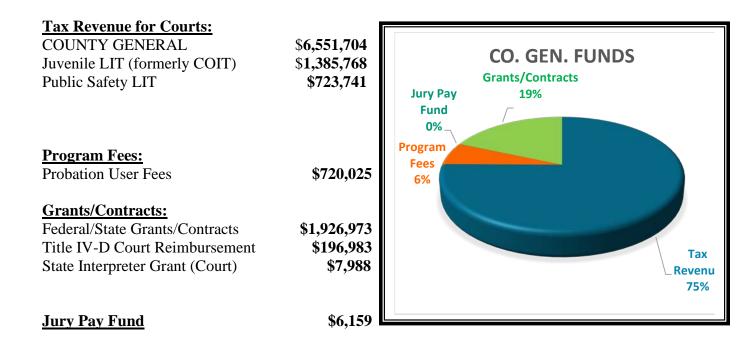

#### FINANCIAL MANAGEMENT

Thirty-Seven budgets totaling a little over **\$11.9 million** were prepared, monitored, and analyzed by the Office of Court Administration. Fiscal management of these budgets includes the preparation of the payroll for over 130 employees, the monitoring of grants received on federal, state, and local levels, and the procurement of office furniture, supplies and equipment. The following is a 2022 summary of the funding sources, the amount and types of generated revenue, and the budget and expenditures for the Monroe Circuit Court.

#### I. FUNDING SOURCES

The Monroe Circuit Court receives funds from the following sources:

- (1) <u>Tax Revenue:</u> Provides funds for personnel, computers, capital outlays, supplies and operating expenses for the Court.
- (2) <u>Program Fees:</u> Provides funds generated by case filings, court costs, fines, infraction judgments, support fees, user fees and investment interest.
- (3) <u>Grants/Contracts:</u> Awarded by the State of Indiana for Community Corrections, Supreme Court Grant, CARES Grant, Interpreter Grant, Title IV-D reimbursement; Drug Court Grant awarded by the US Dept. of Justice/Office of Justice Programs, JDAI, Family Court Project, Veterans Court Grant, Court Reform Grant, Mental Health Court Grant, Community Transition Program, Pretrial Pilot Project.

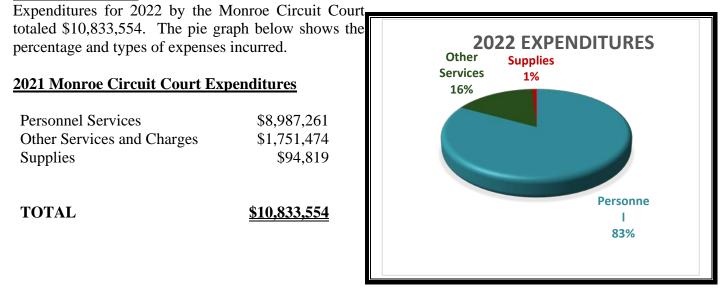

#### TOTAL

<u>\$11,519,341</u>

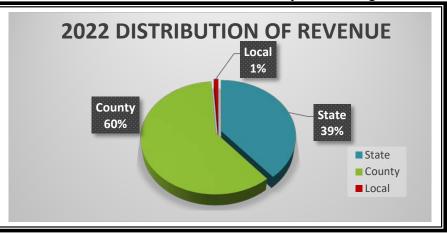

As indicated on the pie graph, Monroe County provides the Court over half (75%) of their annual budget. Fees and grants make up the remaining portion (25%) of the budget. In 2022, the Monroe Circuit Court received total funding of \$11,519.341.

#### II. <u>EXPENDITURES</u>

#### III. <u>REVENUE</u>

In 2022, the Monroe Circuit Court generated \$2,256,787 in total revenue. The revenue generated by the Monroe Circuit Court is disbursed to three government entities. The pie graph below shows the percentage of disbursement of this revenue to state, county, and local government.

#### SECURITY MANAGEMENT

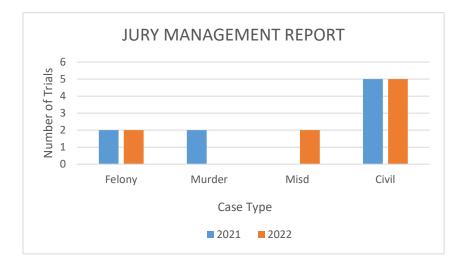

Violence in this country is on the rise and concomitantly, there have been recent tragic events involving the Judiciary within court facilities. Judges, bailiffs, witnesses, lawyers, parties, and the general public have been vulnerable to bombs, armed attack and hostage situations. Inadequate courtroom security or the absence of security has been identified as causative factors. By Order of the Court, all firearms, dangerous weapons, and destructive devices are prohibited from being in the Justice Building. To take preventive measures, the Office of Court Services employs bailiffs, who are trained in handling weapons, bombs, and serious threats, to be present in the courtrooms. In 1995, the County installed a magnetometer and X-ray machine at the entrance of the Justice Building. The implementation of this comprehensive security plan has insured the safety of litigants and other citizens conducting business in the Justice Building.

In 2022, the Monroe Circuit Court Bailiffs, in addition to their regular responsibilities of security, provided an enhanced level of security in 780 Protective Order Hearings, and 1 Non-Medical Incidents. Previous years, Bailiff's provide security to Juvenile Detention Hearings, but those have all gone to zoom hearings. They responded to 9 separate Medical Incidents experienced by members of the public at the Justice Building. The bailiffs also booked 123 offenders into the Monroe County Jail as the result of either a judicial remand of custody or the service of a warrant.

#### JURY MANAGEMENT

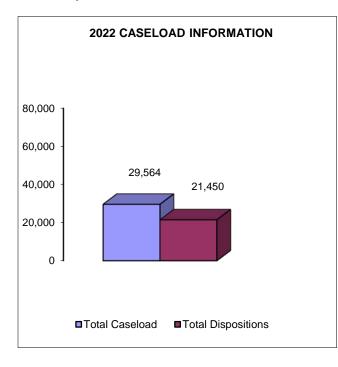

The goal of the Office of Court Services is to maximize efficiency while minimizing jury system costs and inconvenience to citizens summoned for jury duty. In 2022, prospective jurors' names are randomly selected from the Bureau of Motor Vehicles and Department of Revenue lists for Monroe County. The master list contained thirty-four hundred names and addresses. These citizens receive a juror summons for a one-month term of service. In 2022, a total of 240 citizens reported for jury duty; and 33 percent of these actually served on juries. By state law, a juror received \$15.00 per day for reporting for jury service and \$40.00 per day if sworn as a member of a jury. All receive \$.49 per mile to and from the Justice Building. Prospective jurors are called one time within their one-month term of service and if empaneled to serve on a jury, their service lasts around two or three days. In 2022, the average cost per trial was \$1183.13.

In 2022, there were 9 jury trials held in Monroe Circuit Court. Of these, 20% involved felony offenses, 0% involved Murder offenses, 20% involved misdemeanor cases and 60% involved civil cases.

#### CASE MANAGEMENT

The Office of Court Administration monitors case assignments to ensure the equity of caseload between judges and provides the judges with case management information in order to reduce case delay. Case statistics are provided to the State Court Administrator's Office quarterly and analyzed by the Office of Court Administration to determine case management trends and growth of judicial workload. With the assistance of an automated case tracking system, information is available for assisting the judges, court support staff and the public more efficiently.

In 2022, 29.564 cases were before the Monroe Circuit Court. These included previously pending cases, new filings, reopened cases and venued-in cases from other counties. Fifty-four percent (54%) or 16.099 of these cases were new and venuedin cases and the remaining were reopened and previously pending cases. Reopened cases are defined as cases redocketed for further action. such as proceedings supplemental to collect money judgments, petitions to modify child custody, support or visitation, and modifications of criminal sentences. The cases included criminal, civil. domestic, protective orders, small claims, juvenile, probate, mental health, ordinance violations and infractions. The nine courts disposed of 21,450 cases in 2022.

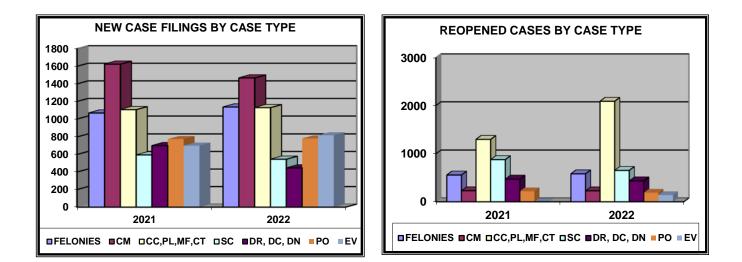

Infractions: The staff of the Clerk and Prosecutor's Office manages infraction cases. Most of the traffic cases settle prior to court. Diversion programs are established for first time offenders. If programs are violated, infraction cases are assigned to the judges. There were 558 previously pending cases and 4,163 new infraction cases filed in 2022. Approximately 2% were assigned to the judges.

Ordinance Violations: The City Attorney and staff of the Clerk's Office manage ordinance violation cases. Due to new collection procedures adopted by the City of Bloomington in 2012, the number of cases filed has declined significantly. There were 15 previously pending cases and 25 new ordinance violations filed in 2022.

Case Assignment per Court: Considering the number of cases pending, new filings, redocketed cases, infractions and ordinance violations filed with the Court, the average number of cases collectively assigned to the nine divisions for 2022 was 3,285.

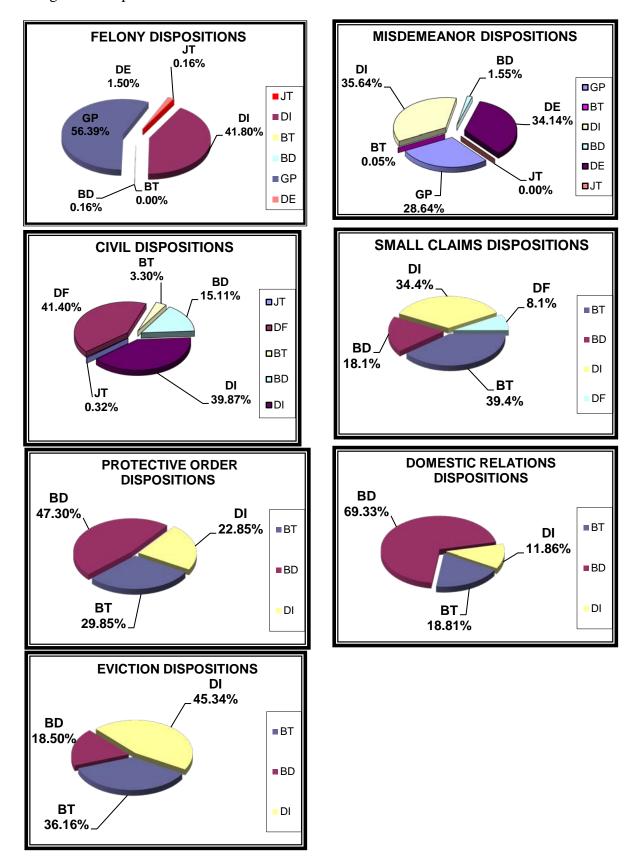

#### Case Filings and Dispositions: Criminal and Civil

During 2022, the Monroe Circuit Court consisted of nine divisions. Four divisions were randomly assigned criminal cases. Civil, Domestic Relations, Juvenile and Probate cases were randomly assigned to five other divisions. New filings increased slightly for Felonies, Protective Order, Evictions, and Civil cases but decreased across all other case types. Disposition rates for Criminal Misdemeanors, Small Claims, Evictions, Domestic Relations, and Protective Orders all slightly increased for 2022, while disposition rates for Felonies and Civil cases slightly decreased. This was the second year for the new Eviction case type.

Criminal, Civil, Small Claims, Evictions, Protective Orders, and Domestic Relations cases are decided by jury trial (JT), bench trial (BT), guilty plea (GP), deferral/diversion (DE), dismissal (DI), default (DF) or bench dispositions (BD). The following pie charts show how the new case filings were disposed in 2022.

**Juvenile and Probate:** Juvenile and Probate cases include civil commitments of mentally ill, the processing of estates and trusts, adoption of children, the establishment of paternity of children born out of wedlock, juvenile delinquency, and CHINS (Children in Need of Services). CHINS cases involve the abuse and neglect of children. All cases are disposed by bench trial, bench disposition or dismissal.

The two-year graph to the left shows Juvenile and Probate new filings in 2021 compared to new filings in 2022.

New filings for Juvenile Chins, Juvenile Delinquency, Juvenile Termination, Juvenile Miscellaneous, Guardianship, Trust, and Estate cases have decreased for 2022, while new filings have increased for all other case types. Redocketed cases have increased for Juvenile Paternity, Juvenile Termination, Juvenile Protective Orders and Juvenile Status. Redocketed cases decreased in 2022 for all other case types.

#### MONROE COUNTY FAMILY COURT

Monroe County was selected in February, 2000 as one of three pilot counties for the Indiana Supreme Court's Family Court Project. The initial funding for Family Court was received under a two-year grant from the Indiana Supreme Court, Division of State Court Administration. The Monroe County Family Court has continued its services to families in the legal system beyond the pilot project phase. Family Court operated under the administration of Division IV of the Monroe Circuit Court in 2022.

## The Monroe County Family Court has identified the following programming components as vital to the project:

I. <u>Mediation:</u> The Family Court Mediation Clinic was created in 2002 at the request of Judge Viola Taliaferro. In August, 2002, the Family Court Coordinator began collaborating with the Child Advocacy Clinic of the Indiana University School of Law, and the Community Conflict Resolution Project (CCRP) to develop a method of resolving custody, visitation, and related disputes that arise within the context of paternity cases. It was envisioned that law students and other participants could be trained to provide mediation services on a volunteer basis in the paternity court. Implementation of the project began in January, 2003. This highly successful program was greatly expanded in August, 2003 to include divorce cases involving child custody and parenting time issues. Families are eligible to participate in the mediation clinic if they are unable to afford private mediation services. The collaborators in the development of the Mediation Clinic believe that the children affected by these cases will best be served by providing a forum for parents to actively negotiate parenting arrangements that protect the child's best interests.

The Family Court Mediation Clinic now handles all types of disputes that may arise within the context of family law cases referred by the Court. Parties may also be referred to mediation for assistance with specific issues identified by the Court, such as completing a parenting time schedule, calculating child support, and developing co-parenting communication skills. Parties receive information and education to better understand the court process, the Indiana Parenting Time Guidelines, and the Child Support Rules and Guidelines. The Family Court Coordinator also receives referrals from the court to assist parties in providing more complete and accurate pleadings and information to the court in order to expedite their cases.

In March of 2005, the **Family Court Mediation Clinic** implemented the **Domestic Relations Alternative Dispute Resolution Fund Plan** of the Monroe Circuit Court. This plan operates under the provisions of Indiana Code 33-23-6-1 to -4. An additional twenty-dollar filing fee is collected from parties filing petitions for legal separation, paternity, or dissolution of marriage. The fee is deposited into the alternative dispute resolution (ADR) fund and is used to foster domestic relations ADR services for litigants who have the least ability to pay. Litigants receiving services covered by the fund make a modest co-payment for the services based upon the litigant's ability to pay.

The Family Court Coordinator conducts mediation for the Family Court Mediation Clinic throughout the year. During the academic year, mediation services are also provided in part by

IU Law students who have completed the domestic relations mediation training course and are registered mediators in Indiana. Students work under the training and supervision of Professor Amy Applegate (Director of the Children and Family Mediation Clinic at the IU School of Law) and Colleen McPhearson (Family Court Coordinator). Senior judges and private mediators may provide services under the ADR plan as well.

In 2022, 126 new referrals for services were received through this program: 113 families were assigned to the Family Court Coordinator, six families were assigned to the IU Law School Clinic, and seven families were assigned to a contractual mediator or parenting coordinator. By the end of 2022, more than three thousand families had been referred to the program since its inception.

II. <u>Counsel in the Court (Pro Se Assistance):</u> The District 10 Pro Bono Project began providing on- site services for self-represented parties at the Justice Building in 2010. The weekly walk-in clinic is known as "Counsel in the Court." Funding to renovate and furnish the attorney conference rooms for this purpose was provided in part through the Family Court Project. The District 10 Pro Bono Project coordinates attorney volunteers who provide limited assistance to parties in completing forms and pleadings for family law case types. In 2022, District 10 reported 56 attorney-client conferences were conducted through this program.

III. <u>Investigation Services</u>: Judges making decisions regarding child custody and parenting time can receive the assistance of an experienced investigator who will gather the necessary information to help the judge make a well-informed decision regarding the child's best interests. The Juvenile Division assists the Civil Division of the Court by conducting investigations in divorce and paternity to provide the Court with information regarding parents and their children. Examples of the information that could be included is information about the child's school or living environment. In 2022, the probation department did not receive any new referrals for investigations in family law cases.

# **COURT SUPPORT PROGRAMS**

#### CASA

The Monroe Circuit Court has contracted with Family Service Association of Monroe County to provide volunteer Court Appointed Special Advocates to represent the best interests of children involved in CHINS cases.

#### GUARDIAN AD LITEM

The child advocacy clinic of the IU School of Law, opened in the Spring of 1996 to train law students to represent the best interests of children as guardian ad litems in custody and visitation cases.

#### PSYCHOLOGICAL EVALUATIONS

The Center for Behavior Health, by order of the Court, performs psychiatric evaluations on defendants to determine mental sanity at the time of the alleged offense, the defendant's comprehension to stand trial and assist in own defense, the defendant's ability to comprehend punishment for the crime at the time of sentencing, the defendant's need for treatment prior to sentencing, or the defendant's mental/emotional status while incarcerated. The Center for Behavioral Health performs these services at no cost.

#### **MEDIATION**

Parties recognize that litigation can be a long, tedious and expensive process for resolving disputes. At any time during the case process, the court can order, or one or both of the parties can request, that the case be settled by mediation. Mediation is a negotiation facilitated by an acceptable, impartial and neutral third-party who works with the parties to reach a mutually agreeable settlement to the dispute. The Office of Court Services maintains a list of State certified civil and family mediators.

#### AMERICAN WITH DISABILITIES ACT

The ADA requires that the courts perform an assessment of their facilities, programs and services and eliminate both architectural and communication barriers that impede a disabled person's access to the use of a court facility. The courts must "reasonably accommodate" disabled individuals. The Office of Court Services, upon request, provides auxiliary aides to disabled individuals and will consider alternative methods of making court services and programs more accessible

# PROBATION DEPARTMENT

# MONROE CIRCUIT COURT PROBATION DEPARTMENT

# **MISSION**

The mission of the Monroe Circuit Court Probation Department is to promote a safer community by intervening in the lives of offenders, holding them accountable, and serving as a catalyst for positive change.

# **CHIEF'S REPORT** By Linda Brady, Chief Probation Officer

The Monroe Circuit Court Probation Department (hereafter "Department") will remember the year 2022 for adapting to unprecedented staff turnover in the wake of the COVID-19 pandemic. Despite the staffing challenges, the Department was deeply involved in research projects and implementing changes for the benefit of our clientele.

Adapting to living in a post-COVID 19 world has brought challenges to the Department and to our clients. In 2020, probation officers utilized more technology to monitor and supervise clients via phone, email, and video (Zoom, Skype, FaceTime etc.). The increased use of conducting "virtual appointments" with clients continued in 2021 and 2022 with such virtual appointments augmenting supervision but not replacing face-to-face contacts with clients.

The overall COVID-19 environment contributed to 2020 new-case numbers being lower than 2019's numbers. Decreases occurred in nearly all statistical areas including drug tests conducted, breathalcohol tests conducted, and user fees collected. These decreases continued into 2021 and 2022.

In 2022, a significant retirement occurred; longtime **Court Alcohol and Drug Program Director Susan Allen** retired in January 2022 after 37 of service with the Department. She was the Department's expert on all matters related to substance use disorder treatment and substance education as well as Interstate Compact for Adult Offenders. Her replacement was hired in October 2021 so that there would be overlap in order for her to train the new Director. Anthony Williams, Court Alcohol and Drug Program Director in Marion County, IN, was hired to succeed Director Allen.

Another significant retirement occurred in 2022. The Adult probation officer (PO) assigned to the high-volume Administrative Caseload Marty Wood retired in June 2022 after 15 years of service. With this retirement, the high-volume Administrative Caseload was dissolved and the cases were reassigned to the four (4) low/administrative POs. This allowed for re-assignment of the high-volume Administrative Caseload PO to the Enhanced Supervision Unit (ESU) so that this unit's growing caseloads could be reduced to more manageable workloads.

