

Monroe County Cooling Stations

Extreme Hot Temperatures are more than an inconvenience; they can pose a serious threat to health and safety. Facilities across the county will be opening their doors for temporary relief.

August 24th-27th, 2021

11 AM-7 PM

Will monitor weather to determine if dates need to be extended.

- Cooling stations are a cool facility where individuals, who do not have air, can come in to cool down and continue on their way.
- Food, showers, and areas for sleep are **NOT** available.
- You can also contact your local trustees office for other essential needs.
- We ask that you respect the rules of the station, wear a mask, and maintain 6 foot of distance between you and other individuals in the station.