In addition to the planned retirements of Director Allen and Officer Wood, additional resignations had a significant impact on the Department in 2022. The year started with two (2) PO vacancies. In 2022, ten (10) probation officers, four (4) Community Corrections/Problem Solving Court Field Officers, two (2) Legal Secretaries, and four (4) probation officer assistants left employment with the Department. This was a very high rate of staff turnover, especially for probation officers. The unit hardest hit by turnover was the ESU; the ESU POs supervise sex offenders, offenders convicted of Domestic Violence (DV) offenses, offenders convicted of committing other serious violent offenses, and offenders suffering from serious mental illnesses who are not eligible for Mental Health Court. Because ESU POs supervise some of the most violent offenders under community supervision and offenders with the highest levels of treatment needs, the Department attempts to keep their caseloads smaller than other High/Moderate Adult Probation Caseloads. With the dissolution of the high-volume Administrative Caseload and reassignment of this PO position to the ESU, a total of five (5) PO positions were assigned to the ESU in 2022. However, with a high level of PO turnover, not all five (5) ESU PO positions were filled in 2022. Three (3) of the ESU POs left the Department for other employment opportunities in 2022. One of the ESU POs applied for a transfer to the Adult Intake Unit; this transfer was delayed until 20223 because that would have left only (1) ESU PO remaining with the unit. The hiring and onboarding processes took up an enormous amount of staff and financial resources in 2022. The year 2022 ended with three (3) ESU PO vacancies, two (2) additional adult PO vacancies, a Problem Solving Court Field Officer vacancy, a Community Corrections Field Officer vacancy, and a vacancy for Legal Secretary/Receptionist.

Since 2019, the Department has been involved in the **Reducing Revocations Challenge (RRC)** funded by Arnold Ventures and guided by the City University of New York Institute for State and Local Governance. Phase I of the project tasked ten jurisdictions across the country with determining prominent pathways that lead those experiencing community supervision toward revocation resulting in serving time in jail or prison. The focus of the project aims to use the knowledge gained to advance policy and practice solutions to reduce revocations and maximize community supervision success while protecting public safety.

Late in 2021, Monroe County and research partners at Indiana University and George Mason University were chosen as one of only five (5) sites from the RRC Phase I to continue with **Reducing Revocations Challenge (RRC) Phase II**. For **Phase II of the RRC**, the Monroe County researchers and Department received grant funding to implement the following three (3) strategies:

- (1) <u>Strategy 1: Increase fidelity to Motivational Interviewing (MI), Effective Practices in</u> <u>Community Supervision (EPICS), and Effective Case Planning</u>. In September 2022, national trainer Melanie Lowenkamp from Core Correctional Services provided two (2) weeks of EPICS training to probation officers. Experienced POs were given the option of completing online/selfpaced EPICS training in 2022 through June 30, 2023. All POs in the Department participated in case planning training provide be The Carey Group in August 2022.
- (2) <u>Strategy 2: Revise Standard Conditions of Probation</u>. The *Conditions of Probation Committee* met in August 2022 to begin discussing revisions of the probation conditions. This part of the initiative was led by consultant Dr. Brian Lovins, Justice System Partners (JSP). Dr. Lovins continued to work with the committee and the judges through 2022 on this part of the project.
- (3) <u>Strategy 3: Increase the use of incentives and earned early termination from probation</u> <u>supervision.</u>

The Monroe County Juvenile Detention Alternatives Initiative (JDAI) continued work with the "*Race, Equity, and Inclusion Committee*" in 2022. The **Juvenile Division** participated in a **Racial Equity Impact Assessment (REIA)** through our JDAI. A Racial Equity Impact Assessment is an intentional and systematic look at how a proposed or existing policy will likely impact people of different racial and ethnic groups. Juvenile probation officers began using this process of inquiry to assess our juvenile probation rules/conditions with assistance from JDAI facilitators from the state. The target for implementing the revised juvenile probation rules/conditions is Summer 2023. The goal of this effort is to create a more equitable youth justice system and improve outcomes for all youth.

For the Equity Impact Assessment, the JDAI grant included funding to contract with consultant **Laura Furr** to help facilitate "**listening sessions**" with youth who have experienced juvenile probation as an individual or as a parent/guardian. The "listening sessions" started in 2021.

# ADDITIONAL 2022 DEPARTMENTAL HIGHLIGHTS

- <u>**Trust-Based Relational Intervention (TBRI) Consultations.</u>** All POs in the Department continue to be trained I the use of TBRI. POs also continued to have the opportunity to participate in TBRI consultation sessions with consultant Amy Abell of Hope Alight throughout 2022.</u>
- <u>Swearing-in Ceremony.</u> A swearing-in ceremony was held in April 2022 for all newly hired staff members.
- Juvenile PO Sky Kilpatrick Achieves Trainer Certification. Sky achieved state certification as a trainer in the Indiana Youth Assessment System (IYAS) in 2022.
- <u>New Fleet Vehicle.</u> The Department received a 2022 Ford Explorer in 2022 (#CC17).

- **Expansion of Local Services for Juveniles and Their Families.** The Department collaborated with the Youth Services Bureau (YSB) of Monroe County to request funding from the Monroe County Council to add new services and programs including:
  - (1) Youth Substance Abuse Services (including Seeking Safety Program)
  - (2) Truancy Program
  - (3) Functional Family Therapy
  - (4) Youth Advisory Council
  - (5) Parenting Program
  - (6) Expanded Restorative Justice Programming
  - (7) Flex Funding Program
  - (8) Access to Case Management Services for Community Youth/Families
  - (9) Quest Case Management System Expansion to YSB and Community Partners
  - (10) Increased Availability of Non-Residential Diagnostic Evaluations for Probation-involved Youth
- JDAI Site Visit/Road Trip to Lucas County, Ohio (Toledo), June 22-23, 2022. This site visit was recommended by JDAI consultants Center for Children's Law and Policy (CCLP) to help Monroe County Juvenile Justice System leaders learn more about restorative justice programs that have been shown to be effective for front-end diversion from the juvenile justice system.
- <u>State Fiscal Year (SFY) 2022-2023 Justice Partners Addictions Response Grant</u>. Indiana Supreme Court awarded **\$60,000** grant to improve services and outcomes for inmates reentering the community from the Monroe County Jail. The grant funded a Recovery Coach (Centerstone employee) paid contractually via this grant.

#### • <u>2022 Supreme Court Grants:</u>

- <u>2022 Pretrial</u> This annual grant was cut significantly due to so many counties applying for these funds. We requested \$183,390, received only \$92,038, a difference of \$91,352. The 2022 grant funds the Pretrial PO's salary in full but limited fringe benefits to 30% of salary, about -\$7,000 less than Monroe County's fringe benefits cost. Grant funding for the Public Defender was cut from \$99,507 (salary & fringes) to \$15,000 (salary & fringes).
- o <u>2022-2023 Drug Court:</u> Awarded **\$8,000** for drug testing, client incentives, and staff/team training.
- <u>Veterans Court</u>: Awarded **\$76,223** to fund salary/fringes of case manager/PO

#### GRAND TOTAL INDIANA SUPREME COURT GRANTS: \$176,261863.

- FY 2022 2023 Juvenile Detention Alternatives Initiative (JDAI) Grant. AWARD \$70,000.
- <u>FY 2022-2023 JDAI Bonus Grant.</u> The Indiana Department of Correction (IDOC) awarded our JDAI **\$99,695** bonus grant dollars, the second time Monroe County's JDAI has received a bonus grant. The bonus grant pays for the following activities:
  - Pilot partnership with Girls Inc. of Monroe County.
  - Alliances to Disseminate Addiction and Prevention and Treatment (ADAPT).
  - Continued partnership with Hope Alight (TBRI).
  - o Laura Furr Consulting (Authentic Youth and Family Engagement process/plan).
  - Support for various community, youth, and family engagement opportunities.
  - EMPACT Solutions (data visualization through TABLEAU software).
  - Partnership with Monroe County Youth Services Bureau (Truancy Termination Program).
- <u>2022 Community Corrections Grant.</u> AWARD \$1,528,120. The IDOC awarded the Department a grant increase of \$172,340 from the IDOC 2021 award. A new Evidence Based Practices (EBP) Coordinator position was funded by the grant effective January 1, 2022. Adult Probation Officer Leah Baker was promoted to this new position, responsible for departmental EBP trainings, EBP coaching, and continuous quality improvement (CQI) practices.

# A NOTE ON THE 2022 ANNUAL REPORT

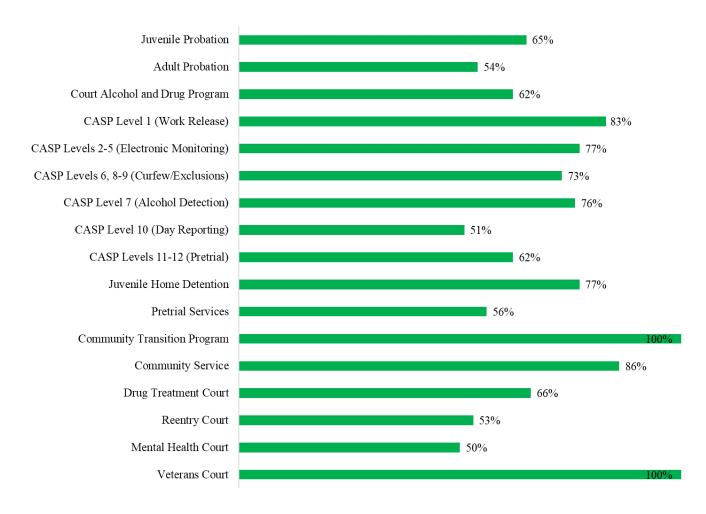

To better understand information in the tables contained in this report, the word "supervision" needs to be defined. A "supervision" is a community-based supervision requirement that an individual must fulfill as part of a court order. For example, one 'supervision' could be a term of probation and another 'supervision' could be a specified length of time on court-ordered home detention. One individual could be required to complete multiple 'supervisions.' These 'supervisions' could also be required in multiple cases where the individual could be convicted of multiple crimes. Thus, one individual could be referred to the Department in multiple cases and be required to complete multiple 'supervisions' in each of these cases. Though we will include the unique number of individuals referred to each program, for the 2022 report, we will mostly focus on the characteristics of the supervisions.

# **PROBATION DEPARTMENT EXECUTIVE SUMMARY 2022**

- > 2,080 Individuals referred, supervised, monitored, and/or assessed
- > 2,727 Criminal and juvenile cases referred, supervised, monitored, and/or assessed
- > 19 Civil cases referred for investigation or drug testing
- ▶ \$1,937,676 Grant monies obtained
- ▶ \$131,598 Restitution collected on behalf of victims
- ▶ \$719,502 User fees collected; 62.3% overall user fee collection rate
- > 25% Average positive rate for drug tests (4% increase from 2021's positive rate)
- 2,625 Community service hours completed. At \$7.25 minimum wage, approximately \$19,031 worth of labor was provided by the Community Service Program to local not-for-profit and governmental agencies.

# ORGANIZATIONAL CHART

# STAFFING, FUNDING SOURCES, AND BUDGETS

The Department is funded by various sources including property and income taxes, user fees, and grants. As of December 31, 2022, the Department employed 86 persons, 57 of whom were probation officers (46 full-time line probation officers, 2 part-time probation officers, and 9 supervisory/management-level probation officers). Of the 57 probation officer positions, there were five (5) vacant full-time line probation officers at the end of 2022. In 2022, ten (10) probation officers, four (4) Community Corrections Field Officers, two (2) support staff members, and four (4) probation officer assistants left employment with the Department. This was a very high rate of staff turnover, especially for probation officers.

#### 2022 Staff Summary (includes vacant full-time positions):

- 1 Chief Probation Officer
- 2 Deputy Chief Probation Officers
- 6 Probation Directors/Supervisors
- 46 Line Probation Officers and 2 Part-time Probation Officers
- 8 Community Corrections Field Officers (Community Alternative Supervision Program, Problem Solving Court)
- 8 Support Staff
- 13 Part-time Probation Officer Assistants

**TOTAL STAFF 86 employees** (71 full time; includes vacancies)

# FINANCIAL INFORMATION

### VICTIM RESTITUTION COLLECTED

The Department assists the court in collecting victim restitution by enforcing restitution orders. When a court places a person under the Department's supervision, the person may be ordered to reimburse the victim for any loss incurred. Probation officers ensure that this money is paid by the probationers; however, restitution is collected by the Clerk's Office and is disbursed directly to the victim. The following table indicates the amount collected and disbursed in victim restitution.

	2018	2019	2020	2021	2022
TOTAL	\$98,835	\$143,538	\$153,345	\$170,713	\$131,598

# PARENTAL REIMBURSEMENTS COLLECTED

The Juvenile Division enforces court orders for parental reimbursements for the cost of care provided to youth placed outside the home. This includes secure detention and other out-of-home placement costs. The total below indicates the total amount of parental reimbursements collected. For the past 5 years, the judge who oversees juvenile delinquency cases has ordered a decreasing amount of parental reimbursement due primarily to the parents' lack of ability to pay such reimbursements.

	2018	2019	2020	2021	2022
TOTAL	\$2,338	\$458	\$21	\$0	\$0

# DEPARTMENTAL FUNDING PLAN

The Department works diligently to maintain staffing levels despite fluctuations and downturns in the user fee collections. For many years, user fee collection rates hovered near the 80% mark on average, in part due to defendants paying cash bonds and agreeing to use released bond money to make user fee payments. Since the 2008 recession in the United States, user fee collection rates have declined. The 2016 inception of the Monroe County Pretrial Program resulted in a reduction in the use of cash bonds, and in turn, user fee collection rates declined.

Due to the reduction in user fee collections, in 2018 the difficult decision was made to end the Road Crew Program as this program was funded solely from Community Corrections User Fees and could not be sustained. The Road Crew Program's last day of operation was August 11, 2018.

For the past several years, the Monroe County Council has increased tax-based funding for Probation Department operations in order to and reduce reliance on user fee funds for basic operations. Starting in 2018, the County Council transferred the expense of two (2) probation officer positions (salaries and fringe benefits) from user fee funds to tax-based funds. Additionally, the County Council transferred the expense of electronic monitoring and drug testing from user fee accounts to tax-based funds. This change in funding has helped to stabilize the user fee funds for the Department.

In 2021, Judge Stephen R. Galvin, the judge with jurisdiction over Juvenile Delinquency cases, in collaboration with the Probation Department leadership, analyzed the impact of optional fees for juvenile delinquency cases on justice-involved youth and their families. The result of this analysis was to recommend that all optional fees in juvenile delinquency cases be eliminated.

In January 2022, Judge Galvin began discussions with the Monroe County Council and the Board of Judges about optional fees in juvenile delinquency cases. Judge Galvin explained the following to local stakeholders:

Juveniles and/or their families are commonly assessed fees in delinquency cases. Some fees are optional and some are required according to Indiana law.

With research on evidence-based practices, the harm that monetary sanctions can inflict on justice-involved youth and their families is being examined in many jurisdictions including Indiana. In late 2021, the Indiana Juvenile Justice Reform Task Force published its "Proposed Policy Recommendations" which included a recommendation to eliminate fees for juveniles participating in a program of informal adjustment. Indiana House Bill 1358 (2022) carries forth the recommendations of the Indiana Juvenile Justice Reform Task Force including the elimination of juvenile informal adjustment fees.

In January 2022, Judge Galvin advised the Monroe County Council that he planned to eliminate assessing the following optional fees in juvenile delinquency cases:

- Informal Adjustment Fees;
- Probation User Fees; and
- Community Corrections fees (electronic monitoring/home detention, drug testing fees, and Public Restitution fees).

On June 15, 2022, the Board of Judges approved a revised Fee Order that eliminated optional fees for juvenile probation services as noted below.

#### **ELIMINATED:**

(1) Juvenile Probation Administrative Fee (Formal probation only)	\$100
(2) Juvenile Initial Probation User Fee (Formal/one fee per juvenile cause number adjudicated)	\$50
(3) Juvenile Monthly Probation User Fee (Formal)	\$25
(4) Juvenile Monthly Probation User Fee (Informal)	\$15
(5) Juveniles will not be assessed fees for probation or community corrections programs or serv	ices.

This revised Fee Order became effective immediately (June 15, 2022).

For 2022, the Department was awarded a large number of grants totaling **\$1,932,676**. The grant-award highlights include:

- <u>Department of Correction (DOC) Community Corrections Grant</u>: Continued grant funding to support community corrections, pretrial services, and problem solving courts. **TOTAL \$1,528,120**.
- Juvenile Detention Alternative Initiative (JDAI) Grants State Fiscal Year (SFY) 2022-2023: Awarded \$15,000 to coordinate local JDAI efforts plus \$55,000 to fund alternatives to detention (programming). TOTAL= \$70,000.

**Coordination Funds (\$15,000)** – \$3,000 meals for meetings; \$4,500 six (6) Quest licenses; \$6,060 travel expenses for community stakeholders to attend JDAI events/trainings; \$840 Tableau Software License; \$600 Office Supplies.

**Programming Funds** (\$55,000) –\$12,500 Engagement with Center for Children's Law and Policy to continue to identify youth diversion opportunities; \$7,500 Engagement with Laura Furr Consulting to work toward creating opportunities for youth and family engagement; \$1,250 Step-Up Family Violence Intervention Program training; \$3,750 Community education event (Interrupting Racism for Children – Child Advocates); \$5,000 for training and alignment of Community Justice and Mediation programming to national standards; \$9,375 Continued support of Trust-Based Relational Intervention (TBRI) implementation; \$1,000 to support the City of Bloomington Commission on the Status of Child and Youth and the Commission on the Status of Black Males; \$3,000 Monroe County Childhood Conditions Summit – Accessibility Services; \$4,500 Care packages for youth and families; \$2,625 Incentives for youth and family engagement; \$4,500 Virtual work shop resource bags and Virtual Book Club support.

- JDAI Performance Bonus Grant (SFY 2022–2023): Awarded \$99,695 in bonus funds due to our excellent progress with JDAI. Bonus grant funding included \$13,800 for a partnership with Girls, Inc to provide programming; \$3,150 for ADAPT partnership with Centerstone for programming; \$2,125 for TBRI implementation; \$9,050 for travel to Lucas County, Ohio to review diversion programming; \$50,000 for Laura Furr Consulting for youth and family engagement; \$9,000 for community engagement events; \$2,500 for prosocial mentoring opportunities; \$6,000 for Empact Solutions for data analysis assistance; and \$4,070 for Truancy Termination partnership with the Youth Services Bureau.
- <u>Veterans Court Grant</u>: Indiana Supreme Court awarded funds for the salary and fringe benefits of a probation officer **\$76,223** for the calendar year (CY) 2022.
- <u>Drug Court Grant (SFY 2022-2023)</u>: Indiana Supreme Court awarded **\$8,000** for Problem Solving Court incentives, chemical tests, and participant transportation (bus passes).
- <u>Pretrial Grant</u>: Indiana Supreme Court awarded **\$92,038** for CY 2022. Funds Pretrial probation officer (PO) and \$15,000 toward the salary and fringe benefits of a Public Defender.
- <u>Monroe County CARES Grants</u>: \$3,600 awarded for drug testing supplies to support the problem solving courts.
- Justice Partners Addictions Response Grant (SFY 2022-2023): Indiana Supreme Court awarded \$60,000 grant to improve services and outcomes for inmates reentering the community from the Monroe County Jail. The grant funds a Recovery Coach who is a Centerstone employee, paid contractually via this grant.

The Indiana Department of Correction (IDOC) reimburses the Department for accepting inmates from prison onto early release through the Community Transition Program (CTP). This reimbursement is not a grant per se, rather reimbursement for supervising the former IDOC inmates upon their release from prison for a certain amount of time. In 2022, the IDOC reimbursed the Department a total of **\$16,400** for supervising former IDOC inmates placed on the CTP.

# DEPARTMENTAL FUNDING SOURCES AND BUDGETS

The Department works diligently to find innovative funding opportunities to provide programs and services without having to dip into the strapped county tax-based funds.

The table and chart below outlines the Department's budgets and sources of funds. Each item reflects the amount of funding available during the 2022 fiscal year and may include unspent grant funds awarded in previous years. User fees not spent during budget year remain in the respective user fee account and do not revery to any other budget/account.

\* Effective June 15, 2022, Juvenile Probation User Fees and Juvenile Community Corrections Fees no longer assessed pursuant to revised Fee Order signed by Board of Judges.

# **PROGRAM AND USER FEES**

The Department implemented a new fee collection policy in January 2019 in an effort to increase the rate of user fee collection. Probationers who pay their fees pursuant to their ability to pay an individualized fee payment plan are eligible to earn incentives such as travel permits, tickets for "fish bowl" drawings for gift cards, and prosocial time (on Home Detention). At year-end 2019, the Department's user fee collection increased by 14% from year-end 2018.

In 2020, our main office was closed for more than two months due to the COVID-19 pandemic, which resulted in the closure of payments of fees to be collected in person. Despite this closure, the overall fees collected in 2020 were only down 13% from the levels collected in 2019.

In addition to paying probation officer (PO) salaries, user fees collected by the Department pay for many innovative rehabilitative programs that otherwise would not be possible from the limited county tax funds. A sample of public safety and rehabilitative programs funded through user fees includes:

- Barrier busters, such as bus passes for public transportation to aid clients in reducing barriers to successfully completing requirements of their supervision;
- Electronic monitoring equipment for home detention (radio frequency anklets, alcohol detection units, and GPS monitoring devices); and
- PRIME for Life substance abuse education classes and Alcohol and Marijuana Education classes.

Probation user fees also are used to pay for County expenses that would otherwise have to be paid from County tax-based funds, such as:

- Replacement of office equipment;
- General operating expenses such as postage and office supplies (NOTE: county tax-based funds are not a primary source of general operating expenses for the Department; such general operating expenses are supported primarily from grants and user fees); and
- Training: POs are required to have 12 hours of continuing education per year to remain certified.

# **USER FEE COLLECTIONS**

The Department is responsible for collecting adult and juvenile probation user fees, problem solving court user fees, and Community Corrections program fees. The Monroe County Clerk collects Court Alcohol & Drug (A&D) Program fees, Alcohol and Marijuana Education School (AES) fees, PRIME for Life fees, Drug Court Fees (prior to a 2010 statute changing the fee to a Problem Solving Court fee), and Pretrial Diversion (PDP) Community Service Program fees.

In 2017, the total annual user fee collection of \$962,721 was the first time since 1999 that the Department's user fee collections dipped below \$1 million. In 2022, user fee collections dropped from 2021 to a total of \$719,502 (nearly 3% decrease from 2021 fee collection). The table below indicates the amount of user fees collected.

	2018	2019	2020	2021	2022

# **USER FEE COLLECTION RATES**

Despite efforts by the Department to collect all fees assessed by the court, some clients do not pay the user fees, program fees, and restitution as directed. In 2022, \$531,524 of various assessed fees were unpaid with most of the remaining fees ordered as a judgment against the client.

The following table represents collection rates for all cases that were closed in 2022 (includes only fees collected in the Department, does not include fees collected by the Monroe County Clerk). Of these closed cases, all assessments were totaled by account and all fees paid or waived were totaled by account to establish a collection rate for each individual account.

# JUVENILE DIVISION

The Juvenile Division of the Department is responsible for the investigation and supervision of juveniles referred to the Monroe Circuit Court. A juvenile is typically a youth under age eighteen at the time of the alleged offense.

Unlike the adult probation system where adult offenders are not generally introduced to the probation system until *after* a conviction, probation is the *starting* place for a juvenile's interaction with the juvenile justice system. All juvenile cases processed through the juvenile justice system begin with a written report, or referral. The Juvenile Division receives referrals from various sources, including law enforcement, parents, schools, businesses, and the public. Juveniles are referred to the Department for committing delinquent acts or status offenses. Delinquent acts are defined as acts that would be crimes if committed by an adult. Status offenses are acts of delinquency that are not crimes for adults, and include truancy, incorrigibility, curfew violation, and runaway.

After the Juvenile Division receives a new referral, a determination is made by the Prosecutor if legal action could be taken. For those referrals where legal action could be taken, the Juvenile Division completes a Preliminary Inquiry investigation into the delinquent act by formally interviewing the juvenile and parents/guardians/custodians. At the conclusion of this investigation, a Preliminary Inquiry report is filed with the Prosecutor which includes recommendations from the juvenile probation officer regarding how the referral should proceed. The recommendations could include a request to waive the case to adult court, request formal filing of a delinquency petition against the juvenile, informally adjust the case, refer the juvenile and/or family to another agency for services, or recommend to dismiss the case.

Supervision of a juvenile occurs if the juvenile's case is approved for an informal adjustment (also known as informal probation) or supervision can occur after a juvenile is found to be delinquent (guilty) by a court and placed on formal probation. Additionally, the Juvenile Division supervises juveniles who have been court-ordered to a placement facility in the best interest of the juvenile.

Cases are assigned, in part, based on where the juvenile attends school. This allows Juvenile Probation Officers (JPOs) to be in communication with school staff in a routine and timely manner while maintaining a balance in case assignments amongst officers.

The Juvenile Division ended 2022 with eight (8) full time juvenile line probation officer positions, and a probation supervisor. The probation officer line staff included:

- two (2) probation officers assigned to the Juvenile Intake unit;
- five (5) probation officers supervising a mixed caseload of formal and informal supervisions at all risk levels (per Indiana Youth Assessment System, IYAS); and
- one (1) probation officer who served as the Juvenile Detention Alternatives Initiative (JDAI) Coordinator.

At year-end 2022, there were 17 youth under the supervision of the Juvenile Division and another 13 youth under pre-adjudication supervision.

In 2014, the Juvenile Division became involved with the Juvenile Detention Alternatives Initiative (JDAI). This initiative was created by the Annie E. Casey Foundation and is a bipartisan movement for juvenile justice reinvestment. The initiative involves the reallocation of government resources away from mass incarceration and toward investment in youth, families, and communities. Goals of the JDAI include promoting positive youth development and enhancing public safety by eliminating unnecessary or inappropriate confinement. Though driven primarily by the Monroe Circuit Court and the Juvenile Division of the Department, JDAI is a community initiative that requires participation from resources in the community to be effective.

In 2022, the Juvenile Division was presented with many challenges and obstacles for implementation of previously identified goals. Due to the COVID-19 pandemic, the cancellation of in-person gatherings forced a reconsideration of professional development opportunities, initiatives, and other activities. Despite challenges related to the pandemic, momentum toward the commitment to ensuring JDAI core principles remained at the center of the local youth justice system.

In 2022, JDAI grant funds were also used for the Monroe County Sheriff's Department's Reserve unit. These officers volunteer their time to the Sheriff's Department and our community. In addition to their law-enforcement responsibilities, these officers focus on creating relationships and connections with those they come in contact with and the wider community. JDAI funds supported these efforts through the purchase of basketballs, footballs, coloring books, stickers, water bottles, etc. These items were 'stored' in the officer's automobile, providing convenient access and meaningful opportunities for connecting with local youth with whom they come in contact.

Early in the pandemic and local "lockdown," which included the court and probation offices closing for more than two months in 2020, the Juvenile Division began delivering "Care Packages for Kids." This JDAI project started as an easy and safe way to interact with probation-involved youth and their families. Monroe County and other Indiana JDAI jurisdictions received recognition in local and state-wide media for initiating these care packages as an innovative way to maintain contact with juveniles and their families. By the end of December 2020, five (5) rounds of care packages had been delivered to youth and families involved in the juvenile justice system and this continued with another four (4) rounds of care packages being delivered in 2021 and a total of 67 care packages were delivered in 2022. Care packages included fun items, snacks, microwaveable meals, hygiene items, school supplies, cold weather gear, and a note of encouragement.

#### JDAI Project Committees: (all committees meet quarterly)

- <u>Steering Committee</u> Discusses progress of the entire JDAI project and the work of all JDAI committees.
- <u>Detention Alternatives and Admissions</u> Committee was formerly Purpose of Detention and Alternatives to Detention Workgroup. The Alternatives and Admissions Committee monitors the use of the Detention Risk Assessment Instrument and Alternatives to Detention.
- <u>Data Workgroup</u> Monitors statistics and provides information to the committees in order to make data-driven decisions.
- <u>Case Processing Workgroup</u> Works toward greater efficiency in case processing to ensure justice is served in an efficient and just manner.
- <u>Race, Equity, and Inclusion (REI)</u> Work is completed to advance equal opportunities for all and to improve outcomes for children, families, and the community. As part of REI, a REI data workgroup and a community engagement workgroup were formed. The REI data workgroup will work to identify areas of disproportionality while the REI community engagement workgroup will assist in identifying community values through community collaboration.

#### **2022 JDAI Alternative Program Highlights:**

- <u>Anti-racism Trainings</u> More than 21 hours of training were provided to staff and community members on racial justice.
- <u>REI Community Engagement Book Club</u> Twelve staff and community members meet regularly to discuss books on race and equity.
- <u>Alliances to Disseminate Addiction Prevention and Treatment (ADAPT</u>) The local JDAI initiative joined a partnership with the Indiana University School of Medicine and Centerstone to develop and study the efficacy of substance abuse education through local mental health facilities.
- <u>Center for Children's Law and Policy (CCLP)</u> Collaboration to explore how our community can best support youth and families, and particularly youth and families of color, without relying on referrals to law enforcement and the juvenile justice system. This resulted in the submission of a comprehensive report in 2021 and the work continued in 2022.
- <u>Lucas County, Ohio Site Visit</u> Local stakeholders traveled to this site to witness the transformative work in working with youth that include diversion and restorative justice efforts. In June 2022, a site visit/road trip to Lucas County, Ohio (Toledo) was conducted by Juvenile Probation staff, the Chief Probation Officer, community partners from the Community Justice and Mediation Center (CJAM), and a state JDAI strategist. This site visit was recommended by JDAI consultants Center for Children's Law and Policy (CCLP) to help Monroe County Juvenile Justice System leaders learn more about restorative justice programs that have been shown to be effective for front-end diversion from the juvenile justice system.
- <u>Trust-Based Relational Intervention (TBRI)</u> Provided training to leadership and staff regarding the impact of trauma on brain development and behavior.
- <u>Race, Equity, and Inclusion (REI) Assessment of Juvenile Probation Conditions</u> Staff participated in the creation new language for probation conditions while viewing each condition through an REI lens for impact on various populations served. Work continues in 2023.
- <u>Truancy Termination Partnership Program</u> Provided support to the Youth Services Bureau for incentives for youth and families who demonstrate progress in the program.
- <u>Youth Engagement with Laura Furr</u> Efforts to create a pilot youth and family engagement workgroup moved forward. This workgroup is designed to allow for authentic engagement throughout youth justice reform efforts.
- <u>City of Bloomington Commission on the Status of Children and Youth and Commission on the</u> <u>Status of Black Males</u> – Provided support for one day event for middle and high school aged youth to focus on strengths and successes of Black and Latino local and national communities to inspire, support, and motivate youth.
- <u>Monroe County Childhood Conditions Summit</u> Provided financial support to include accessibility services for the summit that includes closed captioning, American Sign Language interpretation, and other supportive options.

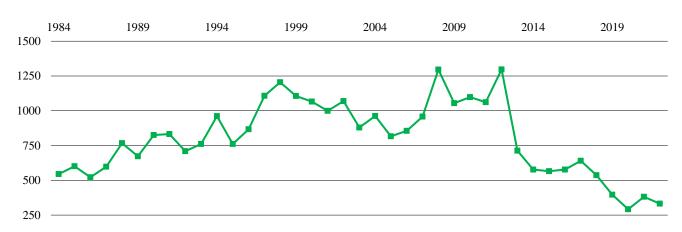

# **JUVENILES REFERRED**

A referral is a written report received from various sources, including law enforcement, parents, schools, businesses, and the public. Juveniles are referred to the department for committing delinquent acts or status offenses when they are under the age of 18 at the time of the alleged offense. Delinquent acts are defined as acts that would be crimes if committed by an adult. Status offenses are acts of delinquency that are not crimes for adults, and include truancy, incorrigibility, curfew violation, and runaway.

The table below shows the number of individual juveniles for which the Department received a referral. If a juvenile was referred more than once or in more than one case, the juvenile is categorized by the highest level (most serious) referred offense. The table below indicates the total number of referrals received during the year; 255 individual juveniles were referred for 332 referrals (delinquent acts and/or status offenses).

	INDIVIDUALS REFERRED						NUMBER OF REFERRALS			
	2018	2019	2020	2021	2022	2018	2019	2020	2021	2022

TOTAL	371	298	232	299	255	537	396	292	382	332

The Department began publishing Juvenile referral statistics in 1984. That year, there were 545 referrals. Over the years, referral numbers trended upward, reaching the highest number of referrals in 2012 with 1,297 referrals. The next year, referral numbers dramatically reduced to 713 for 2013 (a 29% decrease). After peaking in 2012, referral numbers have declined gradually and reduced by more than one-half in 2014. The 292 referrals received in 2020 is the all-time lowest number of referrals received since the Department began tracking these numbers. The COVID-19 pandemic may account for low referral numbers in 2020, continuing with low referral numbers in 2021 and 2022.

### DISPOSITION OF JUVENILE REFERRALS RECEIVED AND PRELIMINARY INQUIRIES

Of the 332 referrals received in 2022, some will be carried over into the next year (4 referrals) depending on when the referral was received. Referrals can be disposed in a number of ways; some are disposed prior to action from the Juvenile Division at the discretion of the Prosecutor, some are disposed after the completion of a Preliminary Inquiry investigation. The chart below shows how the remaining 328 referrals received in 2022 were disposed.

The Juvenile Division Intake Team is comprised of juvenile probation officers who meet weekly to review the investigative reports completed on each new referral received and discuss recommendations. The purpose of this review is to address questions or concerns about cases and to ensure consistent application of the risk assessment instrument occurs. The Intake Team review process assists and supports juvenile probation officers as they strive to utilize evidence-based, cost effective, and individualized responses to address delinquent behavior. The chart below shows the number of cases reviewed by the Intake Team.

## PREDISPOSITIONAL REPORTS

Predispositional Reports (PDRs) are generally completed after a finding of delinquency (guilt) to provide information to a court regarding the juvenile's risk and needs. The information included consists of: the juvenile's delinquency history; personal and family history; school involvement; physical, mental, and substance use history; and an evaluation of the risk the juvenile poses to the community. The chart below provides information on the number of PDRs completed over the past five (5) years.

## CIVIL DIVISION INVESTIGATIONS

The Juvenile Division assists the Civil Division of the Court by conducting investigations in divorce and paternity cases to provide the Court with information regarding parents and their child(ren). Examples of the information that could be investigated is the child's school performance/attendance or the child's living environment. The Courts did not assign any civil investigations in 2020, 2021, or 2022.

#### JUVENILE DETENTION

Juveniles placed in secure detention are transported to a detention facility in another Indiana county. Monroe County typically utilizes the Southwest Indiana Regional Youth Village (SWIRYV) in Vincennes. However, due to staffing and capacity issues, the use of detention facilities in Bartholomew, Johnson, and Delaware counties along with temporary housing at the Department of Correction became necessary. The costs listed in the table below were paid in 2022, however these costs could have been for services delivered the previous year due to billing times. The table below shows the total juveniles admitted to secure detention; each juvenile could have been securely detained multiple times.

#### **SECURE DETENTIONS**

A table indicating the daily population of juveniles held in detention can be found in the appendix.

\*May not include ancillary costs such as: transportation to/from detention and court hearings; medical expenses incurred while in detention; and the payment of staff to supervise youth prior to transport/court.

#### JUVENILE SHELTER PLACEMENT

At times the need arises to remove children from their home, but securely detaining the youth is not necessary. When these circumstances arise, the Monroe County Youth Shelter is often utilized though other shelters within Indiana are used when necessary. In 2022, the Juvenile Division authorized 17 individual youth to be placed in a youth shelter. These 17 youth (9 male and 8 female) represent 19 separate placements for a total of 182 days. A table indicating the daily population of juveniles held in shelter can be found in the appendix.

#### JUVENILE RESIDENTIAL PLACEMENT

In addition to the times when a juvenile must be securely detained or placed at a youth shelter, some juveniles require longer-term care outside of their home. These placements include foster care, group homes, residential treatment centers with specialized programming, and inpatient hospital settings. In all, three (3) juveniles were ordered into out-of-home residential placements by the court in 2022.

#### INDIANA YOUTH ASSESSMENT SYSTEM AND JUVENILE PROGRAM REFERRALS

As required by the Judicial Conference of Indiana, the Juvenile Division has been utilizing the Indiana Youth Assessment System (IYAS) since 2011. The IYAS is the risk assessment system made up of six (6) instruments to be used at specific points in the juvenile justice process to identify a juvenile participant's risk to reoffend and criminogenic needs, and assist with developing an individualized case management plan. [NOTE: Criminogenic needs are attributes of offenders that are directly linked to criminal behavior. Effective correctional treatment should target criminogenic needs in the development of a comprehensive case plan. Any treatment not targeting criminogenic needs is counter-productive to efficiency and effectiveness.]

**Diversion Tool -** designed to assess a youth's risk to reoffend within the next 12 months and is best used at initial contact for the instant offense to assist in making diversion decisions.

**Detention Tool** - designed to assess a youth's risk to reoffend within the next 12 months and is best used prior to detention to assist in making hold/release decisions and can also be used in making decisions regarding releases from detention.

**Disposition Tool** - designed to assess a youth's risk to reoffend and identify criminogenic needs to assist in making decisions regarding post-adjudication supervision to assist in creating a supervision case plan for the youth. The Disposition Tool also has a screening tool to quickly identify youth who are low-risk and determine if a full risk assessment should be completed.

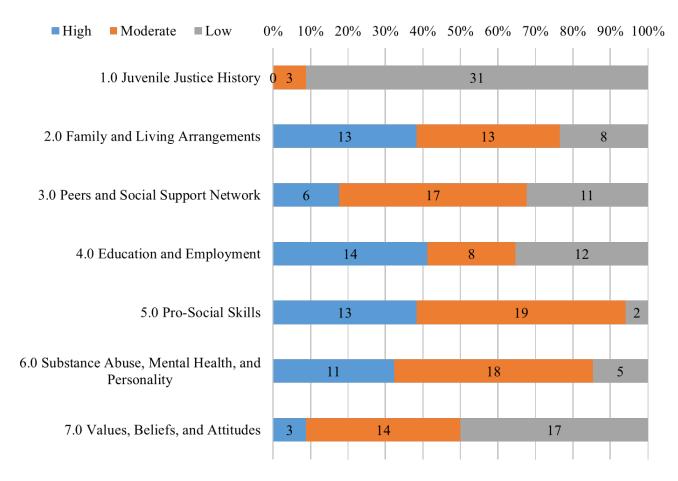

**Residential Tool** - designed to assess a youth's risk to reoffend and identify criminogenic needs to assist in making decisions regarding level of placement, case planning, and length of stay recommendations.

**Re-entry Tool** - designed to assess a youth's risk to reoffend and identify criminogenic needs to assist in making decisions regarding release, case planning, and length of stay in residential placements.

The following table represents IYAS assessments completed by the type of tool and the percentage of juveniles risking at each level. More than one risk assessment could have been completed on a juvenile during the time a case is open and depending upon the status of each case.

	Assessments	Percer	Percentage at Overall Risk Level			
	Completed	High	Moderate	Low		
Diversion Tool	133	7%	80%	13%		
Detention Tool	31	55%	42%	3%		
Disposition Tool	34	9%	59%	32%		
Disposition Screening Tool	0	0%	0%	0%		
Residential Tool	3	100%	0%	0%		
Reentry Tool	12	33%	50%	17%		

Juveniles placed on supervision are assessed using the Disposition Tool. This tool provides a risk level in each of the seven life domains the tool reports. After the completion of the tool, case plans are formulated to address a juvenile's risk and needs in order to reduce the likelihood the juvenile will reoffend and/or violate the terms of his/her supervision. The following chart represents the number and percentage of assessments scoring in each of the risk levels – high, moderate, and low for the Disposition Tool.

Upon the completion of a case plan, juveniles, and often their families, are referred to various services and programs in our community. The following table shows the programs juveniles and their families were referred to as part of a case plan and the risk domains these programs address.

# ADULT PROBATION DIVISION

The Adult Division of the Department is responsible for the supervision of adult offenders placed on probation and/or referred to the Court-administered Alcohol and Drug Program. Additionally, the Adult Division conducts investigations, evaluations, and assessments on offenders sentenced to supervision and when ordered by a court on defendants prior to a finding of guilt or innocence and/or sentencing.

The Adult Division is comprised of the following units: Adult Intake Init; Adult Supervision Unit; and Enhanced Supervision Unit (ESU). The ESU supervises high/intensive supervision of serious violent felons, sex offenders, probationers diagnosed with a serious mental health issue (SMHI) who are not accepted in the Mental Health Court, and offenders convicted of crimes related to domestic violence (DV). The POs assigned to this unit are intended to have smaller caseloads to permit more intensive supervision. For the past two years, the ESU has been experiencing increasing workloads. The Probation Supervisors had been evaluating possible workload redistributions to ensure the ESU POs could have lesser caseloads/workloads as intended.

Effective January 1, 2022, the Indiana Department of Correction funded a new position of Evidence Based Practices (EBP) Coordinator for the Department with the annual Community Corrections Grant When the new EBP Coordinator Leah Baker started her new position January 1, 2022, this created a vacancy in the low/administrative caseload (C03/C05 court team). This vacancy created an ideal opportunity to reorganize the Adult Supervision Division for a more equitable distribution of workload for all Adult Supervision POs including ESU POs. The administrative high-volume caseload was redistributed to the appropriate low/administrative court teams (C02/C09 and C03/C05). In turn, the PO position assigned to the administrative high-volume caseload was re-assigned to the ESU which then had five (5) POs assigned to the unit to specialize in serious mental health cases, sex offenders, and other violent offender supervisions . This reorganization was designed to reduce ESU caseloads to a more manageable level, providing more time for ESU POs to spend with our higher risk clients.

During 2022, the Adult Division was comprised of 23 POs, with 12 adult POs assigned to the Supervision Unit, five (5) POs assigned to the ESU, and six (6) POs (including one part-time PO) assigned to the Adult Intake Unit.

Of the six (6) POs assigned to the Intake Unit, two (2) POs were assigned to complete Presentence Investigations and the remaining four (4) POs conducted formal evaluations, which included a substance use assessment and risk assessment on newly sentenced offenders. All six (6) members of the Intake Unit provide an initial screening risk assessment to newly sentenced offenders. This initial screening assessment aids in identifying lower and higher risk offenders in order to prioritize how quickly community supervision should be initiated. The purpose of these evaluations is to determine an offender's risk and needs and begin making appropriate referrals for services to promote an offender's successful completion of supervision.

Five (5) POs assigned to the ESU provide high/intensive supervision of serious violent felons, sex offenders, probationers diagnosed with a SMHI who are not accepted in the Mental Health Court, and offenders convicted of DV crimes.

The remainder of the Adult Probation caseload is supervised by 12 POs known as "Court Teams." In January of 2018, a caseload/workload change was implemented with the "Court Teams." Prior to this change, each "Court Team" PO supervised an average of 91 clients (range 90-100). These caseloads were comprised of a mix of clients who were assessed by the Indiana Risk Assessment System (IRAS) as high, moderate, and low risk. To align with evidence-based practices (EBP), differential supervision of clints started in January 2018, with the "Court Teams" client assignments determined by risk level. Each Court Team now has four (4) POs supervising a high/moderate caseload and two (2) POs supervising a low/administrative caseload for two Criminal Court Divisions.

Differential supervision has decreased the number of clients supervised by POs assigned to the Moderate/High Risk caseloads. This caseload re-assignment:

- Allows time for POs to complete a behavioral analysis and a very specific case plan targeting the highest risk and need areas to reduce recidivism;
- Allows POs more time per client contact to specifically target criminogenic need areas identified by the Indiana Risk Assessment System (IRAS);
- Allows for intentionality with client appointments to utilize skill-building and practice with clients;
- Allows the Department to begin shifting toward 'dosage probation' (strategy that links "the duration of probation supervision to the optimal amount of intervention an offender needs in order to reduce risk of re-offense");
- Allows for more time for field supervision (homes and workplaces) of high risk clients;
- Allows POs to oversee caseloads that support the individual POs' strengths;
- Allows for additional coverage options (during PO absences) within teams as more POs will have working knowledge of cases within each team;
- Allows the Supervisor to target coaching toward the needs of each caseload (training and coaching approach will differ based on a high/moderate caseload versus low/administrative caseload);
- Allows the Department to follow evidence-based practices (EBP) principles by truly supervising *low* risk offenders with *low* risk supervision practices, which has been shown by research to reduce the likelihood of increasing the risk of low risk offenders; and
- Smaller caseloads of Moderate/High risk offenders provide probation officers time for more immediate responses to violations and utilization of intermediate sanctions as well as immediate use of reinforcing incentives for positive changes.

At year-end 2022, the Adult Supervision Unit caseload averages (persons being supervised per PO):

Enhanced Supervision Unit (ESU)	= 27
*Low/Administrative Caseloads	= 172
*High/Moderate Caseloads	= 38

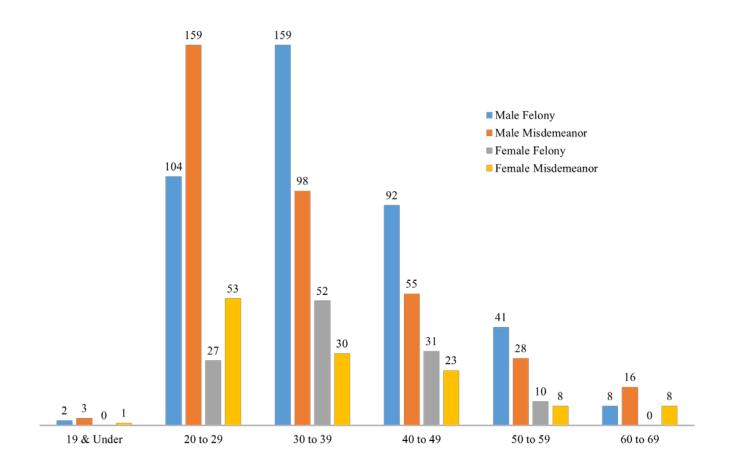

\*[NOTE: If all non-ESU Court Team cases were to be combined, the average caseload per each of the 12 POs would be 82 probationers per PO.]

#### ADULT PROBATION OFFENDERS AND SUPERVISIONS RECEIVED

The chart below shows the number of individuals placed on probation supervision in 2022. If an individual was placed on probation more than once or in more than one case, the individual is categorized by the highest level of convicted offense. #### **PRESENTENCE INVESTIGATIONS**

Presentence investigations (PSI) are conducted when ordered by a court. A PSI can be completed prior to a finding of guilt or innocence or may be conducted subsequent to a finding of guilt. PSI reports are required to be completed prior to sentencing in all felony cases except the lowest level felonies, Level 6 (for offenses committed after June 30, 2014) and D Felony (for offenses committed prior to July 1, 2014).

A PSI report is a formal report that provides pertinent information to a court regarding the defendant's risk and needs. The information included consists of: the defendant's criminal history; personal and family history; physical, mental, and substance use history; and an evaluation of the defendant's risk using the Indiana Risk Assessment System (IRAS).

#### **POST-SENTENCE INTAKES EVALUATIONS CONDUCTED**

Post-sentence intake evaluations are conducted by Adult Intake Probation Officers after an individual has been sentenced to some form of supervision by the court. These formal evaluations include a substance use assessment and risk assessment utilizing the IRAS. The purpose of these evaluations is to determine an individual's risk and needs and begin making appropriate referrals for services to promote successful completion of supervision.

# **COURT ALCOHOL & DRUG PROGRAM**

The Monroe Circuit Court Alcohol and Drug Program is an integral part of the Adult Division of the Probation Department. The Court Alcohol and Drug Program is certified by the Indiana Office of Court Services (IOCS). In 2019, the Program was granted a four-year re-certification by the IOCS.

The Court Alcohol and Drug Program is administered by the Director who is responsible for the daily operation of the Adult Intake Unit and for ensuring that all staff members receive ongoing training regarding substance related issues. All adult probation officers within the Department are certified as either substance abuse professionals or maintain a Certified Substance Abuse Management (CSAMS) credential and must complete a minimum of 12 hours of continuing education every year in order to maintain their certification.

Probation officers hired after January 1, 2005 who supervise adult offenders as part of the Court Alcohol and Drug Program must obtain and maintain a Court Substance Abuse Management Specialist credential (CSAMS) within two years of hiring. To obtain the credential, the staff member must have a baccalaureate degree from an accredited university; be at least 21 years of age; have at least nine (9) months of full-time employment experience related to assessment, referral, and case management of clients with substance abuse problems; must complete and document at least 1,500 hours of experience in the assessment of people with substance abuse problems; complete at least 500 hours of a supervised practicum in the areas of assessment, referral and case management of substance abuse clients; complete required training; submit a signed statement to adhere to a code of ethics; must be at least 21 years of age; and take and pass a written exam.

Adult probation officers conduct substance abuse screenings on all new cases referred by the courts for probation, regardless of case type. If the referring offense involved drugs or alcohol, or the offense was somehow related to the use or abuse of such substances, the adult probation officer will perform a more extensive substance abuse assessment; it is these cases that are considered referrals to the Court Alcohol and Drug Program.

Following the completion of the substance abuse assessment, the probation officer develops a case plan for each client. This service plan typically includes a referral to a substance abuse education program or an agency that provides treatment services. The probation officer then monitors the client's compliance with the terms of their individualized case plan.

The Court Alcohol and Drug Program does provide substance abuse education programming, but does not offer any direct treatment services.

#### ADULT COURT ALCOHOL & DRUG PROGRAM INDIVIDUALS AND SUPERVISIONS RECEIVED

The Court Alcohol and Drug Program is integrated into the Adult Division of the Probation Department. Thus, most adults on probation supervision are also considered referrals to the Court Alcohol and Drug Program for supervision. Some individuals may be placed on supervision multiple times or in multiple cases.

Some cases transferred into Monroe County are only referred for court alcohol and drug program services and are not under probation supervision; in 2022, thirteen (13) such cases were received by the Department.

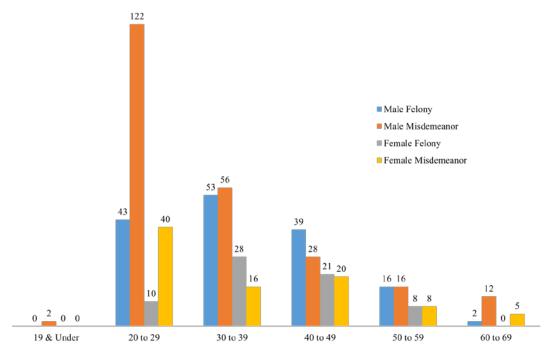

The chart below shows the number of individuals referred for Court Alcohol and Drug Program supervision in 2022. If an individual was placed on Court Alcohol and Drug Program supervision more than once or in more than one case, the individual is categorized by the highest level of convicted offense.

# **COMMUNITY CORRECTIONS PROGRAM**

The Community Corrections Program is a division of the Probation Department. The Community Corrections Executive Director is also a Deputy Chief Probation Officer. Community Corrections is primarily responsible for pretrial monitoring and post-sentence supervision of individuals placed on electronic monitoring (adult and juvenile), home detention, day reporting, and work release (transfers out-of-county). The Division also includes the Community Transition Program, Community Service Program, and the Drug Testing Program. Additionally, supervision of individuals participating in Monroe County's Problem Solving Court Program falls under the Community Corrections Program.

The Community Corrections Program employs probation officers who serve as case managers, supervising caseloads of individuals who are court-ordered to complete home detention and/or day reporting through the Community Alternative Supervision Program (CASP). Additionally, Community Corrections employs field officers to conduct field supervision of individuals at their homes, workplaces, and elsewhere.

Funding for Community Corrections comes from a variety of sources including the Indiana Department of Correction (IDOC) community corrections grants, user fees, local taxes, and other grants. In 2022, Monroe County completed its 39<sup>th</sup> year of receiving grant funding from the IDOC. A total of \$1,528,120 was awarded to Monroe County to fund home detention, day reporting, community service, and pretrial services as well as Mental Health Court and Drug Treatment Court.

The IDOC is a significant funding source through the annual Community Corrections Program grant. As a condition of grant funding, the Community Corrections Program must undergo program audits by the IDOC to determine if the program meets criteria as an "evidence-based organization." Our program scored 99 out of 100 in our most recent audit in 2018. In October 2022, IDOC conducted a new assessment of our Community Corrections Program using the Evidence-Based Correctional Program Checklist-Community Supervision Agency (CPC-CSA) assessment tool developed by the University of Cincinnati Corrections Institute. The assessment took place over one day, on site at Community Corrections, and included file reviews, policy reviews, client appointment observations, and interviews by CPC-CSA assessors with staff and clients. The Community Corrections Program has yet to receive the results of this 2022 assessment.

#### **COMMUNITY CORRECTIONS ADVISORY BOARD**

The Monroe County Community Corrections Advisory Board (CCAB) was established in 1982. In 2021, Judge Mary Ellen Diekhoff was re-elected as CCAB chair and Chief Probation Officer Linda Brady was re-elected as vice chair. The CCAB meets quarterly (January, April, August, and October).

The CCAB consists of the statutorily required members (per IC 11-12-1-2 such as judges, prosecuting attorney, public defender, etc.) as well as appointed members representing local law enforcement, schools, social service organizations, victim, and former offenders.

The CCAB monitors and approves Community Corrections funding, programs, and services. Copies of the minutes from all CCAB meetings are posted on the Department's website and may be requested from the Community Corrections Executive Director.

The Monroe County CCAB also serves at the local Justice Reinvestment Advisory Council (local JRAC). Jurisdictions are required to establish local JRACs per House Bill 1068 (2021) Local or Regional Justice Reinvestment Advisory Councils. The purpose of local JRACs is to review and evaluate system-wide justice services and implement evidence-based practices at each point in the justice system.

### COMMUNITY ALTERNATIVE SUPERVISION PROGRAM (CASP)

The Community Alternative Supervision Program (CASP) incorporates a continuum of incentives and sanctions approach to supervision. This continuum allows program staff to administratively move program participants through various levels of supervision intensity, allowing participants to experience immediate rewards for appropriate conduct and immediate consequences for violation of program and probation rules. Such immediate incentives and sanctions help to motivate individuals to successfully complete the required programming in less time, thereby maximizing the staff resources available to supervise existing caseloads.

Historically the CASP was comprised of six (6) levels of supervision. Due to the revised Indiana criminal code and with additional staffing proved by IDOC grant funds, in 2016 the CASP was expanded to 12 levels.

The CASP levels were modified in 2017. All CASP supervision levels listed below are informed by the risk scores as determined by the Indiana Risk Assessment System (IRAS).

Only CASP levels one (1) through five (5), are eligible for participants to earn time credit against their sentence.

### **CASP LEVELS**

<u>Level 1 (Work Release)</u> – Out-of-county Work Release may be Court-ordered on a limited preapproved basis. **Targeted Risk:** Moderate to High. Participants must provide own transportation to employment and must pay program fees. Greene County & Morgan County Work Release programs are available for pre-screen acceptance.

<u>Level 2 (Therapeutic Home Detention with Residential Placement)</u> – Targeted Risk: Moderate to High. Placement Factors: Need for residential treatment; need for sober living environment; homeless or unsuitable housing; sanction for CASP noncompliance; prior CASP noncompliance history. Considerations for Level Reduction: Treatment completion; specified by Court Order; upon suitable residence being secured. Housing: Facility costs are participant responsibility; fee assistance may be possible through health insurance and/or state-sponsored programs.

**Level 3 (Enhanced Home Detention with Day Reporting)** – **Targeted Risk:** Moderate to High. **Placement Factors**: Alcohol abuser; chronic unemployed; job search; multiple work/school locations; sanction for CASP noncompliance; prior CASP noncompliance history. **Considerations for Level Reduction**: Secured employment/enrolled in school; negative substance tests; case plan progress. **Day Reporting**: Participants report Monday through Friday between 7 am and 9 am or as directed (see Level 10). **Level Status Review:** High Risk = every 30 days; Moderate Risk = every 2 weeks; Low Risk = weekly.

<u>Level 4 (Intermediate Home Detention)</u> – Level 4 = PRESUMPTIVE starting level for Home Detention (HD). Targeted Risk: Moderate to High. Considerations for Level Reduction: Maintaining employment; maintaining school enrollment; negative substance tests; case plan progress. Level Status Review: First review after participant completes 1/2 executed HD sentence; thereafter, reviews conducted every 30 days.

<u>Level 5 (Basic Home Detention)</u> – Targeted Risk: Low to Moderate. Placement Factors: In lieu of incarceration; condition of probation; community corrections/ probation violator. Level Status Review: If on court-ordered HD, cannot move to lower level to receive credit time.

<u>Level 6 (Electronic Monitored Home Curfew)</u> – Targeted Risk: Low to Moderate. Placement Factors: Condition of probation or pre-trial release; sanction for probation violation. Presumptive Curfew: between 9 pm and 6 am or as directed. Equipment: Radio Frequency (RF) monitoring with landline or cellular phone.

**Level 7 (Alcohol Detect Electronic Monitoring - Soberlink)** – **Targeted Risk:** Moderate to High. **Placement Factors**: Alcohol abuser; Condition of probation or pre-trial release; sanction for a probation violation involving alcohol consumption.

<u>Level 8 (Electronic Monitored Exclusion Zones)</u> – Targeted Risk: Moderate to High. Placement Factors: Condition of probation or pre-trial release; sanction for probation violation. Exclusion Zones: Participants ordered to not travel to or be at designated exclusion locations. Equipment: GPS.

<u>Level 9 (Drive-by Curfew)</u> – Targeted Risk: Low to Moderate. Placement Factors: Sanction for probation violation or as a condition of pre-trial release. Presumptive Curfew: Participants are placed on curfew between 9 pm and 6 am (or as directed). Equipment: RF electronic monitoring anklet with randomized drive-by checks.

**Level 10 (Day Reporting)** – **Targeted Risk:** Low to Moderate. **Placement Factors**: Sanction for probation violation or as a condition of pre-trial release.

Level 11 (Pre-Trial Case Management) – Targeted Risk: Moderate to high.

<u>Level 12 (Kiosk Reporting)</u> – Targeted Risk: Low. Placement Factors: Condition of probation or pretrial release. Check-in: Participants report to Kiosk as directed, answer set of standard questions.

### ADULT CASP LEVEL 10 INDIVIDUALS AND SUPERVISIONS RECEIVED

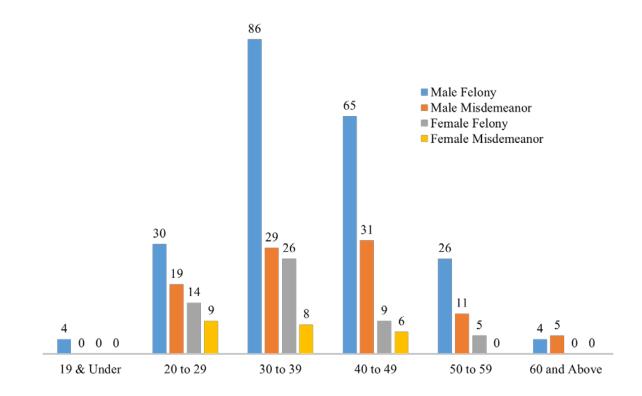

CASP Level 10 (day reporting) participants must report to Community Corrections daily, Monday through Friday, to check in and be tested for alcohol. CASP Level 10 participants are also subject to drug tests, but have no required curfew or other restrictions on their day-to-day freedom. Courts may place individuals directly on CASP Level 10 supervision. CASP Level 10 supervision is most often used as a condition of pre-trial release or a condition of probation supervision.

The chart below shows the number of individuals placed on CASP Level 10 supervision in 2022. If an individual was placed on CASP Level 10 more than once or in more than one case, the individual is categorized by the highest level of referred offense. Individuals may be placed on CASP Level 10 multiple times or in multiple cases.

# PRETRIAL SERVICES PROGRAM

In 2014, the Indiana Supreme Court authorized the development of a pretrial release pilot project. Eleven (11) Indiana counties, including Monroe County, were part of the pretrial release pilot project. The Monroe County Pretrial Pilot Project officially started October 1, 2016.

Indiana Criminal Rule 26 was the foundation for the 11 Indiana counties participating in the Pretrial Pilot Project. Criminal Rule 26 was codified in Indiana law (IC 35-31.5-2-121.5 et. seq.) and became effective for all Indiana courts January 1, 2020. Criminal Rule (CR) 26 is intended to improve pretrial practices in Indiana by encouraging trial judges to engage in evidence-based decision making at the pretrial stage. The Rule encourages trial courts to use risk assessment results and other relevant information about arrestees to determine if the individual presents a substantial risk of flight or danger to self or others in the community; thereby, informing release decisions and release conditions. With the statewide implementation of Criminal Rule 26 on January 1, 2020, Monroe County changed the name of the program to reflect that it is no longer a "pilot program." The program is now entitled the "Monroe County Pretrial Services Program." Monroe County's Pretrial Services Program is integrated into the Community Corrections division of the Probation Department.

The mission of the Pretrial Services Program is to assist the court in making pretrial release decisions that are prompt and equitable for all defendants regardless of ability to pay bail and provide information to the court that will maximize the court's ability to determine effective release conditions that promote community safety.

Prior to the commencement of the Monroe County Pretrial Services Program, individuals who were arrested and booked into the county jail were only released subject to an established bail bond schedule set by the local courts. This meant that those who could afford to pay monetary bail were released immediately and those that could not afford to pay remained in jail until they appeared before a judge for an Initial Hearing. Prior to the program, the courts had limited information when making release decisions. These practices resulted in a jail that was primarily housing pretrial defendants and these same defendants were at risk of losing, or had already lost, jobs, family and peer relationships, prosocial connections, and financial support.

With the establishment of the Pretrial Services Program (hereafter "Program"), Monroe County has not only implemented pretrial best practices but has defined the pretrial target population as broadly as possible. One unique aspect of the Program is that even those defendants released from jail on a bond prior to appearing before the judge for the Initial Hearing are still subject to a pretrial assessment so that all defendants are treated the same regardless of ability to pay. The target population for the Program includes all defendants that are booked into the Monroe County Jail with a new criminal offense and are not currently under any type of community supervision in Monroe County.

The Program utilizes many evidence-based practices in order to provide defendants with appropriate and effective interventions. The Program has adopted the Essential Elements of an Effective Pretrial Release Agency as defined by the National Institute of Corrections which are research based principles that have been incorporated into local pretrial services policy. One of the essential elements of the Program is the use of risk based conditions and differential pretrial supervision. Monroe County uses the Indiana Risk Assessment System-Pretrial Assessment Tool (IRAS-PAT) which has been validated by researchers to our local target population and demonstrates an overall good to excellent predictive rate for pretrial misconduct. Monroe County judges use the IRAS-PAT result as well as the pretrial probation officers' assessment summary to make release decisions that are evidence driven.

Monroe County monitors pretrial defendants based on assessed risk level and provides a range of monitoring options including non-reporting status, face-to-face appointments with a pretrial probation officer, and electronic monitoring.

The morning of the defendant's Initial Hearing (IH) before the court, Pretrial Services probation officers meet with the defendants to gather information for the Pretrial Services Report (PSR). The PSR is filed with the court Monday through Friday by 12:00 noon so that the report is available to the judge, as well as Prosecuting Attorney and Public Defender (who are both present for the IH) prior to the 2:00 PM daily IHs so that a meaningful first appearance for the defendants can be conducted.

At the IH, the court may order a pretrial defendant to be monitored on a level of community corrections programming while awaiting the disposition of the defendant's criminal case. All defendants who are assessed by the pretrial probation officers receive telephonic and text court reminders. Defendants receive a phone call reminder two days prior to every court hearing and a text message one day prior to every hearing. All defendants receive telephonic and text court reminders until disposition of their case.

Pretrial probation officers are responsible for monitoring any defendants the court orders to pretrial release through a variety of services such as case management, daily reporting, and/or electronic monitoring. Defendants' supervision level determines the length of time they are subject to additional conditions beyond just court reminder calls and texts. The supervision level is determined by the IRAS-PAT risk and the type of offense. Defendants who have a low supervision level are subject to additional conditions for 30 days; moderate supervision level lasts 60 days; and high supervision level lasts 90 days. At any time, the court could order early termination of case management, modification of case management conditions, or extend a defendant's case management conditions.

Defendants who are ordered to active monitoring receive a variety of services including voluntary referrals to social services agencies such as substance abuse treatment facilities, education and employment assistance, and physical/mental health treatment. Pretrial probation officers are also trained in the use of evidence based practice cognitive interventions which are utilized during monitoring appointments. Interventions include Carey Guides and Bits, Change Companies interactive journaling, thinking reports, Effective Practices in Community Supervision (EPICS), and sanctions and incentives.

In 2022, 1,558 individuals in 2,005 cases began receiving some type of pretrial service. All were receiving telephone calls/texts to remind them of their next court appearance and other appointments. Pretrial monitoring was ordered for 742 individuals in 953 cases and staff conducted court ordered drug testing on 89 of these individuals. Only 31 individuals were ordered to pretrial home detention, which is only 1.5% of the pretrial population receiving services in 2022.

Performance measures from October 1, 2016 (start of Monroe County Pretrial Services Program) to December 31, 2022 (most recent data analysis):

- Pretrial Services Program has assessed 11,371 defendants.
- Defendants have an overall appearance rate of 92.5% to all of their court hearings in each case.
- The overall safety rate (based on the percentage of monitored defendants who have completed their pretrial period and were not charged with a new offense during their entire pretrial period) is **76.7%**.
- The overall success rate (based on the percentage of monitored defendants who have completed their pretrial period and did not have a court filed technical violation, did not fail to appear for court, and were not arrested for a new offense during their pretrial period) is **63.8%**.

Since the Pretrial Services Program's inception, there has been a local stakeholder committee that meets regularly with representation from a variety of disciplines including judges, probation officers, community corrections staff, prosecutors, public defenders, jail leadership, local law enforcement, and members of the county council.

In September 2020, the Monroe Circuit Court Pretrial Services Program was granted certification through the Indiana Office of Court Services (IOCS) to deliver services as a certified pretrial entity. The IOCS awarded the Pretrial Services Program full certification in April 2021. This certification is valid for three (3) years.

Monroe County Pretrial Services has been involved in multiple research projects over the last several years. As part of Indiana's Pretrial Pilot Project, Monroe County Pretrial Services Program participated in research to help validate the use of the IRAS-Pretrial Assessment Tool and the pretrial process in general. In 2022 specifically, Monroe County Pretrial Services was involved in two research projects, both conducted through George Mason University. The goal of the first study was to look at the effectiveness of drug testing requirements on pretrial defendants and examine the effectiveness of supervision strategies for defendants with self-reported substance use issues. The second study explored what factors help defendants succeed during pretrial supervision and how pretrial services can better address defendants' needs.

At the end of 2022, the Pretrial Services Program was comprised of a director and five (5) line probation officers.

The information in the following sections represents the suggested measures from *A Framework for Pretrial Justice: Essential Elements of an Effective Pretrial System and Agency* published by the National Institute of Corrections in February 2017.

# PRETRIAL ASSESSMENTS COMPLETED

The chart below shows the number of individuals assessed for pretrial risk in the target population. Risk level is measured by the Indiana Risk Assessment System – Pretrial Assessment Tool (IRAS-PAT). The target population consists of any individual not currently under community supervision (probation/community corrections) at the time of are who is booked in to the Monroe County Jail charged with committing a felony or misdemeanor offense.

The target population includes defendants who bond out of jail before meeting with a Pretrial Probation Officer for assessment. Prior to bonding out of jail, such defendants sign a promise to appear in the Probation Department office the next business day to complete a pretrial assessment which is the same assessment used for defendants who were not able to bond out of jail.

		ASSESSMENTS COMPLETED							
	2018	2019	2020	2021	2022				
Misdemeanor	1,288	1,462	844	737	736

# **RECOMMENDATION RATE**

The table below indicates the recommendation rate, which is based on a Pretrial Probation Officer's information gathering after initial arrest of a defendant. An interview of the defendant is conducted in order to obtain information to score a pretrial risk assessment. The result of the risk assessment is applied to the locally approved release protocol that creates a recommendation based on the defendant's pretrial risk and the instant offense. The recommendation rate indicates the percentage of time the Pretrial Probation Officer's recommendation aligns with the release protocol. Typically, no recommendation is given when a defendant fails to attend the interview, is unable to provide necessary information during the interview, or refuses to participate in an interview.

	RECOMMENDATION RATE					
	2018 2019 2020 2021 <b>2022</b>					
Recommendation Rate	99.2%	99.0%	96.9%	96.8%	95.9%	

# **CONCURRENCE RATE**

The following table shows the concurrence rate which is calculated by whether the initial pretrial monitoring level ordered by a court upon release corresponds with the Pretrial Probation Officer's recommendation, which is based on the local approved protocol according to assessed risk and level of instant offense.

	CONCURRENCE RATE				
	2018	2019	2020	2021	2022
Monitoring Level Agrees with Recommendation	83.1%	83.2%	74.9%	81.6%	83.5%
Monitoring Level Lower than Recommendation	3.0%	3.7%	17.6%	9.2%	7.1%
Monitoring Level Higher than Recommendation	11.9%	12.4%	6.8%	8.3%	8.6%
Other (Pled Guilty, No Charge, Dismissed, etc.)	2.0%	0.7%	0.7%	0.9%	0.8%

#### **APPEARANCE RATE BY RISK LEVEL**

The following indicates the appearance rate for defendants by risk level. The appearance rate is calculated based on the year in which the hearing occurred for those who have completed their pretrial period. The percentage is based on the number of court appearances attended by pretrial defendants.

		APPEARANCE RATE						
	2018	2019	2020	2021	2022			
High Risk	87.3%	86.6%	91.2%	88.1%	84.5%

# SAFETY RATE BY RISK LEVEL

The chart below shows the safety rate for defendants by risk level. The safety rate is based on the percentage of monitored defendants who have completed their pretrial period in the year listed below and were not charged with a new offense over the entire pretrial period.

		SAFETY RATE							
	2018	2019	2020	2021	2022				
High Risk	52.4%	54.2%	55.8%	60.1%	52.8%				
Moderate Risk	73.2%	69.1%	72.0%	67.9%	67.5%

OVERALL	77.2%	76.5%	76.6%	74.5%	72.3%				

#### SUCCESS RATE BY RISK LEVEL

The chart below shows the success rate for defendants by risk level. The success rate is based on the percentage of monitored defendants who have completed their pretrial period in the year listed below and who: (1) do not have court-filed technical violations of the conditions of their release, (2) appear for all scheduled court appearances; and (3) are not arrested for a new offense during the pretrial period.

		SUCCESS RATE						
	2018	2019	2020	2021	2022			
High Risk	37.8%	30.2%	39.5%	37.2%	31.0%			
Moderate Risk	57.2%	54.5%	53.8%	51.2%	48.6%			
Low Risk	81.9%	84.5%	81.5%	82.7%	78.6%			
OVERALL	65.0%	63.9%	64.0%	60.4%	56.0%			

# AVERAGE LENGTH OF STAY IN JAIL BY RISK LEVEL

The following shows the average length of stay in jail for defendants by risk level. The length of stay is based on the initial jail stay after arrest and only includes released defendants.

Length of stay is calculated by date booked in and date booked out of jail. For example, a defendant may have been booked in at 11:00 PM on a Tuesday and bonded out of jail at 2:00 AM the next day Wednesday, but the jail stay will be calculated as two (2) days even through the time spent in jail custody was three (3) actual hours.

	AVERAGE LENGTH OF STAY IN DAYS						
	2018	2019	2020	2021	2022		
High Risk	16.2	16.9	23.0	27.0	25.8		
Moderate Risk	11.3	13.2	16.9	15.3	13.6		
Low Risk	3.4	3.5	7.0	10.6	9.8		
OVERALL	8.7	9.4	14.3	15.5	14.0		

# **RELEASE RATE**

The table below indicates the release rate by risk level. The release rate is based on the percentage of defendants who are released prior to disposition of their case. The rate is reported in the year in which their case is disposed and the pretrial period has ended.

	RELEASE RATE					
	2018	2019	2020	2021	2022	
High Risk	79.0%	85.3%	92.2%	91.4%	88.8%

#### ADULT COMMUNITY TRANSITION PROGRAM OFFENDERS RECEIVED

The Community Transition Program (CTP), as defined in Indiana law (IC 11- 8-1-5.) is the assignment by the court of a court -committed individual from the Indiana Department of Correction (IDOC) to a Community Corrections program.

The purpose of the CTP is to facilitate the successful reintegration of individuals returning to the community after serving a sentence in a state prison. The individual may be placed on CTP for 60 to 180 days, depending on the individual's highest level (most serious) convicted offense, in order to complete the individual's prison sentence in the person's county of residence. This early transition from prison provides structure, supervision, and support for the individual to encourage successful reentry to the community.

In Monroe County, individuals assigned to CTP are generally placed on community corrections supervision, typically Community Alternative Supervision Program (CASP) Levels 2-5 (Home Detention). Some are also accepted into the Reentry Court Program.

Only felony offenders may be sent to the IDOC, thus the highest level of offense for each offender participating in CTP will be a felony. There were six (6) individuals on CTP supervision in 2022.

#### OFFENSE TYPES FOR ADULT COMMUNITY TRANSITION PROGRAM SUPERVISIONS RECEIVED

Some individuals placed on Community Transition Program (CTP) supervision are convicted of or charged with more than one offense. The table and chart below illustrate the types of offenses for which an individual was placed on CTP supervision.

	2018	2019	2020	2021	2022

A full list of the offenses can be found in the appendix.

#### ADULT COMMUNITY TRANSITION PROGRAM SUPERVISIONS CLOSED

Individuals completing the CTP could have been discharged from multiple supervisions in multiple cases and each case could have a different type of discharge depending on the final disposition given by a court. There were ten (10) felony supervisions closed in 2022 and all ten (10) were closed successfully.

# **COMMUNITY SERVICE PROGRAM**

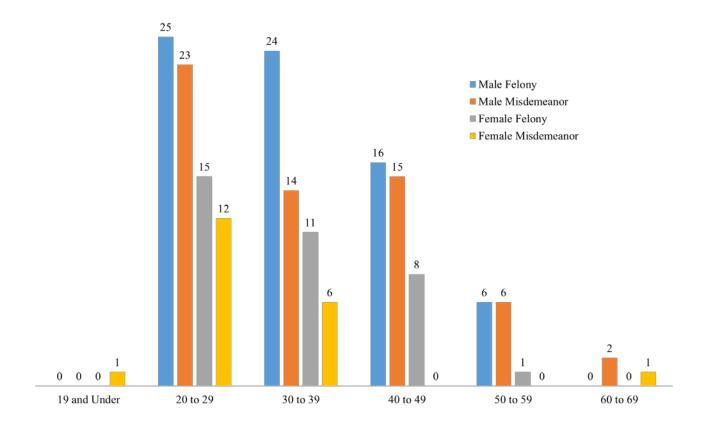

The Community Service Program is comprised of the Public Restitution Program. The Road Crew Program was formerly a part of the Community Services Program, however the Road Crew Program officially ended August 11, 2018 due to budget constraints. Special Road Crew sessions may be held for events such as the annual Little 500 event.

Public Restitution Program participants are assigned to a local non-profit or government agency to complete the community service hours required by a court and/or required as a condition of community supervision.

The chart below shows the number of individuals referred for community service in 2022 (Public Restitution only, no Road Crew events were held). Individuals may have been referred multiple times or in multiple cases.

# DRUG TESTING PROGRAM

The Community Corrections Program operates the Department's Drug Testing Program. Currently, the Department employs three methods of testing for substances in the body: urine, saliva, and breath.

The most frequent method of testing is through Portable Breath Tests (PBT) which test only for the presence of alcohol. To test for the presence of substances in addition to alcohol, the Department utilizes various methods to test urine and saliva. Because testing urine provides an extended window of time for detecting substances in a person's body, it is used more frequently than saliva. The Department utilizes 'instant' tests along with lab testing for the most frequently abused substances. Probation officers also have the discretion to request enhanced testing for substances not routinely tested for in the regular panels provided.

In 2022 the Department completed 24,428 portable breath tests, 2,448 instant drug tests, 3,608 saliva tests, and 7,967 lab drug tests. This includes tests in some civil cases where a party may be ordered by the court to complete drug testing. The tables below show the substance testing by supervision areas within the Department. Individuals tested could be counted in more than one category, for example a person could be in a problem solving court program and on a community corrections supervision level at the same time.

# PROBLEM SOLVING COURT PROGRAM

Problem solving courts in the United States began in the 1990s to accommodate individuals with specific needs and problems that were not or could not be adequately addressed in traditional courts. Problem solving courts seek to promote outcomes that will benefit not only the offender, but the victim and society as well.

Among the ways problem solving courts differ from regular courts are focus, collaboration, and judicial involvement. For example, a problem solving court typically has a team of individuals including a judge, prosecutor, public defender, probation, law enforcement, and treatment providers who routinely collaborate on each case throughout the duration the offender is involved as a participant. The team discusses many issues regarding each case and works to reduce barriers to an offender's success.

The Monroe Circuit Court developed a drug court in 1999 as the county's first problem solving court. The local Drug Treatment Court has been certified by the Indiana Office of Court Services (IOCS) as a problem solving court. In 2020, the Drug Treatment Court celebrated its 21-year anniversary.

The Drug Treatment Court is organized around the <u>10 Key Components of Drug Courts</u> <sup>1</sup>which research has shown provide the basic elements that define drug courts. The program is a minimum of two years and involves the following components:

- A plea of guilty to a felony offense with no agreement to sentencing should the participant fail to successfully complete drug court. Should the participant complete drug court successfully, the charge(s) are dismissed or reduced.
- Program participants must attend weekly court/status hearings as directed by the Problem Solving Court Team.
- Participants are required to obtain and maintain appropriate employment for the duration of the program.
- Participants will be required to complete high school/GED/TASC or vocational training if they have no apparent marketable job skills.
- Participants are required to submit to frequent random drug/alcohol tests.
- Participants must complete substance abuse treatment and any additional counseling/programming that is deemed necessary by the treatment provider.
- Participants must pay all program fees, drug test costs, and treatment costs associated with completion of this program.
- Program participants must have one year of documented sobriety in order to be eligible for successful program completion.

The local Problem Solving Court (PSC) Program added three (3) program components:

- <u>2014</u> Reentry Court Program (RECP). The majority of RECP participants served time with the Indiana Department of Correction immediately prior to beginning the program. RECP applies many of the key components of drug courts to promote positive behavior change and aid in reintegration to the community.
- <u>2015</u> Mental Health Court (MHC). MHC addresses the unique needs of people diagnosed with a serious mental illness who are involved in the criminal justice system.
- <u>2016</u> Veterans Treatment Court (VTC). A grant was obtained from the Indiana Supreme Court to begin the program. The VTC is a district court that can accept participants from Monroe, Owen, and Lawrence Counties.

<sup>&</sup>lt;sup>1</sup> U.S. Department of Justice Office of Justice Programs Bureau of Justice Assistance

In 2018, IOCS conducted a site audit of the PSC Program and re-certified the Drug Treatment Court Program and granted initial certification to all three of the new PSC components - Reentry, Veterans, and Mental Health courts - effective March 2018 for three years. In February 2022, all four (4) PSC components were recertified by IOCS.

Indiana certified problem solving court programs must undergo program evaluations on a regular basis. In 2019, Dr. John R. Gallagher, Indiana University School of Social Work, completed the updated evaluation of the Drug Court Program.

#### Highlights from the evaluation Executive Summary:

- The Monroe County drug court is an effective program at reducing recidivism and a valuable resource for individuals who have substance use disorders, the community, and other stakeholders.
- Drug court participants were significantly less likely to recidivate than participants in the comparison group. Only 18% of drug court participants recidivated, whereas the recidivism rate for the comparison group was 54%.
- Differences between the 2014 and 2019 program evaluations: when comparing the evaluations, the drug court increased its graduation rate (54% in 2014 to 66% in 2019) and decreased its recidivism rate (32% in 2014 to 18% in 2019).
- In regard to graduation, drug court participants who were unemployed at the time they were deemed eligible for the program were more likely to graduate than participants who were employed, a student, on disability, or retired at the time they were deemed eligible for the program.
- Drug court participants who were married at the time of eligibility determination were more likely to graduate than participants who were not married at the time they were deemed eligible.
- Male drug court participants were more likely to recidivate than female participants.
- Drug court participants who had a mental health diagnosis were more likely to recidivate than participants who did not have a mental health diagnosis.
- Participants who had a violation within the first 30 days after admission to drug court were more likely to recidivate than participants who did not have a violation during that timeframe.
- Overall, participants viewed the drug court team as supportive, and they felt that praise from the judge was one of the most helpful incentives they received.
- Some participants noted that the frequent and random drug testing system deterred them from using drugs and resulted in positive, cognitive changes that supported their recovery.

#### MONROE COUNTY PROBLEM SOLVING COURT PROGRAM INFORMATION

- The local Drug Treatment Court Program started in November 1999.
- During the 10-year Anniversary celebration in December 2009, the program became 1 of only 10 of the over 2,300 Drug Courts in the nation to receive the Community Transformation award from the National Association of Drug Court Professionals for "tireless efforts to foster community transformation through reducing drug addiction and crime, restoring hope and reuniting families."
- As of December 31, 2022, **513** participants have completed the Drug Court Program; **48** have completed Reentry Court; **18** have completed Veterans Treatment Court; and **20** have completed Mental Health Court.
- Overall graduation rate of **60% for Drug Court** compared to national average of close to **52%**.
- As of December 31, 2022, **91** participants currently enrolled in all the four (4) Problem Solving Court Program components.
- Seventy-two (72) drug free babies born to Problem Solving Court Program participants (all four program components combined, from November 1999 through year-end 2022).
- In 2022, of all drug tests completed on Problem Solving Court Program participants, only 7% positive drug tests compared to about 35% positive drug test rate for "traditional" adult probation in Monroe County.

#### **RECIDIVISM DATA FOR MONROE COUNTY DRUG TREATMENT COURT**

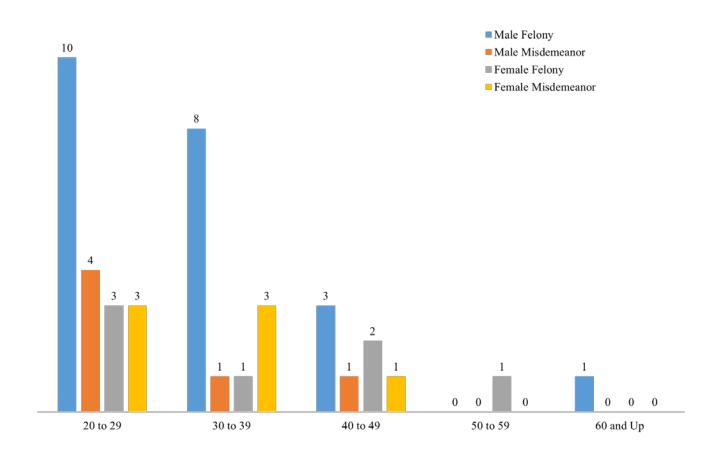

- In 2006, the Drug Treatment Court Program participated in a state-wide outcome evaluation and cost benefit analysis research project conducted by Northwest Professional Consortium (NPC) of Portland Oregon.
- This outcome study found that the Monroe County Drug Treatment Court (DTC) Program reduces recidivism by 67% and saves taxpayer money.
- NPC research showed that recidivism rate for DTC <u>participants (including dropouts)</u> was **17%** while the rate for the comparison group was **33%**.
- DTC participants (regardless of graduation status) were found to be **half as likely to have had any arrests** in the 2-year follow-up period relative to the comparison group.
- DTC graduates had an even lower recidivism rate of 11%.

# INDIANA RISK ASSESSMENT SYSTEM AND ADULT PROGRAM REFERRALS

In 2010, the Judicial Conference of Indiana adopted policies that required all probation departments in the state to use a newly adopted risk assessment system for adult offenders in the criminal justice system. In 2011, all appropriate adult risk tools were fully integrated into departmental practices.

The adult risk assessment instrument is called the Indiana Risk Assessment System (IRAS). The IRAS is the risk assessment system made up of five (5) instruments to be used at specific points in the criminal justice process to identify an adult participant's risk to reoffend and criminogenic needs, and assist with developing an individualized case management plan. [NOTE: Criminogenic needs are attributes of offenders that are directly linked to criminal behavior. Effective correctional treatment should target criminogenic needs in the development of a comprehensive case plan. Any treatment not targeting criminogenic needs is counter-productive to efficiency and effectiveness.]

**Community Supervision Screening Tool** - designed to quickly identify low risk offenders and determine if a full risk assessment should be completed.

**Community Supervision Tool** - designed to assess an offender's risk to reoffend and identify criminogenic needs to assess in making decisions regarding community supervision.

**Pretrial Tool -** designed to assess an offender's risk for failure to appear and risk to reoffender while on pretrial supervision.

**Prison Intake Tool** - designed to assess an offender's risk to reoffend and identify criminogenic needs to assist in making decisions regarding services.

Static Tool - designed to assess an offender's risk to reoffend based solely on static factors.

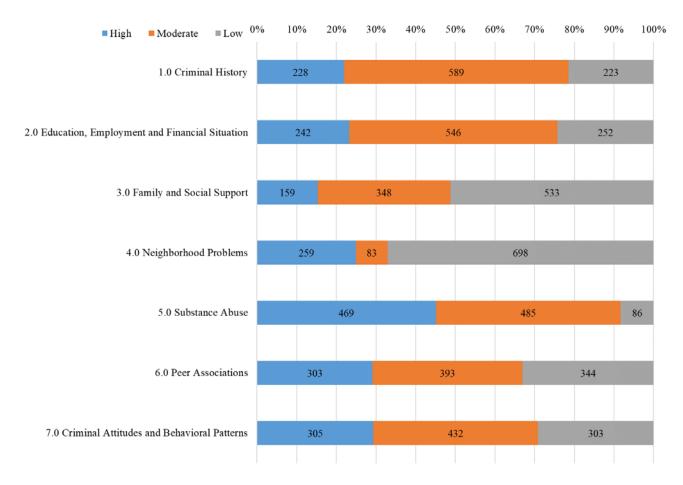

**Supplemental Reentry Tool** - designed to reassess an offender's risk to reoffend prior to an offender's release from prison.

The following table represents IRAS assessments completed by the type of tool used by the Department and the percentage of adults risking at each level. More than one risk assessment could have been completed on an adult during the time a case is open and depending upon the status of each case.

	Assessments Completed	Percentage at Overall Risk Level		
		High	Moderate	Low

# 2022 IRAS ASSESSMENTS COMPLETED

Adults placed on post-sentence supervision are assessed using the Community Supervision Tool. This tool provides a risk level in each of the seven life domains the tool reports. After the completion of the tool, case plans are formulated to address an offender's risk and needs in order to reduce the likelihood the adult will reoffend and/or violate the terms of his/her supervision. The following chart represents the number and percentage of assessments scoring in each of the risk levels – high, moderate, and low for the Community Supervision Tool.

# SUPPORT DIVISION

The Support Division provides service that is vital to the efficient functioning of the Department. Support staff members provide receptionist services, bookkeeping, cashiering, e-filing, data entry, and numerous other functions.

Support staff is typically the first contact for clients and the public. In this role, support staff members serve a unique function of setting the tone for how clients and the public will be served by the Department. In recognition of this unique position, support staff members participate in training to enhance positive experiences for clients and the public. Starting in 2016, support staff members are trained in evidence based practices (EBP) and Effective Practices in Community Supervision (EPICS).

Because the Department's offices occupy two separate locations, the Curry Building and the Community Corrections office, support staff functions must be highly coordinated in order to effectively serve both locations. The primary location of the majority of the Department's functions is the Curry Building, directly adjacent to the Justice Building. The Community Corrections office is located at 405 West 7<sup>th</sup> Street in Bloomington.

The Community Corrections office has been in operation at the location above since 1995. The Community Corrections support staff consists of an office manager, receptionist, and part-time probation officer assistants. With such a small support staff, all Community Corrections staff members are cross-trained to substitute for absent support staff when needed.

The Curry Building support staff consists of an office administrator, an office manager, a bookkeeper/cashier, adult probation secretary, juvenile probation secretary, and receptionist.

After significant support staff turnover in 2019, support staff only experienced one vacancy in August 2022 with the bookkeeper/cashier.

Most misdemeanor offenders and Level 6 felons are sentenced by the court without presentence investigation reports. These sentenced offenders report to the Department for their first contact immediately after sentencing. These "walk-in" probationers are dealt with first and foremost by support staff members who obtain demographic information, create physical and electronic client files, and provide basic information to these "walk ins." In 2022, there were 498 "walk-ins" processed by support staff.

# **OTHER PROBATION PROGRAMS, TRAINING, & COMMITTEES**

#### **INTERN PROGRAM**

The Department typically operates an internship program in cooperation with Indiana University (IU) and other colleges and universities from around the state of Indiana. Although these internships are unpaid, the students receive college credit. The Department has supervised student interns from various departments at IU including Criminal Justice, School of Social Work, School of Public and Environmental Affairs, and general studies. In 2022, the Department supervised five (5) interns for a total of 750 hours of work through the year.

#### STAFF TRAINING

The Judicial Conference of Indiana mandates that certified probation officers complete a minimum of 12 hours of continuing education per year, with six (6) of these hours related to evidence-based practices. Court Alcohol and Drug Program and Problem-Solving Court staff members are also required to complete a minimum of 12 hours of continuing education each year.

Effective January 1, 2019, Indiana probation officers are required by the Judicial Conference of Indiana to complete suicide awareness and prevention training. Every probation officer must attend suicide prevention training on an annual basis.

Starting in 2019, the Probation Department began partnering with the Monroe County Youth Service Bureau for training purposes. The Youth Services Bureau (YSB) is supervised by the Monroe Circuit Court. YSB includes probation staff members in their trainings where space permits. YSB trainings that probation staff may attend include: Red Cross training (CPR, AED, and First Aid).

The Probation Supervisors set the following training priorities for 2022: improving Effective Practices in Community Supervision (EPICS) skills; consistency in administering Indiana Risk Assessment System (IRAS) and Indiana Youth Assessment System (IYAS); Evidence Based Practices (EBP) Overview for all new staff members; Effective Communication and Motivation Skills (ECMS) for all new staff that have not been trained; case planning; suicide prevention; and pepper spray training.

During 2022, staff completed 3,504 hours of training with 2,546 of those hours related to evidence-based practices.

#### **FUN COMMITTEE**

The Fun Committee was formed in 2006 to coordinate departmental in-service trainings and other activities for the department throughout each year. The Fun Committee organized several activities and celebrations in 2022. The highlight of 2022 was *Probation, Parole & Community Supervision Week* which included goodie bags for staff, an annual Corn hole Tournament, and Service Project Day with the Bloomington Animal Shelter. Unfortunately, the committee was unable to organize the annual departmental in-service for 2022, however other virtual activities were conducted throughout the year.

#### **GREEN COMMITTEE**

In 2010, the Green Committee was created in response to employee efforts to promote recycling at both departmental offices. In 2022 the committee gained larger recycling bins due to the volume of materials being recycled. The committee continued to implement recycling procedures for separating plastic, glass, aluminum, paper, and battery refuse.

# **EVIDENCE BASED PRACTICES ORGANIZATION REPORT**

The National Institute of Corrections defines evidence-based practice (EBP) as the objective, balanced, and responsible use of current research and the best available data to guide policy and practice decisions, such that outcomes for consumers are improved. Used originally in the health care and social science fields, evidence-based practice focuses on approaches demonstrated to be effective through empirical research rather than through anecdote or professional experience alone.

The Probation Department began utilizing evidence-based practices (EBP) in 1998. Research has shown that when probation, parole, and community corrections programs are evidence-based organizations, they are more likely to be successful in reducing recidivism. However, using evidence-based programs and practices alone does not make an organization an "evidence-based organization." The Indiana Department of Correction (IDOC) audits all programs that receive IDOC grant funding to ensure that they meet criteria/standards as an evidence-based practices organization. Although the IDOC audits only the Community Corrections division of the Department, the Chief Probation Officer decided that all units, divisions, and staff members of the Department will participate in the implementation of EBP organization practices.

Summary of 2022 EBP Organization Accomplishments:

- <u>Effective Practices in Community Supervision (EPICS) Skills Video Library</u> All probation officers (POs) recorded a video of themselves working through an EPICS skill with a client once per month. These videos are available in a shared video library accessible to all Probation employees.
- <u>EPICS Video Reviews</u> POs submitted one video per month for review. Initially, peer coaches were partnered with select POs to provide feedback. Later in 2022, the Continuous Quality Improvement (CQI) Supervisor and Evidence Based Practices (EBP) Coordinator provided feedback to staff. POs were required to submit a video of an entire office appointment in which they used an EPICS skill. The goal for each PO was to be found proficient in all EPICS skills and they worked with their peer coaches to meet proficiency standards.
- <u>EPICS Training for New Staff</u> The CQI Supervisor and EBP Coordinator facilitated an EPICS skills training for all new departmental staff which included learning the steps to all the EPICS skills.
- <u>EBP Training for New Staff</u> One PO was trained to facilitate discussion with new staff to explain the purpose of Evidence-Based Practice and how it is applied in the Probation Department.
- <u>Supervisor CQI Boosters</u> In 2022, supervisors met once every month to discuss watch PO appointment videos and discuss CQI concepts which included coaching and evaluating staff, giving feedback, and establishing EBP standards for POs.
- <u>Indiana Risk Assessment System (IRAS) Boosters</u> Adult POs each attended two (2) boosters during which they viewed and scored an IRAS assessment interview for the purposes of checking for scoring fidelity (known as inter-rater reliability).

# **RESEARCH PROJECTS:**

<u>Reducing Revocations Challenge</u> – Indiana University (IU) and the Department were selected to participate in Phase I of the Reducing Revocations Challenge. The Reducing Revocations Challenge (RRC) is a national initiative of Arnold Ventures and the CUNY Institute for State and Local Governance (ISLG) dedicated to understanding the drivers of probation revocations and identifying ways to reduce the community supervision failures that send almost 350,000 people to jails and prisons each year.

For Phase I, IU researchers received a \$198,312 grant to conduct on the ground, in-depth research and data analysis on the drivers of probation failures in Monroe County. During Phase I, IU was a part of a learning network alongside the nine (9) other jurisdictions selected to participate in the Challenge, including participation in a cross-site summit, where findings and potential solutions were shared and discussed. Members of the learning network also received guidance and technical assistance from ISLG and an Advisory Board of experts in the field at each step along the way. Dr. Miriam Northcutt Bohmert was the Principal Investigator at IU along with Dr. Eric Grommon of Indiana University Purdue University Indianapolis, and Dr. Evan Lowder of George Mason University. Assisting throughout Phase I was Project Manager Michelle Ying. A full report from the Phase I findings can be found here: <u>https://www.co.monroe.in.us/egov/documents/1624997136\_04056.pdf.</u>

The Phase I findings, which were released in 2021, were used to propose evidence-based solutions for policy and practice for Phase II of the initiative. Of the ten jurisdictions participating in Phase I, only five (5) jurisdictions were selected to continue Phase II of the Challenge, including Monroe County.

For Phase II of the RRC, Monroe County was approved to use grant funding from Arnold Ventures to implement three strategies:

- (1) increase fidelity to motivational interviewing (MI), effective practices in community supervision (EPICS), and case planning;
- (2) revise the standard conditions of probation to be fewer in number as well as positive and goaloriented in tone; and
- (3) increase use of earned early termination from probation and incentivize positive behaviors.

IU and Monroe County Probation were awarded a grant from Arnold Ventures totaling \$298,000 to support Phase II of the Challenge, with \$170,000 of the grant awarded to Monroe County Probation for implementation and the balance to provide research support for the initiative. Phase II of the Challenge officially kicked off on October 1, 2021 and will continue through September 30, 2023.

The Probation Department Reducing Revocations Challenge (RRC) implementation team is comprised of Chief PO Linda Brady, Deputy Chief PO Troy Hatfield, Deputy Chief PO/Community Corrections Executive Director Becca Streit, Pretrial Services Program Director/Continuous Quality Improvement Director Chelsea Walters, and Evidence Based Practices Coordinator Leah Baker.

Throughout 2022, the Department focused on training of staff to increase fidelity to MI, EPICS, and case planning. This included multiple trainings for staff as well as access to online learning modules to increase skills in the utilization of EPICS. This training will continue into 2023.

To implement other strategies from Phase II, the Department formed numerous committees and workgroups to focus on case planning, probation officer incentives/reinforcements, client incentives/reinforcements, earned early termination of probation, and a probation officer dashboard of performance metrics.

Finally, work on revising the probation conditions kicked off in the latter part of 2022 with a large criminal justice stakeholder group. This work was facilitated by an outside consultant, Dr. Brian Lovins from Justice Systems Partners, to guide the process of revising the conditions. Work continues in 2023 with a target implementation date over the summer of 2023.

<u>Pretrial Services</u> – Chelsea M.A. Foudray, a doctoral student at George Mason University under the direction of Dr. Evan Lowder, began working with Monroe County to study the effectiveness of pretrial supervision strategies for defendants with self-reported substance use. The research will examine the effectiveness of drug testing requirements on pretrial defendants and examine the effectiveness of a needs-based approach to supervising individuals with substance use. Results from the study are expected in 2023.

<u>Juvenile Services</u> – Since 2020, the Department has been involved in the Alliances to Disseminate Addiction Prevention and Treatment (ADAPT) study funded by the National Institutes of Health and let by Principle Investigation Matthew Aalsma, PhD, associated with Indiana University Purdue University Indianapolis (IUPUI). The ADAPT project takes a two-pronged approach. First, the project employed a Learning Health System (LHS) to develop collaborative alliances between juvenile justice agencies and community mental health centers, organizations that traditionally operate independently. Second, the project aims to present local data within the LHS alliances. By offering agency representatives an opportunity to view and discuss, for example, the local rate at which youth in the juvenile justice system at risk of substance use disorders are initiating services, the project team will facilitate development of tailored, local solutions to improve services for each county. In this project, staff attend training, complete various surveys, and track a variety of data elements during the implementation. The project is expected to wrap-up in 2025.

# Introduction

# **Mission Statement:**

The mission of Youth Services Bureau is to support youth and families through advocacy, education, collaboration, and fostering community connections.

# **Vision Statement:**

Youth Services Bureau of Monroe County envisions a thriving community, rooted in compassion, rich in opportunity, where youth and families are empowered and resilient.

# **Agency Values:**

Integrity, Advocacy & Awareness, Service, Importance of Human Relationships, Honoring Dignity of Person, Investment

# **History:**

Since 1972, Youth Services Bureau of Monroe County has provided services in an effort to strengthen families, divert youth from the juvenile justice system, and to foster positive youth development. Family support and structure are necessary for the development of our community's youth. YSB offers services that foster positive family functioning and help lay the groundwork to build healthy, productive individuals.

# **Accreditation & Memberships:**

YSB is an accredited Indiana Youth Services Association member. We fulfill the 4 core roles of delinquency prevention, advocacy, community education and information & referral<sup>1</sup> with our programs.

We are also an Indiana Association of Resources and Child Advocacy member. It is an association of concerned agencies who not only care for children and families, but also care about them.<sup>2</sup>

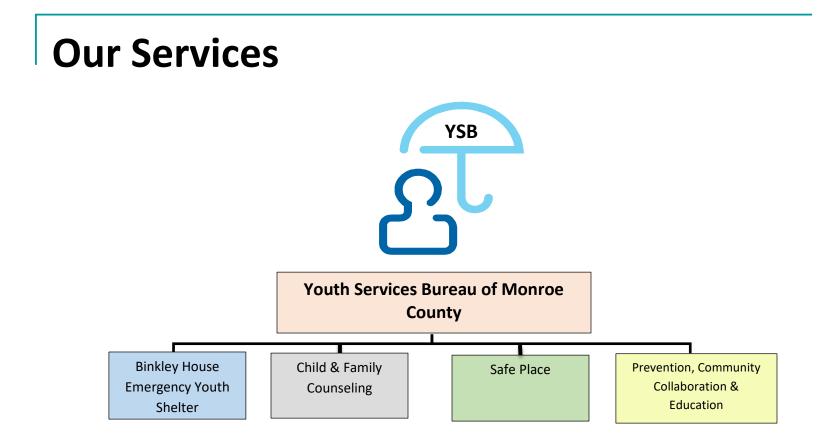

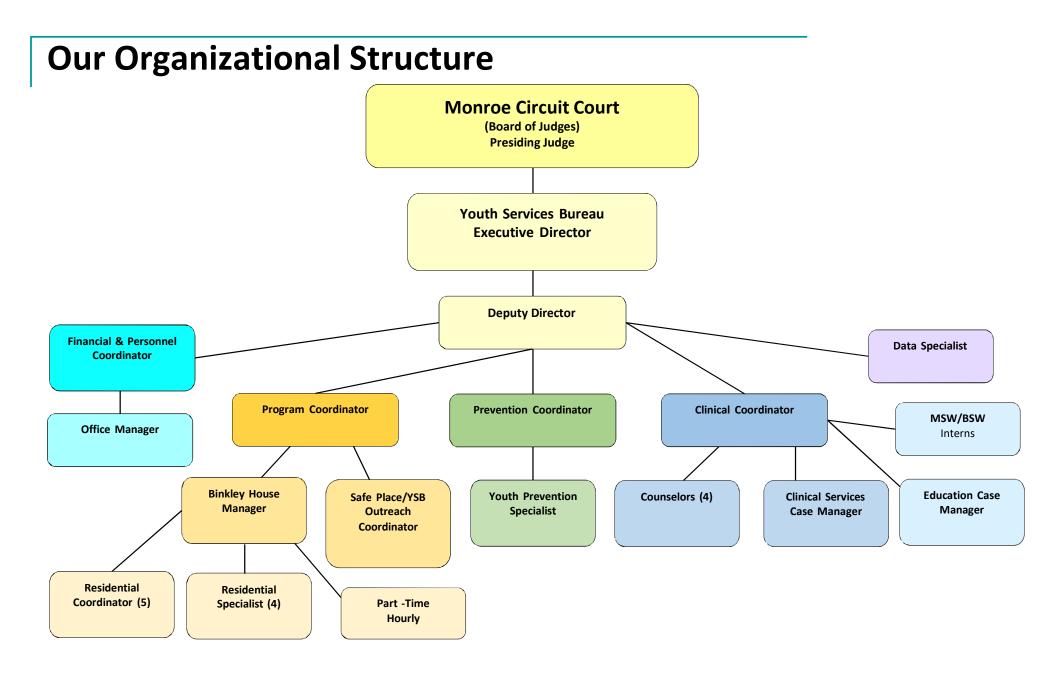

CARF accreditation signals a service provider's commitment to continually improving services, encouraging feedback, and serving the community. <sup>3</sup>

Revised April 2022

# **Executive Director's Report**

YSB returned to in person meetings and expanded programming back into the community after two years of the Covid-190 global pandemic restrictions. In 2022, YSB operated 24/7 to provide services for the 126 Runaway and Homeless youth. The average length of stay for youth increased from 11+ days the previous three years to 14.5 days in 2022. The number of referrals increased significantly from 397 in 2021 to 528. This increase could be attributed to staffing shortages resulting in fewer available beds in other emergency shelters around the state. YSB identified 40 cases of physical or sexual abuse and/or neglect to Indiana Department of Child Services, totaling 32% of the youth served by YSB in 2022, and an increase from 2021. Although the number of youth served for the past two years was less than in 2019 and before, the level of trauma experienced by the youth was significant.

The new addition and renovations done to the facility in 2020 began having more of the intended use in 2022 than ever before. YSB hosted the Monroe County Childhood Conditions (MC3) in person, the Monroe Circuit Court Probation & Community Corrections utilized the space for staff training, the Board of Judges held an annual in-service in the Boardroom, and YSB returned to in person staff training. YSB will host a Monroe County Department Head meeting in January 2023, and the new Sheriff plans to train their staff in the YSB classroom.

YSB collaborated with the Monroe County Probation Department in April to complete a proposal to expand juvenile services even more in 2022, which was our most significant goal. One of the biggest challenges of meeting the goal was finding qualified staff to fill the five new appropriated positions to develop additional youth programming. Hiring, onboarding, training and new program development was a huge endeavor. The Truancy Termination Partnership Program pilot was launched in October in collaboration with Monroe County Community School Corporation. The 16-family program filled quickly and received positive feedback by end of year. Seeking Safety, Youth Advisory Board, and Parenting education classes took longer to implement due to staffing issues but will begin in early 2023.

Prevention and Outreach work through YSB subcommittees and Safe Place continued in the community. Safe Place returned to attending community activities in person and 21 youth accessed Safe Place in 2022. The seventh annual Monroe County Childhood Conditions (MC3) Summit was hosted both virtually and in person at YSB in October 2022 with over 130 community members attending representing over 55 agencies. Global Youth Service Day saw 70 high school youth work on three community service projects. Prevention provided 20 trainings on various topics in the community throughout the year.

Youth Services Bureau of Monroe County staff maintained a safe, nurturing environment for youth, and achieved success in other areas that assure quality services. YSB received the Community Education Award from IYSA for making the most significant impact in the state through educating the community on diversity, equity, and issues impacting the lives of youth and their families. YSB passed consistent scrutiny through various required audits including Indiana Department of Child Services, Commission on Accreditation of Rehabilitation Facilities (CARF), Family and Youth Services Bureau, and Indiana Youth Services Association in 2022. In 2023, we look forward continuing the implementation of the expanded juvenile services programs including groups dealing with substance abuse, parent education, developing a Youth Advisory Council, expanding YSB's community-based counseling capacity, and increasing non-residential diagnostic evaluations for youth. We look forward to the continued challenge of our mission to support youth and families.

# **Finance & Personnel Report**

The Youth Services Bureau remained fiscally responsible by utilizing existing funds, seeking grant opportunities, and only requesting minimal increases to the annual budget in order to fund new programming. Despite price surges and inflation of shelter supplies, we remained diligent and decreased costs in other areas to meet the needs of the residents without any additional cost to Monroe County taxpayers. We saw a considerable drop in travel and training expenses last year due to some conferences being held on digital platforms and those funds were reallocated as necessary.

YSB maintained a strong relationship with the Department of Child Services and secured a per diem rate of \$470.34 per child per day. This is a slight increase of \$3.72 from the 2021 rate of \$466.62. The per diem revenue is directed into the Monroe County General Fund. The agency continues to receive the Runaway & Homeless Youth Basic Center Grant. The current grant budget period began in the fall of 2021 and will run for three years. The agency was also awarded state funding from Indiana Youth Services Association (IYSA) which helps to fund Safe Place program outreach. YSB entered the 3<sup>rd</sup> year of the CARF (Commission on Accreditation of Rehabilitation Facilities) accreditation.

In 2022, changes in personnel included welcoming new a Program Coordinator, a Deputy Director, an Office Manager, a Financial & Personnel Coordinator, a YSB Shelter Outreach, and Safe Place Coordinator and several new direct care workers in the shelter. Sara Jamieson rejoined YSB as the Program Coordinator in October 2022 to replace Vanessa Schmidt who stepped into the Deputy Director role in September. Naomi Russell took over the Financial & Personnel Coordinator position in March of 2022, and Jessica Cox joined in September of 2022 as the Office Manager. Cassidy McCammon was hired as the YSB Shelter Outreach and Safe Place Coordinator. YSB has also initiated two new programs which in turn have resulted in the hiring of new staff to support them. Emily Arthur transferred from a direct care role in the shelter to become our Data Specialist and assist with starting up Quest, a database management software. Marlee Case was hired in July 2022 as the new Youth Prevention Specialist. We have also started a Truancy Termination Program and have been able to add a Counselor and Case Manager to assist in those efforts. Wendy Greco came aboard in June 2022 as the Case Manager and Michael Block in July 2022 to fill the Counselor position. Additionally, there were a few in-house transitions made. Angela Reece left a direct care role in the shelter to join the clinical team as a Case Manager. Julianna DeLano completed her master's in social work to allow her to move from being a Case Manager to a Counselor. Gena Delos Santos was a former intern and part-timer who also completed her Masters in 2022 and became a Counselor. The agency was able to stabilize its staff base even more so in 2022 and the turnover rate reflects a significant decline from 48.1% in 2020 to 42.8% in 2021 to 33.4% in 2022. The agency continues to use hiring platforms to help seek out qualified staff, and advocates for competitive wages and a gratifying workplace. YSB will continue to remain fiscally responsible in 2023 while providing exceptional services to the youth and families we serve.

#### Local Income Tax Special Purpose (LIT)

• LIT Special Purpose is YSB's main funding source, funding the majority of operating and personnel costs for the organization.

#### **Runaway and Homeless Youth (RHY) Grant**

• The Runaway and Homeless Youth Grant is through the Federal Department of Health and Human Services, and fully funds the YSB Shelter Outreach and Safe Place Coordinator and one of the four counselors, along with a small stipend for training and programmatic expenses.

#### **1503 Youth Services Bureau Grant**

• The 1503 YSB Grant is administered through the Indiana Youth Services Association, and funds approximately half of the fulltime Case Manager and a supplement to hourly shelter staff, with a small stipend for training and travel.

#### 1504 Safe Place Grant

• The 1504 Safe Place grant is administered through the Indiana Youth Services Association, and funds operational and outreach costs for the Safe Place Program.

#### **Prevention Funds**

• This funding is associated with the absorption of the four subcommittees formerly associated with the Asset Building Coalition: the Monroe County Youth Council, Building a Thriving Compassionate Community, the Bloomington Afterschool Network, and the Prevention General Fund.

#### **YSB Donation Fund**

• The donation fund is where all private donations made to YSB are deposited.

#### **DCS Per Diems**

• DCS per diems are a state reimbursement for all court ordered and DCS placed children. In 2022, YSB generated \$470.34 per child per day. This source funds Local Income Tax (LIT) and is deposited directly into the general purpose account for the county.

# **Program Coordinator Report**

Throughout 2022, the Binkley House Emergency Youth Shelter continued to operate essential services without interruption. The Binkley House Emergency shelter program provided daily structure, service learning, physical recreation, educational development, and competency and skill-building for all residents. Daytime programming is structured to provide residents with experiences that enhance and build social competencies and focus on their existing strengths. Programming is centered on supporting the current evidence-based practice used at the Youth Services Bureau, the ARC Framework (Attachment, Regulation, and Competency). ARC focuses on normative childhood development, traumatic stress, attachment, assessing risk, and utilizing resilience. The behavior modification program used by the shelter follows this framework and promotes positive behavior choices and provides residents with clear expectations.

The Binkley House shelter focused on first ensuring basic needs were met, provided normalcy in routine, and a safe trauma-informed environment for residents. Physical recreation is an integral part of the daily programming at the Binkley House emergency shelter. Residents began the daytime programming schedule by attending the local parks or internal activities, such as physical games in the YSB gymnasium. Residents often participate in physical activity outside of scheduled times and are offered and encouraged to remain active over weekends and holiday breaks. Direct Care staff facilitated programming throughout the week with varying components, such as music from around the world, current events, educational films, and art activities.

In the spring and summer of 2022, Clinical and direct care staff worked to continue the YSB garden and gardening program to teach both hands-on skills, and team-work to keep up with all the daily tasks needed to be done. External programming is slowly increasing after the last few years of COVID restrictions. Residents were able to continue to attend soft skill sessions at PALS (People and Animal Learning Services) two times a week as well as visits to local museums, service learning at Mother Hubbard's Cupboard, and learning how to utilize our local Monroe County Public Library and all the services it offers.

Binkley House residents who are present during daytime programming also participate in daily educational programming. This programming is led by the YSB Case Manager. During this time, residents work on assigned homework from their local school systems or are provided with an age and level-appropriate curriculum. Residents who have graduated or completed school, such as the Indiana HSE (High School Equivalency), are provided secondary education options, acquire practical experience, and seek to secure employment while reintegrating back into the community. Educational periods during summer and school breaks include experiential learning, such as science-related or art activities. Guidance and assistance for completing assignments are provided by both direct-care staff and the Case Manager.

In 2022, the YSB Clinical team and direct care staff facilitated the after-school psycho-educational component, "Focus" providing residents with pro-social and positive youth development-focused programming throughout the year. This shelter component covers topics such as nutrition, self-esteem building, healthy relationships, anger management, conflict resolution, ATOD (alcohol, tobacco, and other drugs), and the Safe Place program. Clinical presented topics through creative activities such as vision boards, cooking meals, and team skill-building. Our YSB Clinical staff also led a daily life education hour during the week. Our clinical team provides education, learning, and exposure to local supports and agencies they can access, skill building to help develop independence, and resiliency.

For direct-care staff, the agency continues to advance the training and orientation for incoming and existing staff. Education took place throughout the year to enhance skills and encourage team members who embrace learning opportunities. We plan to make continuous learning and development plans an ongoing focus for 2023. The program continues to be a recognized model for emergency shelter care under the standards of the Department of Child Services, Indiana Youth Services Association, and federal Runaway and Homeless Youth agency.

Since 1987, the Youth Services Bureau of Monroe County has operated the local Safe Place program. This crisis intervention program opens the doors and expands access to the Binkley House emergency shelter. The local Safe Place program serves Monroe, Owen, and Greene Counties. In 2022, the program attended at many local events hosted by the City of Bloomington Parks and Recreation Department and community outreach increased. The local program continues to increase the education and awareness surrounding the dangers of running away and the safer available options. The program continues to meet and exceed the standards set forth by the Indiana Youth Services Association (IYSA), National Safe Place Network, and the federal Runaway and Homeless Youth agency.

The Youth Services Bureau of Monroe County has also been a consistent contributor and participant in the Juvenile Detention Alternatives Initiative (JDAI). The objectives of the JDAI workgroups are to collectively safely reduce the number of youths ordered to juvenile dentition facilities. The Program Coordinator was actively involved in the Alternatives to Detention workgroup, while the YSB Deputy Director was involved in the Data and Steering committees for JDAI; in 2022 all meetings were held virtually.

Looking forward to 2023, programming under the Youth Services Bureau of Monroe County will continually work to break down barriers for youth to achieve their goals and remain in stable environments. YSB is committed to helping make sure our services are accessible and available to all families. The agency will continue to advocate for the youth population we serve, provide best practices, and research programming options that meet the needs of the community to expand the services we offer.

#### Sara Jamieson, Program Coordinator

## **Binkley House Emergency Youth Shelter Program Description**

Binkley House Emergency Youth Shelter is the largest division of YSB. It provides short-term emergency residential care and crisis intervention for youth ages 10-17. The shelter offers emergency shelter for runaways, homeless youth, and youth in crisis or abusive situations at home. Binkley House is a licensed Emergency Shelter Care Facility and follows the guidelines set forth by the Indiana Department of Child Services. Binkley House Emergency Youth Shelter remains the only shelter program for youth in the region of Monroe and surrounding counties.

Binkley House is accessible for youth in need 24 hours a day. Our building's outer doors are locked to ensure the safety of staff and residents. However, our internal doors are never locked. We do not utilize locked rooms, or seclusions and restraints on our shelter residents. The shelter program, known for its "Five Finger Agreement" (Safety, Responsibility, Respect, Following Directions, and Effort) relies on an incentive-based, trauma informed approach to support and encourage positive behavior choices while ensuring safety for all. Our staff are able to enforce the behavior modification program by rewarding positive behavior and helping residents find ways to work on areas of behavior that may need to improvement without the fear of punitive restrictions.

Binkley House provides services such as counseling, educational support time, supervised recreation, transportation to and from school and appointments, as well as referrals to a variety of agencies for related services. YSB also assists youth in transitional services during their stay at the Binkley House Youth Shelter. These include independent living skills, transition to long-term residential care, transition from long-term residential care back home, and short-term aftercare counseling. The youth shelter program also offers services to youth in the foster-care system in an effort to reduce multiple foster-care placements.

Referrals to the youth shelter program can occur in a number of ways including from social service agencies, parents, or directly from the youth themselves. The Youth Services Bureau of Monroe County never charges a fee for the services provided for youth accessing Safe Place or parental (voluntary by youth agreement) admissions.

## **Binkley House Emergency Youth Shelter Report**

In 2022, the Binkley House Manager focused on a variety of goals to ensure quality services were provided to the youth residing in the emergency shelter. These goals center on the quality of daily shelter operations, strengthening lines of communication and improving employee training, and resuming regular activity following the Covid-19 Pandemic.

In 2022, we were able to resume regular Programming and Protocol following our previous response protocol to the Covid-19 Pandemic, maintaining the integrity of the trauma-informed behavior modification program. While maintaining county health and safety protocol, we were able to continue to again incorporate outside presenters, local outings, and community tours back into our weekly programming for youth. As an agency, we worked together to maintain consistency and to ensure all daytime programming, educational and psycho-educational components were met. Binkley House staff and the Clinical team continued to collaborate on special projects on-site that the residents could enjoy such as continued development of the summer garden project, cooking and menu planning activities, intensive art projects, resident-inspired Focus groups and daily physical activity.

The agency has worked to streamline the hiring and training process, focusing on consistency, thoroughness, and ensuring that employees feel competent and adequately trained. We have identified training mentors among the existing full-time staff for the new-hire floor training process. We have continued virtual training, followed by competency quizzes to ensure the retention of materials. The direct care staff has continued to embrace the ARC framework (Attachment, Regulation, and Competency) as our evidence-based practice, as well as incorporating Non-Violent Crisis Prevention Intervention (CPI) skills for daily milieu management. In addition to required training, employees are encouraged to attend outside training to build on existing skills and to relay their experiences and knowledge to the agency. As shift supervisors, the full-time Residential Coordinators participated in leadership and management training, with multiple staff completing CYC (Child & Youth Care) certification through a grant provided by IYSA (Indiana Youth Services Association). In addition to regular supervision meetings for direct care, we continued group meetings specifically for direct care staff to address shift work process, communication, crisis intervention, programming, and milieu management. These meetings continue to allow direct care staff a forum to come together as a team, learn, and problem-solve and provide feedback to the leadership team.

Binkley House emergency shelter ensures that youth feel safe, have a routine, and are exposed to a variety of opportunities and resources from intake to placement transition. Youth are engaged throughout the day, beginning with breakfast and assigned chores. In 2022, youth who reside in the emergency shelter continued to attend local schools. Residents that attend out-of-county schools, have already graduated or attained their HSE (High School Equivalency), and begin physical activity on-site or at local recreation centers. Daytime programming provides a structured day that rotates weekly and includes community outings and service-learning activities. These community outings include Indiana University campus tours, Monroe County Public Library, equine therapy at PALS (People & Animal Learning Services), and local museums. In addition to the scheduled outings during the day, youth and staff work together to prepare and serve meals and snacks, spend allocated time on basic life skills, and work on any educational assignments or resumes.

There is a built-in transition time from one activity to the next throughout the day. The end of daytime programming consists of the daily psycho-educational component labeled "Focus" for all residents. Several residents were able to contribute to the development of activities such as cooking family meals and leading art activities. We also have a partnership with PALS, which the residents particularly enjoyed, and were eager

to share about their experiences with the horses. The shelter also held regular on-site visits by local animal therapy services to including the CASA (Court Appointed Special Advocate) dog Jordy and Yorick, a therapy cat from Monroe County Humane Society.

In addition to the structured daytime programming and daily psycho-educational component, the residents enjoy off-site group recreational outings. In 2022, we were able to resume pre-Pandemic activities such as Indiana Memorial Union for bowling and billiards, YMCA, Indiana University Cook Hall, Monroe County Public Library, The Warehouse, the WonderLab, IU Athletic games, fishing excursions and numerous local parks. Residents also earn the opportunity for "token outings," which are attained by progressing through the level system and earning privileges. The residents may choose their outings, which can vary from a movie viewing party, haircut, or a meal off-site from a local restaurant. The shelter "store" also offers the opportunity for youth to shop with their tokens for fun tangible items, such as a new wallet, watch, cologne, or jewelry.

In 2022, the agency provided winter weather clothing, toys, toiletry kits, duffle bags, blankets, holiday gifts, book bags, and school supplies to many of our residents. Our staff worked enthusiastically to provide impressive holiday meals, decorations, and gifts to help residents feel more at home during a difficult time in the year. We also improved our rewards-based behavior modification program and focused on adding additional incentives to promote positive outcomes for residents. In 2023, the program will continue to refine practices to best meet the needs of the populations we serve.

# **Inquiries for Youth Related Services:**

In 2022, we received a total of 528 inquiries (referrals) for service, an average of 44 calls per month, and an increase of 33% from the previous year. The calls we receive are usually during a time of crisis for which the callers (youth, family member, and legal guardian) are seeking immediate emergency shelter services.

In 2022, YSB of Monroe County experienced an increase in the number of referrals from all but one reporting source. Parental referrals increased by 23% in 2022 and DCS referrals increased by 31%. 2022 Probation referrals more than doubled, indicating a 164% increase. Safe Place referrals increased by 36%, whereas police referrals decreased by 50%.

The ability of the agency to do outreach and for community members to make referrals increased when compared to 2021. YSB continued to serve the community and receive calls from the state child welfare agency (DCS) to serve those children who needed emergency housing.

# Services Provided in Binkley House Emergency Youth Shelter

In 2022, we were able to provide safe shelter accommodations a total of 126 times to 121 individual youth. Binkley House served 81 youth who had never before had contact or placement with Binkley House Youth Shelter, a 53% increase from 2021. The number of non-recidivists served is approximately 64% of our total population served. When counting the total number of service days given to all youth in 2022, we provided 1,758 real-time<sup>5</sup> days of service.

During 2022, the average length of stay for a youth in the shelter was approximately 14.67 days, an increase from 2021 when the average length of stay was 11.13 days. In 2012, a legislative change occurred limiting the length of stay for a youth at a licensed emergency youth shelter in the state of Indiana to a maximum of 20 days<sup>6</sup>, regardless of placement type.

The Binkley House Emergency Youth Shelter program serves youth from various counties across the state. Since we are located in Monroe County, it is of no surprise that the majority of the youth we serve reside in Monroe County. It is important to note that many of the families we serve are transient, having lived in Monroe County either in the past or currently. Monroe County is known for its many resources and families often gravitate to this exceptional community.

<sup>5</sup> "Real-time" means that day in and day out are counted.

<sup>&</sup>lt;sup>6</sup> Per Dept. of Child Svc. rules, day out does not count, therefore real-time days are 21 in length.

Our Counselors and Case Managers provide clinical and supportive services daily for each Binkley House resident. In some circumstances, the contact with youth is much more extensive, based on individual needs and support for success.

Youth Services Bureau staff identified and reported 40 suspected cases of physical abuse, sexual abuse, and/or neglect to the Indiana Department of Child Services-Child Protective Services unit. This is approximately 32% of youth served in 2022. The suspected reports of abuse and/or neglect are a result of youth self-report, questionable marks/bruises, as well as any observed abuse by a guardian or others towards the youth while in our care.

We know it is best practice and vital for youth and families to engage in counseling while experiencing family crises. The (clinical) behavioral health service component (clinical counseling/case management) is not funded through the Indiana Department of Child Services contract for Emergency Shelter Care. While we seek grants to aid this critical link in services to facilitate improved family functioning, we would be remiss if we did not thank Monroe County for continuing to support our services.

# **Binkley House Emergency Youth Shelter Placement Types**

<u>Placement Types</u> – Binkley House codes placements by "types," reflecting who is responsible for placing the youth in the shelter program. In some instances, the youth's placement type may change during their stay, which indicates a shift in the party responsible for the youth's stay in the program. In 2021, 8 youth changed placement type during a single stay.

 Safe Place – Youth initiate the desire to come for services at Binkley House Emergency Youth Shelter. There is no cost to the family for this service type. Length of this placement cannot exceed 72 hours, but may become another placement type if continued services are requested.

14 youth; 11% of the total shelter population (18 service days).

 Parental – A parent or legal guardian contacts Binkley House Emergency Youth Shelter requesting youth services. In this instance, the youth must voluntarily agree to come to Binkley House Emergency Youth Shelter for short term placement. Federal and state funding cover parental placement costs regardless of the youths' county of origin. There is no cost to the family for this service type.

63 youth; 50% of the total shelter population (494 service days).

3. **Probation** – Through a court order, a youth is placed at Binkley House Emergency Youth Shelter to prevent delinquent behavior and promote pro-social behavior. Youth are accepted as court ordered placements only if they pose no safety risk or harm to self or others. Results of court involvement typically come from truancy (not attending school consistently), return to the community from another environment, or preventative (assist youth in remaining free from negative influences until the youth can make better choices). YSB submits per diem claims to Indiana Department of Child Services (per that year's cost award). This is not billed to the family by YSB.

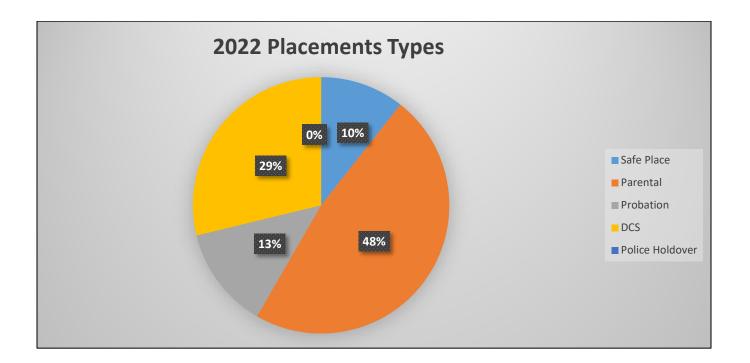

17 youth; 13.5% of the total shelter population (167 service days).

4. Department of Child Services – When a youth is a ward of DCS or is in an emergency situation in which the DCS Case Worker determines that removal from a home is needed, a youth can be placed at Binkley House Emergency Youth Shelter. Typically, we host youth who are waiting for their homes to return to a safe level (after DCS interventions have been put in place), are awaiting foster care placement, or are in transition between homes. YSB submits per diem claims to Indiana Department of Child Services (per that year's cost awarded by the state of Indiana). This is not billed to the family by YSB.

38 youth; 30% of the shelter population (381 service days).

5. **Police Hold -** To assist local law enforcement in returning to serve the public, there are occasions where Binkley House Emergency Youth Shelter will house a youth until a parent can be located to take custody of their child. These instances typically occur when law enforcement has come into contact with a youth and a parent/guardian cannot immediately respond to law enforcement to retrieve their child. These placements are typically less than 24 hours in duration. If a parent cannot be located within 24 hours, Binkley House contacts the Department of Child Services to assist in family locating.

0 youth; 0% of the total Shelter Population (0 service days).

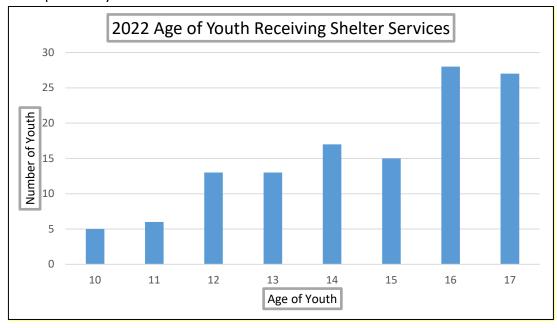

#### **Gender of Youth in Program**

Binkley house is a co-ed shelter with separate male and female sleeping wings attached to the common areas. Regardless of biological sex, youth may choose how they identify at YSB. We served a total of 60 female and 54 male identifying youth, and 12 youth identifying as transgender.

### Age of Youth Receiving Services

Binkley House serves youth from 10 to 17 years of age. In 2022, the majority of our youth were age 14-17, consistent with previous years.

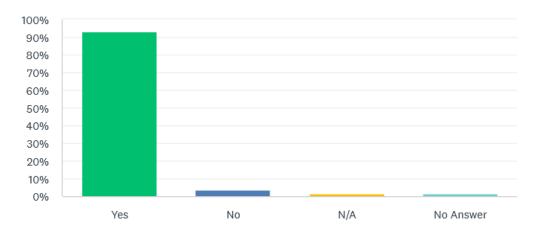

#### **Continuous Improvement Efforts:**

YSB uses a variety of assessments and program measures to evaluate the services provided to youth and families. This information is provided to funding agents and used to identify areas of growth and improvement throughout the agency. This information is captured through resident and guardian exit surveys, Safe Place program evaluations, IYSA entrance and exit questionnaires, and follow-up questionnaires conducted two weeks after completing services with the agency. This information provides the agency with the ability to measure progress within the program as well as determine satisfaction in services. We greatly appreciate youth and parent/guardian participation in helping us to capture this information as a way to continuously improve on the services we provide.

\*Resident & guardian comments can be located on pg.33-34

# Safe Place Manager Report

Safe Place is a national youth outreach and prevention program for young people in need of immediate help and safety. As a community-based program, Safe Place designates businesses and organizations as Safe Place locations, making help readily available to youth in communities across the country. This national model is replicated locally and hosted by the Youth Services Bureau of Monroe County (YSB). The local Safe Place program serves Monroe, Owen and Greene County.

The Safe Place program has continued to serve youth throughout the pandemic and is continually readjusting as things open back up. The Safe Place program still offers access to the Binkley House Emergency Youth Shelter, free counseling in person or via phone, and access to a supportive adult to create a safety plan and learn about more resources. By 2022, all sites had reopened, and schools were more welcoming to outside visitors. The national Txt 4 Helpline continued to be updated throughout to reflect open and accessible sites.

Each year the YSB Outreach and Safe Place Manager educates youth and adults through presentations and presence at local schools, community events, training, a bi-weekly educational hour in our youth shelter, sponsorships of pro-social activities, and community and online advertising. Due to our outreach efforts in 2022, we were able to reach 9,711 youth through in-person events and in-person and online presentations. The outreach opportunities educate youth on what the Safe Place program is, how it can help, how it can be accessed, what happens when it is accessed, reasons why youth may use Safe Place, and the services a youth can receive.

Safe Place continues to partner with Middle Way House in the Building Healthy Relationships curriculum in Monroe County schools. We are working on a partnership with Pregnancy Options in Greene County to expand this school curriculum partnership to the Greene County schools. Community members and guardians are also educated on the program and encouraged to continue a cooperating role in helping youth in crisis. In 2022, 89,786 people received information about the Safe Place program through both online advertising that targets youth and families and community events.

Our local Safe Place program was accessed by 21 youth in 2022 via a Safe Place site. Based on the specific situation, the youth may be provided with referrals, counseling, shelter placement and/or follow-up care. Of those 20 youth initiating Safe Place services, 10 youth sought and were placed in shelter services, and 11 youth accessed counseling. In addition, Youth Services Bureau of Monroe County received 6 calls from youth asking about the Safe Place program or speaking with a staff member to work through an issue.

Each year, YSB works with EffectTV (formerly Comcast) to air a National Safe Place commercial tagged with local YSB information. The commercial airs on networks with youth and families as target audiences, with the ad frequency increasing over summer and winter breaks. Safe Place included Premium Video Everywhere which allows the Safe Place commercial to be aired on any device streaming Comcast Spotlight content. The online capabilities of Premium Video Everywhere measure the specific number of views (impressions) and viewing time with each impression. The commercial was shown to 79,930 viewers who watched the commercial for different amounts of time. Of those 79,930 viewers, the Safe Place commercial was viewed to 100% completion by 75,491 viewers.

Safe Place also advertised with National CineMedia LLC in both Bloomington AMC movie theaters in addition to online ads through streaming services. A Safe Place commercial with local Youth Services Bureau information played before every movie rated PG or higher and in the lobby every 12 minutes. The digital component of the contract focuses on what NCM calls "OTT & CTV" which shows ads through Hulu and Amazon Prime and the channels and streaming channels by targeting devices that have interacted in theaters. In 2022, YSB's campaign with NCM delivered 89,438 impressions with 86,966 of those impressions being viewed at 100%. In Owen County, Safe Place sponsored 4 movies and a live event at the Tivoli Theater. An onscreen ad played before PG-rated movies with Safe Place information. A Safe Place print ad was placed on the theater flyer.

Safe Place procures billboard advertising through Lamar Outdoor Advertising as part of our diverse outreach strategy. Safe Place scheduled one billboard in Greene County and Owen County for the full duration of 2022. Weekly projected impressions totaled 80,595.

In 2023, the Safe Place program will continue expanding outreach and education efforts with youth and the communities it serves. Opportunities to participate in community events and sponsorships continue to be explored as the community returns to larger in-person events. The YSB Outreach and Safe Place Manager will be working on new efforts to increase communication and offer new opportunities to participate in Safe Place outreach for Safe Place sites and volunteers.

# **Clinical Coordinator's Report**

At the beginning of 2022, two counselor roles continued to be filled by Megan Moore, MSW and Ashley Barrett, LMSW. Ashley left the agency at the end of February to pursue other career opportunities, so this role remained open until it was filled in May. Interns played a huge role in helping to cover this gap until a full-time counselor could be hired. The spring saw a large expansion of the Clinical Team with the approval of two additional Counselor positions, as well as a Clinical Services Case Manager position. These jobs were added in the spring of 2022 to focus more on Community Programs and Services. Megan Moore transitioned from her Counselor role within the shelter to one of these new community and programming counseling positions. She created and implemented a Truancy Termination Partnership Program (TTPP) during the summer and launched the pilot year of this program in the fall.

The Case Manager, Juliana Delano, remained in this position until May when she was hired into a shelter Counselor position after obtaining her MSW degree. Julianna has been working hard since taking this new full-time position to learn and master clinical skills with kids and families. She passed her Licensed Social Worker exam in the fall and was also instrumental in helping the new Educational Case Manager get on-boarded. Gena Delos Santos completed her MSW practicum experience in May and was also hired in this month as one of the new programming Counselors. Both Gena and Julianna were instrumental in helping in the shelter during the Clinical Coordinator's absence due to her maternity leave. Gena also passed her Licensed Social Worker exam in the fall. Additionally, Gena also took maternity leave for the birth of her son and then returned to full-time work in December. Since returning she has been focused on creating a Seeking Safety group for teenagers, as well as expanding her community-based clients.

In June, Wendy Greco was hired as the new Educational Case Manager. Wendy was an elementary school teacher previously, so this new role has been a wonderful fit for her, the residents, and the Clinical Team. She has been a great addition to the team and has been instrumental in leading educational Programming, as well as navigating residents' medication and medical needs. In July, Michael Block was hired as the other Counselor who will be working with youth in the shelter primarily. Michael completed a one-semester practicum at YSB in the fall of 2020, so his interest in this full-time position and return to the agency has been a perfect addition to the team. While Michael will be a full-time shelter counselor in the shelter primarily, he has also brought a lot of macro-level organizational experience to the Clinical Team that has been greatly appreciated.

Additionally, Angela Reece also joined the Clinical team in July. She transitioned from a full-time Residential Coordinator position to the new Clinical Services Case Manager position for the community-based programs and services. This was a big career change for Angela with many new challenges, but she has stepped into this new position with enthusiasm. She worked primarily on the TTPP program with Megan this year but will be expanding her duties to also assist with the Seeking Safety program in the future.

Monica Black, started as the Clinical Coordinator in September 2021 and continued in this role this year. She took a prolonged leave of absence from May until August due to the premature birth of her twins and returned to work full-time in the fall. She remains enthusiastic about her role at YSB and is looking forward to the new and exciting challenge of leading the newly expanded Clinical Team.

YSB continued to utilize graduate interns during 2022 as well. This year, YSB hosted four graduate-level interns. Three of these interns were from the IU School of Social Work, and one student was from the IU School of Education's Counseling Program. Graduate interns not only gain a solid understanding of how YSB

functions and provide services to youth and families, but they also participate in observation, shadowing, and processing YSB counseling services. Graduate interns also spend time place in Binkley House, assisting in programming, milieu management and administrative work. Graduate interns work with individual residents, conduct family sessions, and run groups for programming as well. All graduate intern responsibilities are reviewed by the Clinical Coordinator.

YSB Clinical Team members delivered short-term counseling and case management to the 126 placements in Binkley House Emergency Shelter in 2022. In addition to being provided aftercare sessions, residents received follow-up phone calls at regular intervals from the Educational Case Manager. The team was also able to provide counseling to a total of 11 community-based clients. It should be noted that the number of community-based clients seems low here but does not take into account after-care counseling services that take place with residents after they leave the residential program. Clinical team members were also utilized in the Safe Place program to meet with youth, offer support and make appropriate referrals. Within Binkley House shelter, clinical staff facilitated periods of daytime programming, focused on mindfulness, life skills, nutrition and wellness, and college and career opportunities. After-school psychoeducational programming is also facilitated by clinical staff three days a week, which covers topics such as conflict resolution, self-esteem and healthy relationships.

Our ability to provide care for youth and families is enhanced when we have strong relationships with community partners. The team continued partnerships with the Department of Child Services and Monroe County Juvenile Probation in 2022. YSB counselors accompanied residents to court and team meetings as needed. Members of the team also interfaced with local and regional school systems and staff about individual residents and larger community trends. It should be noted as well that the Clinical team also interacted with numerous DCS offices across the state to assist youths from many different counties in Indiana. The agency, typically clinical staff, continued to also utilize Bloomington Meadows Hospital for services when mental health needs are beyond the scope of YSB services.

Despite the continued effects of the pandemic, Clinical Team members participated in and facilitated a variety of professional development opportunities. In 2022, the team participated in several conferences and training, both virtually and in-person, to help further their learning and engagement with the surrounding community. The Clinical Team participated, presented, and/or facilitated at the following conferences and events: Indiana Youth Service Association (IYSA) Annual Virtual Staff Retreat, the 2022 National Runaway and Homeless Youth (RHY) Virtual Conference, the 2022 Monroe County Childhood Conditions Summit (MC3), Seeking Safety training, Positive Action Curriculum for the Truancy program, Active Parenting of Teens training, a Five-Day Motivational Interviewing training with Deborah Wray, a three-day training with the Runaway and Homeless Youth Training and Technical Assistance Center, as well as the Indiana Association of Resources and Child Advocacy (IARCA) Conference.

In 2023, the Clinical Team will continue to provide crisis intervention services, and counseling services and seek to minimize harm and prevent re-traumatization. Looking forward, we hope to continue our efforts to expand the services available to community youth and families. Clinical staff will be an integral part of developing future YSB programming, including areas addressing youth substance abuse through the Seeking Safety program, truancy, family engagement and parenting. It continues to be a mission for the clinical staff to advocate for changes within and across organizations, communities, and systems that affect the children and families we serve.

#### **Prevention Coordinator Report**

2022 marked the sixth year of YSB's Prevention program, which partners with community members, youth, and local organizations to promote safe, stable, nurturing, relationships, and environments (SSNREs). Building community-level conditions where youth can thrive broadly connect the efforts of our Prevention subcommittees: Building a Thriving Compassionate Community (BTCC), Monroe County Youth Council (MCYC), the Bloomington AfterSchool Network (BASN), Indiana Youth Institute (IYI) Monroe County Youth Worker Cafes, the Monroe County Childhood Conditions Summit, and the YSB Youth Advisory Board. In 2022, Prevention programming continued to assess and be responsive to community needs, expanded its range of opportunities, and offered space for deepening the connection between individuals and organizations alike.

#### **Community Collaborations:**

YSB's Prevention program prioritizes a collaborative model, acknowledging that our best work happens when many individuals and organizations with varying skills, capacities, and resources work together. Strategic partnerships with youth, youth workers, and a diverse, cross-sector set of stakeholders create the foundation for our ongoing work.

In youth-led partnerships, YSB's Prevention program continued facilitating the Monroe County Youth Council (MCYC) – a dedicated group of teens with representatives from the majority of MCCSC's high schools. 2022 saw MCYC host a Global Youth Service Day with 3 simultaneous service opportunities for more than 70 youth, facilitate a Winter Leadership Skills Summit to build local youth's ability to lead, host an "Engage" educational event on understanding power, and hold biweekly Leadership Team meetings throughout the year. The addition of YSB's new position, Youth Prevention Specialist, also opened the capacity to begin planning for a Youth Advisory Board composed of past & present YSB residents. While currently in development, in the long term, the Youth Advisory Board will offer a way for residents to stay connected with YSB and build leadership skills, and for YSB to collect valuable feedback on programming and policies.

In 2022, YSB's Prevention Program collaborated with youth workers through our ongoing support of the Bloomington AfterSchool Network (BASN) and the Indiana Youth Worker Institute's (IYI) Youth Worker Cafes. BASN aims to increase the provision of high quality out-of-school-time youth development programs to all Monroe County youth through a collaborative effort among membership agencies. The network has representatives from the Monroe County Public Library, Boys and Girls Club of Bloomington, WonderLab, the City of Bloomington Parks and Recreation's Kid City, the Banneker Community Center, the Indiana Youth Institute, the Indiana Afterschool Network, and more. IYI's Youth Worker Cafes create space for youth workers to come together, identify shared needs, and build skills. Both BASN & IYI Youth Worker Cafes slowly transitioned back to in-person sessions over the course of 2022, offering an increased sense of connection for members & participants.

And lastly, YSB's Prevention program continued to steward the work of Building A Thriving Compassionate Community (BTCC), a cross-sector network providing training, spaces for relationship building, and support for individuals and organizations to move into action on improving community conditions across the social-ecological model. In 2022, BTCC maintained existing programming including Communities of Practice and training cohorts, brought back covid-impacted programming including Quarterly Gatherings and the BTCC Book Club, and expanded to welcome new members and update network infrastructure.

#### **Community Education:**

In 2022, YSB's Prevention program offered educational spaces both within and outside of the organization. Internally, Prevention staff co-facilitated monthly Values Day sessions, ran weekly Prevention "Focus" programming in the shelter, ran quarterly Bias, Values & YSB trainings, and shared resources amongst staff.

At the community level, BTCC ran more than 20 trainings on topics ranging from Trauma & Community Resilience, Dominant Narrative, Primary Prevention, Implicit Bias, Collective Care, and more. Beyond curriculum-specific trainings, BTCC also expanded its communications work, working to shift community norms and narratives.

In October 2022, Youth Services Bureau, in partnership with BTCC and a local planning team, coordinated the 7<sup>th</sup> annual Monroe County Childhood Conditions Summit (MC3). To increase accessibility and sessions offered, MC3 spanned two days for the first time ever. Day One offered 12 virtual sessions facilitated by local experts, and Day Two offered 5 in-person sessions hosted onsite at YSB. Bringing more than 130 registrants representing 55+ organizations together, MC3 2022 explored the theme of Connection. Summit session recordings and resources continue to be available online, ensuring that both Summit participants and community members who were unable to attend can benefit long-term from the exchange of ideas and information.

In 2022, Summit participants represented a variety of sectors and institutions, including child welfare, medical, education, social services, youth partnering & youth serving, emergency services (food, domestic violence, housing & homelessness), higher education (social work & public health, community college), child care, juvenile justice, City and County Government, business, township trustees, mental health/counseling, arts, religious, advocacy, and more.

In sum, Prevention remains integral to Youth Services Bureau of Monroe County's ongoing work. As Direct Care resources youth & families experiencing a crisis, our Prevention Team works in tandem to make Monroe County a place where harm and crisis are less likely to occur in the first place. Prevention helps ground our agency in its vision of a thriving community, rooted in compassion, where all youth and families can thrive.
